Question again proposed.

(10.04 p.m.)

The Vice-Prime Minister, Minister of Education, Tertiary Education, Science and Technology (Mrs L. D. Dookun-Luchoomun): Mr Speaker, Sir, thank you for giving me the floor to address the chair and give my take on the budget presented by the hon. Minister of Finance, Dr. Renganaden Padayachy.

And keeping the several measures enunciated therein, Mr Speaker, Sir, can anyone be surprised that the Minister of Finance should have been acclaimed as the African Minister of Finance of the year. The prestigious African Business Leadership Awards 2023.

Let me also seize the opportunity to thank all those who have worked, along with the Minister, to prepare this budget. I would also like at the very outset to thank the hon. Prime Minister for his leadership and guidance in ensuring that this budget strikes the right balance between the economic priorities and our social inclusiveness policy.

The Prime Minister has always, Mr Speaker, Sir, put the welfare of the people very high on his priority list and I must congratulate him for having always ensured that his vision be translated into concrete actions. Let me also, Mr Speaker, Sir, congratulate my
colleague, the Minister of Finance for having made sure that la vision gouvernementale soit reflétée dans les mesures budgétaires.

Mais, M. le président, que dit l’Opposition de ce budget? Qu’est-ce qu’on n’a pas entendu? Tantôt un budget électoraliste, tantôt populiste, tantôt la bous dou, tantôt diabète! Qu’est-ce que cela peut bien vouloir dire, M. le président? Tout simplement que ce budget est fort apprécié par le peuple mauricien; que c’est un bon budget qui fait la part belle au social à travers une panoplie de mesures solides pour soutenir solidement ce peuple.

M. le président, cette population nous a fait confiance et nous a plébiscités. Malgré ce que dit notre opposition disparate, la population dans son ensemble sait que ce gouvernement est et restera toujours à l’écoute et prendra les meilleures décisions possibles pour le peuple et pour la République. La population, M. le président, n’est pas dupe. Elle sait scièmment bien que c’est ce gouvernement dirigé par l’honorable Pravind Kumar Jugnauth qui a eu le courage et la détermination d’améliorer son sort alors que ceux de l’autre côté de la Chambre ont eu l’occasion dans le passé d’en faire autant mais n’ont démontré nullement la volonté, ni la capacité de le faire.

D’ailleurs, M. le président, ils ne se retrouvent même pas là aujourd’hui dans l’Assemblée. Nous avons, nous autres eu le courage de les écouter, de les entendre, dire un peu n’importe quoi certes mais on était là pour les écouter mais aujourd’hui cette Assemblée vide l’autre côté de la Chambre démontre clairement leur position, démontre clairement leur commitment, M le président. *Yes, Mr Speaker Sir, they are not here because they are very well aware that this budget has indeed put the welfare of the citizens above all other considerations.*

M. le président, l’argument de l’Opposition que tous les efforts que le gouvernement a consentis de faire à travers ce budget provient de la poche des consommateurs mais si ce n’est pas de la démagogie, M. le président, c’est pur et simplement de l’hypocrisie. C’est un secret pour personne que les revenus de l’État viennent de la taxe. Mais il semble que c’est quelque chose qui dépasse the possibilité de comprendre, c’est *beyond the scope of their mind*, M. le président.

M. le président, notre Premier ministre et notre ministre des Finances, c’est deux, ont eu le courage et la volonté de recentrer les actions gouvernementales, de réorienter les ressources vers le peuple pour le bien-être de ce peuple. *This is what it takes to bring relief to the people of the Republic. This is what it takes, Mr Speaker, Sir – la compassion, la volonté et le courage. To dare to care requires all that.*
Mr Speaker, Sir, la pandémie et la guerre Russo-Ukrainienne ont impacté l’économie mondiale et par conséquent, a apporté une montée des prix de produits de consommation. The prices of goods and services are on a rising curve. But, Mr Speaker, Sir, this worldwide phenomenon is due to reasons beyond our control. However, our government has and is still trying hard to ensure that prices of basic commodities remain affordable for each and every one and this through massive subsidies. Je ne vais pas faire la liste, mes collègues avant moi, en ont parlé suffisamment. This has been possible because we wanted it to be so. It has been possible because Government decided that it would be so.

Mr Speaker, Sir, social inclusiveness is an important pillar of this budget. This budget creates conditions to effectively support each and every component of our population. Et aujourd’hui, cette panoplie de mesures rend heureux notre peuple. Mais, permettez, M. le président, que je revienne sur ces mesures plus tard au cours de mon intervention.

A ce moment précis, j’aurai souhaité prendre le temps de la Chambre pour m’attarder sur le secteur éducatif, dont j’ai la charge. Je suis bien sûr heureuse de voir les efforts consentis par le ministre des Finances en ce qu’il s’agit le bien-être de nos enfants.

We, members on this side of the House recognize that our most valuable asset is our children, the future of our nation. In this budget, the Minister of Finance has allocated substantial resources towards their support and well-being. The aim is to ensure that every child has access to quality education, quality healthcare, quality nurturing environment that allows them all to thrive. Investing in our children today, will most definitely yield fruitful returns for our society tomorrow.

Mr Speaker, Sir, education remains a national priority. Supporting each child of the Republic to achieve his or her full potential is the ultimate aim of our government. We are providing numerous support strategies up to the age of 3, then free education at pre-primary, primary, secondary and tertiary levels. We also have established avenues for life-long learning. At the outset, let me state briefly our philosophy of education. We want all our children, all of them, to grow holistically.

M. le président, nous voulons que nos enfants reçoivent une éducation complète, qu’ils soient éduqués mais pas seulement instruits. Nous voulons qu’ils aient des connaissances, c’est-à-dire, le savoir mais aussi le savoir-faire. M. le président dans ce pays comme le nôtre, le savoir-être et le savoir-vivre ensemble reste primordiale. Nous
souhaitons développer chez nos enfants leur confiance en soi, leur self esteem. Nous voulons qu’ils soient conscients de leur potentiel et de leur capacité de réussir.

M. le président, c’est précisément pour cela, pour cette raison que nous sommes venus avec le Nine-Year Continuous Basic Education. Nous avons apporté une transformation dans le système éducatif. Je reviendrai plutôt là-dessus.

Nous travaillons pour le développement intégral de nos enfants, avec l’esprit d’équité en tête. Nous avons voulu que tous nos enfants aient les mêmes chances, les mêmes chances à être touché par la technologie, les mêmes chances à développer leur talent.

I have been holding the rudder of the education sector for the last nine years, Mr Speaker, Sir, and I have no hesitation in stating loud and clear that the system has seen major, even momentous transformations. New institutions have been created. New structures have been put in place and new policies spearheaded.

Mr Speaker, Sir, since we are on the subject of policies, allow me to say a few words on the Extended Programme, tant décrié par certains.

M. le président, permettez-moi de rappeler à la Chambre les propos tenus par le leader de l’opposition alors qu’il était, lui, ministre des Finances durant son discours budgétaire de 2014 et vous verrez, M. le président, que la teneur de ses propos dépend de qu’elle côté de la Chambre il se tient, de qu’elle côté de la Chambre il se retrouve. Voyez ce qu’il avait lui-même décrit comme un Historic Policy Change en 2014. Mr Speaker, Sir, let me quote hon. Duval then, Minister of Finance –

“587. Mr Speaker, Sir, I will now announce a historic policy change.

588. Mr Speaker, Sir, the history of our nation has many defining moments. Many of them have been created by our forefathers and stand forever as their proud legacies.

590. All our children enter school with a range of abilities. Yet our school system examine them on a narrow set of subjects at the CPE level, decides on their education path and even their future when they are still at the tender age of 10 years old.”

He went further, Mr Speaker, Sir –

“594. Mr Speaker, Sir, the intelligence, talents and abilities of children should not be stifled.
595. Instead we need a system that allows all our children to nurture their talents and aptitudes so that they can choose their educational path.”

They can choose their educational path. Mr Speaker, Sir, he went on to say –

596. That is why I am extremely pleased to announce that Government, after wide consultations by my colleague the Minister of Education and Human Resources with the steadfast support of the Prime Minister, and after deep reflections at the “Assises de L’Education”, has decided that no child should be branded as a failure at the CPE level.”

597. Indeed, Mr. Speaker, Sir, Government has decided to introduce NINE YEAR SCHOOLING in our education system.”

M. le président, cette même honorable Membre trouve moyen aujourd’hui de se contredire d’une façon éhontée.

Celui qui disait qu’on ne devrait pas mettre une croix sur un enfant de 10 ans parce qu’il n’a pas réussi son examen de fin de cycle primaire, qu’on ne devrait pas décider de son future à l’âge de 10 ans ; aujourd’hui vient me dire qu’il faut mettre fin à L’Extended Programme et retourner au Prevoc. Il préconise, M. le président, d’envoyer nos enfants à apprendre un ti peu de jardinage, un ti peu de plomberie et il a décidé que ces enfants ne peuvent faire rien d’autre.

Par contre, M. le président, nous, nous avons un tout autre projet pour les enfants de notre République. M. le président, malgré qu’il ait fièrement annoncé à l’Assemblée nationale l’introduction du Nine Year Schooling, après profondes réflexions et soulignant –

« … that no child should be branded as a failure at CPE level. »

j’ai la forte impression, M. le président, qu’il n’a absolument rien compris de la philosophie du Nine-Year Schooling.

Quel est le but du Nine-Year Continuous Basic Education ? Nous voulons que tous les enfants mauriciens puissent avoir la possibilité d’avoir 9 ans d’éducation de base continue et par la suite, être en mesure de suivre le parcours de leur choix, M. le président.

L’idée est que tous les enfants mauriciens puissent être exposés à un curriculum de base et là, les enfants de l’Extended Programme ont eux aussi le droit à cette éducation de base, M. le président. Nous voulons leur donner la possibilité d’être encadrer et de couvrir ce programme d’étude. C’est ça l’idée. J’ai entendu le leader de l’opposition dire que nous
étions au courant que ces enfants n’aller pas réussir et qu’il propose de retourner ces enfants vers un système qu’il n’a même pas évalué. Je lui demanderai –

(a) Qu’est-ce qui lui pousse à dire cela ?
(b) Est-ce qu’il a fait une évaluation du programme Prevoc ?
(c) Est-ce qu’il sait ce qui c’est passer avec ces enfants ?
(d) Est-ce qu’ils ont pu couvrir leur programme ou pas et, par la suite
(e) Ont-ils pu suivre des cours à la MITD ?

Non, M. le président, aucune évaluation n’a été faite. Personne ne sait ce qui c’est passer et il n’y a jamais eu des suivis. Par contre, M. le président, nous avons fait une évaluation.

M. le président, le rapport que l’honorable leader de l’opposition se réfère comme étant un rapport de la World Bank a été commandité par moi, par le ministère de l’Éducation, par mon ministère et la World Bank n’a fait que soutenir la MIE pour cette évaluation.

Il me semble, M. le président, que le leader de l’opposition n’a pas compris l’objectif d’un rapport d’évaluation. Il n’a pas compris que c’est qu’un *Mid-Term Review*. C’était un *Mid-Term Review*. Pour information, M. le président, nous avons, au ministère de l’Education des rapports d’évaluations des projets en cours afin de nous permettre de mieux comprendre les enjeux et les difficultés et dans le seul but, M. le président, de mieux servir tous nos enfants et le leader de l’opposition disait qu’on était au courant que les enfants n’allaient pas réussir.

Mais bien sûr, M. le président, parce que nous sommes en train de les suivre et nous savons qu’elles sont les problèmes mais il n’a rien compris parce que nous autres, nous pensons qu’il est important que ces enfants soient à l’école. Il peut y avoir des *late developers*, ils ont besoin du temps et vous avez d’autres qui peut être, c’est vrai, n’arriveront pas à avoir le NCE mais ils auront un *Certificate of Attainment*.

Au cours des neuf ans, ils auront développé des connaissances, des compétences qui leur permettraient par la suite de mieux construire leurs apprentissages futurs ; *to build on their the future learning, Mr Speaker, Sir*.

Ils auront grandis, ils auront atteint une maturité leur permettant de choisir le parcours qu’ils voudront prendre, être en mesure de choisir la filière ou autres qu’ils voudraient entrer ou ils pourraient choisir aussi d’entrer dans le monde du travail. Nous avons élaboré des passerelles, M. le président, des *pathways*, leur permettant de continuer...
leurs parcours, d’aller à la MITD ou à L’ITET, les polytechnics ou même l’université. Je reviendrai là-dessus plus tard.

M. le président, ces messieurs de l’opposition semblent avoir oublié que le but primaire de notre système éducatif est de récupérer nos enfants. Certains s’offusquent que j’ai trouvé satisfaction quand 71 élèves de l’Extended Programme ont pu réintégrer le regular stream.

M. le président, même s’il s’agissait d’un seul élève, on a pu récupérer un enfant, on a pu refaire sa vie, on a pu le permettre de continuer mais ils ne comprendront pas tous cela parce que eux, ils ne viennent que faire des commentaires sans vraiment aller dans le fond du sujet.

M. le président, 71 enfants ont pu être récupérés, le reste ils ont eu le temps de grandir, ils vont pouvoir choisir s’ils veulent aller pour l’enseignement technique ou s’ils veulent aller pour l’emploi. Ils sont grands, ils sont plus forts et ils peuvent choisir, ils ont développés des compétences, ils sont prêts pour le monde du travail.

M. le président, j’aurai voulu attirer l’attention du leader de l’opposition ainsi que l’honorable Bodha, l’honorable Dr. Gungaparsad, que notre but est de remettre nos enfants sur les rails. Ce n’est pas pour faire de la politique, je n’ai jamais fait de la politique sur les dos de mes enfants, je ne le ferai pas, M. le président.

I believe that all our children have a right to quality education. We all also agree that a child cannot decide on his career path at the age of 10 or 11. Besides, vocational training today is not solely about basic skills but it is also about the acquisition of higher order skills, higher end technical skills. These children have got the potential and we should give them all possible chances and opportunities and no one can also deny, Mr Speaker, Sir, that it is equally vital for our learners to be literate, numerate and equipped with knowledge and competencies, the foundation on which they can construct their future learning.

Besides, too early an entry into the vocational education can only be detrimental to the interest of learners and this is backed by several research carried out worldwide. We must not forget how school closure induced by the pandemic has adversely impacted education worldwide and the students of the extended programme even more but then, for sure, they have received support of their teachers and the entire school ecosystem, to learn more, to grow more confident, to build on their self-esteem and to equip them with competencies to engage in further education and training.
We cannot overlook the hard work and commitment of the teachers, facilitators and heads of schools who have cared for these students and walked the extra mile to ensure that they get the support they so much needed. I would like to thank them for their commitment and dedication, Mr Speaker, Sir.

I believe truly in the potential of these students and we, in Government, shall support them in their progress even if it may be a small step at a time. They are the children of our Republic, they deserve the best. Let us not sap their spirit and their moral. They are the last one to deserve that.

I would earnestly plead to all hon. Members on both sides of the House, to provide as much support as possible, and above all, to enhance our children’s tenacity and resilience, use kind words of encouragement instead of challenging their self-esteem through the adoption of a contemptuous attitude by trying to hit at Government. Do not miss the target and hit on our children, Mr Speaker, Sir.

Permettez-moi, M. le président, maintenant, de répondre aux propos de l’honorable Dr. Gungapersad, who kindly promised not to be toxic. So, will I be. He chose to quote from the Hansard my intervention in 2012 and 2013. Mr Speaker, Sir, I stand by what I have said then in 2012 and 2013, and this is what I am saying today. I have remained consistent dans l’opposition comme au gouvernement, M. le président.

He went further to say, what have I done since 2014 à ce jour? M. le président, let me give him an insight of what has been done. First of all, we have ensured that all our children get the best. On a travaillé pour leur développement intégral. Nous sommes venus avec toute une série de programmes au niveau des écoles. L’Early Digital Learning, mais le plus important de tous, the Early Support Programme. Nous avons pu recruter plus de 488 Support Teachers. Ceux qui vont être à l’école, avec les professeurs de la classe pour aider les enfants qui démontrent des learning deficits, qui démontrent des difficultés d’apprentissage. On les prend, on les remet sur les raille en se servant des pédagogies innovatives.

Alors, M. le président, il ne faudrait pas que Dr. Gungapersad fasse l’erreur de demander ce qui a été fait ? Nous sommes venus avec l’Early Digital Learning Programme. Nous sommes venus avec communication skills, nous sommes venus avec la natation scolaire, l’after school sports, the outdoor education programme. Tout cela, il n’a rien vu. Il se demande ce que nous avons fait ?

On est arrivé avec 460 Holistic Educators pour assurer que tous les talents de nos enfants soient tapped out. M. le président, communication skills, voyez un peu comment
nos enfants dans les écoles primaires maintenant peuvent se mettre sur on a stage et démontrer leurs compétences.

M. le président, quand on est venu avec l’Early Support Programme, c’est pour rassurer que les élèves en arrivant en 6e, n’échouent pas. On les reprend tôt, we catch them early. C’est pour cela que nous pensons qu’à la longue, nous aurons de moins en moins des élèves qui seront dans l’Extended Programme. Plus d’élèves réussiront. On assurera aussi qu’il y a moins de décrochage.

M. le président, nous avons même introduit le coding à l’école primaire. Après tous cela, M. le président, on vient nous demander ce que nous avons fait ! On vient me citer comme si je viens de dire le contraire de ce que j’avais dit dans le passé. Contrairement à vous, j’ai gardé le même langage. We in Government believe that what we are doing, in what we are doing and we are proud to stand by our words.

Mr Speaker, Sir, when we engaged in this programme, we did not leave; we didn’t do it without carrying the evaluation. On a rien fait au petit bonheur, et je ne vais pas retourner là-dessus. Nous avons fait le travail qu’il fallait parce que nous pensons que chaque enfant mauricien a le droit de grandir et de contribuer positivement dans la république de Maurice.

M. le président, if there is one expression we wish to obliterate from the education sector, it is the dead end. There is no place for dead end in our system. We believe in lifelong learning. We have created pathways, des passerelles pour assurer que les jeunes puissent développer leurs compétences et contribuer positivement et efficacement à l’économie. Nous avons permis qu’il y ait un changement vraiment très important dans ce qui est de l’enseignement technique.

It is today agreed that technical and technology creation is a major engine of development, of social equity inclusion and sustainable development et nous savons que tous les pays industrialisés, que ce soit le Singapore, l’Allemagne, la Corée du Sud, l’Inde, they are transforming their ecosystems to facilitate the transition, and advance technological and skilled basic economy. Even our economy has been gradually moving towards hi-tech and knowledge based activities. We have introduced fundamental reforms in the technical education segment and Government has and is investing massively in this area in terms of infrastructure, equipment, and human resource.

Mr Speaker, Sir, to drive our island’s nation towards the next phase of development, towards the high income status, there is a pressing need to establish clear skills sets and resulted career pathways across all occupations in the labor market
including emerging sectors of the economy. The Polytechnics have evolved, to broaden
access and widen participation and serve local and regional needs of liners and industry
alike.

Today, Polytechnics are melding high quality career and technical education with
holistic and 21st century skills, challenging their assumptions that there is only one past to
gain for and productive employment in the labour market, the university.

In line with the vision of Government, the Polytechnics have drafted a unique
space in the high education ecosystem, attracting students with less than 5 credits as much
as the traditional good students who have preferentially opted for more niche, specialised
and shorter programs that directly responds to the changing and future needs of the
industry.

From Internet of Things to Big Data, from robotics to cyber security, and game
development, from leisure management to architecture studies, from oncology nursing to
health care assistance, from industrial logistics to sports, coaching and recreation
management, programmes are as varied as their relevant and fit for purpose and forged
with international institutions of high repute from Australia, Canada, India, Malaysia,
Switzerland and South Africa. Today, Mr Speaker, Sir, Polytechnics regroups more than
3,645 students across its five campuses including Rodrigues.

Qu’est-ce qu’on n’avait pas entendu dans cette Assemblée, M. le président, quand
on parlait du Polytechnics ? On venait nous poser la question, est-ce que ça va réussir ?
Qu’est-ce qu’on ne disait pas à l’époque ? On venait nous demander c’est qui on va
employer ? Qui seront les gens qui seront sur le board ? Mais aujourd’hui, quand c’est une
réussite, personne n’en parle.

Mr Speaker, Sir, I would like to mention that we have been working all the time
for the benefit of our children, for the benefit of the pupils of this country. M. le président,
permettez-moi de retourner sur les propos du leader de l’opposition. Le leader de
l’opposition a déclaré que les collèges privés souffrent d’une politique ‘dominer du
ministère’ et qu’on les asphyxie.

M. le président, on vient nous dire que nous sommes en train d’asphyxier des
écoles ? C’est de la désinformation, M. le président! I would go further. It is
disinformation and misinformation, and this should never be allowed in the education
sector. Sachez, M. le président, que nous n’avons en aucun cas réduit les ressources
attribuées aux collèges pour leur fonctionnement. Bien au contraire, nous avons durant ces
dernières années, augmenté la compensation pour l’utilisation des school premises de
50%. Par contre, nous avons seulement exigé des écoles pour plus de transparence, plus de recevabilité dans l’utilisation des grants.

Cela m’étonne d’entendre le leader de l’opposition se servir du terme ‘dominer’ alors qu’on ne fait qu’exiger que toutes les écoles adoptent les principes de la bonne gouvernance, incluant de la transparence. Je l’ai déjà dit, M. le président, quand il s’agit de public funds, de tax payers money, on a le devoir de s’assurer que les grants sont utilisés pour les intended purposes.

We cannot disburse public funds without ensuring accountability. I cannot do that, Mr Speaker, Sir. I would like to remind the Leader of the Opposition that we are here talking about public funds, tax payers’ money and the State has disbursed more than Rs5.14 billion to the private secondary schools. And this, Mr Speaker, Sir, cannot be termed as being dominer to the private schools.

Mr Speaker, Sir, Rs5.8 billion has now been budgeted in this year’s budget for the same schools. Am I expected to provide such grants without requiring and insisting their adherence to the principals of good governance? M. le président, les bénéficiaires de l’argent public doivent impérativement souscrire aux procédures de déboursement prescrites.

M. le président, je rencontre les membres de la Fédération des Managers des collèges Privés et des collèges Confessionnels, tout comme les représentants des syndicats à chaque fois qu’ils me font la demande.

Mr Speaker, Sir, my Ministry aims at ensuring that each and every child of this Republic gets quality education. And we shall continue to provide resources and support to private secondary schools to that end. This budget provides for additional resources for the private secondary schools.

Mr Speaker, Sir, le Leader de l’opposition a été plus loin and at some point of his intervention, he adopted a derogatory attitude towards our public universities. Il a choisi des termes que je qualifierais de dénigrant à propos de nos universités. Il a même parlé de faillites des universités Mauriciennes. Let me say, Mr Speaker, Sir, that this indisputably the most fallacious statement that could be made regarding our public universities. And this with the intention of manipulating and misleading people – disinformation again, Mr Speaker, Sir!

Does he know that the University of Mauritius is now ranked in the Times Higher Education World University Ranking, a highly prestigious ranking institution? It rates
universities on their commitment to the SDGs and it is among universities which met the ranking, is among the universities which meet the stringent criteria. We are speaking here of more than 20,000 recognised universities in the world.

Let me give a further information that the Leader of the Opposition a préféré passer sous silence. Today, the University of Mauritius is among the top 5% universities in Africa. These are verifiable facts, Mr Speaker, Sir. As for the ranking of UTM, the Leader of the Opposition’s ranking model is based on the popularity of the institution website – Webometrix Ranking model, it appears, Mr Speaker, Sir.

Now, what is also unfortunate is the disparaging remark made by him when in his vain attempt to cast aspersion on the universities, he states and I quote –

« Et après, on se demande comment il y a le chômage à Maurice, comment il y a du under employment à Maurice et comment il y a un skills issue chez nos jeunes.. »

And he continued by saying –

« Personne ne s’offusque ».

M. le président, je m’offusque, devant cette grossièreté de jeter la boue sur la mission même de nos institutions de l’enseignement supérieure. S’il prétend de ne pas le savoir, permettez que j’éclaire sa lanterne, M. le président.

Our graduates from our local universities have been instrumental in fostering the socio-economic development that Mauritius is internationally recognised for. Local qualifications are recognised worldwide and our local graduates have successfully carved a professional niche for themselves in different parts of the world. Would this have been possible if the qualifications were below par? No, Mr Speaker, Sir, there is a lot of international benchmarking that takes place before courses and programmes are delivered. And there is also a powerful network of these universities with the world of Business and Industry both in course designing and delivery. So, for honesty’s sake, let us not blame our public universities. On second thoughts, I wonder, is there an ulterior motive here? Or is that criticism a dig at Public Universities just so to give an edge to private institutions?

Mr Speaker, Sir, it would perhaps be salutary for the hon. Leader of the Opposition to carry out a visit to the universities concerned and to see the work taking place in the engine rooms there! These Public Universities would gladly open their gates to him as they have for thousands of alumni who have made a success of their careers and lives and are to this day contributing to the uplift of our country.
M. le président, nous avons le Higher Education Commission et le Quality Assurance Authority. Ces sont des personnes qui s’y connaissent mais je ne me laisserais pas influencer par des gens qui ont font de la politique sur le dos de nos enfants.

M. le président, je viens maintenant sur quelque chose d’extrêmement important. I was stating earlier, Mr Speaker, Sir, the corrective measures to improve learning and that we should take them and they are best taken right from an early age. In fact, learning gaps start right from the pre-primary level and we have to ensure that these get plugged as from that stage onwards.

L’accès équitable à une éducation de qualité pour la petite enfance reste le moyen le plus efficace de donner à chaque enfant un bon départ dans son parcours scolaire. On parle souvent des 20% d’élèves qui ne réussissent pas à la fin du cycle primaire. Mais est-ce qu’on s’est rendu compte qu’il y a peut-être 20% de la population des enfants qui n’arrive pas à avoir l’encadrement voulu au préscolaire et que très souvent ce sont ces mêmes enfants qui ont des difficultés durant leur parcours scolaire ?

Notre Premier ministre l’a toujours dit, les moyens ne devraient pas être une barrière et que tous les jeunes doivent pouvoir accéder à une éducation de qualité. Il a toujours pris les actions dans ce sens. D’ailleurs avec les universités gratuites depuis 2019, cela a permis à environ 40 000 élèves à accéder à une qualification universitaire.

Et aujourd’hui, M. le président, the Prime Minister has given the country the means for making the wheel of free education come full circle, Mr Speaker, Sir. We know now for the first time in the history of education in Mauritius, we are going to witness the spread of free education across the different subsectors. We can now say that education is finally free from pre-primary to tertiary. Free preprimary education will take on board children as from three years of age.

M. le président, j’ai entendu souvent dans cette Chambre les gens venir dire 20 % des enfants ne réussisse pas, je viens de le dire, ce sont souvent des enfants qui n’ont pas eu les mêmes chances. We are among the relatively small number of countries providing free access to quality pre-school education in keeping with international recommendations. Free pre-primary education is in fact, directly in line with UNESCO’s recommendation for countries to provide at least one year of free and compulsory pre-primary education. We are going one step further by providing one additional year. M. le président, cette mesure viendra changer la donne car nous le savons tous, que tout se joue avant six ans et c’est cela qui nous motive.
International research, Mr Speaker, Sir, carried out by Nobel prize winning economist James Heckman pointed out that for every dollar invested in quality early childhood programmes, there is a powerful return on investment of 4 to 16 dollars. Et cela, M. le président, mènera à une situation extrêmement positive avec une réduction importante du décrochage scolaire, une meilleure performance et aura un effet bénéfique à la longue sur la société dans son ensemble.

We will all recall that the hon. Prime Minister announced, on the occasion of the celebrations of the 55th anniversary of Independence, that pre-primary education would be free for children aged 3 to 5 and that this measure would take effect as from January 2024. This Budget, Mr Speaker, Sir, now formalises this historic decision.

However, Mr Speaker, Sir, we are not there to insist on l’école unique. We haven’t done it in the past and we have no intention of doing it in the future. Private operators will all be obviously invited to join in the system.

However, those schools not willing to join the Free Pre-Primary Education System Scheme will continue to operate as fee-paying institutions. I am pleased to inform the House that the Committee at the level of my Ministry has already started working on the grant-in-aid formula for the sector. Let me once again thank the hon. Prime Minister for his vision and the hon. Minister of Finance for making provision in this budget for this laudable measure.

M. le président, la portée sociale de cette mesure ne peut être sous-estimée. Elle aura un impact extrêmement positif sur tous les enfants de la République. En effet, l’éducation de nos tout petits reste incontournablement un puissant facteur d’équité. A travers cette mesure, on peut facilement imaginer le soulagement des parents qui n’auront plus dorénavant à dépenser pour l’éducation de leur enfant, leur permettant ainsi d’utiliser leurs ressources à d’autres fins. N’oublions également pas ce soutien en grande demande aux écoles dites petites et qui n’ont malheureusement pas suffisamment de ressources. Nous le savons, M. le président, le fossé qui existe entre les pourvoyeurs d’éducation scolaire, préscolaire. Nul ne peut nier l’existence des disparités entre les institutions et cette mesure tant attendue rehaussera le niveau de ces écoles.

Allow me now to briefly expatiate, Mr Speaker, Sir, on the fact that the budget comes with a series of other measures. I will go very briefly on these, Mr Speaker, Sir.

On a toujours été motivé de ce côté de la Chambre, M. le président, par l’inclusion et l’équité. Et c’est bien pour cela que nous sommes venus de l’avant avec le Special Education Needs Authority, avec notre politique de rights approach quand il s’agit des
enfants aux besoins spéciaux. Aujourd’hui ce budget prévoit une augmentation conséquente du budget du SENA permettant une meilleure prise en charge de nos enfants aux besoins éducatifs spéciaux. En permettant à ce que les ONG reçoivent un soutien important dans leurs tâches d’encadrer nos enfants. Nous sommes venus avec les normes à être respectés, nous travaillons sur la formation des éducateurs et des carers. Pas plus tard que la semaine dernière, 459 enseignants des SEN Schools ont reçu un scholarship du Commonwealth of Learning et ils ont été formés. Nous avons aussi eu des experts qui sont venus pour leur parler et pour promouvoir l’empathie chez le personnel des SEN Schools.

Je voudrais attirer l’attention de l’honorable Dr. Gungaparsad, que le nouveau budget prévoit que tout le personnel de ces établissements reçoit le salaire minimum. On a même prévu que les tous enfants des SEN Schools bénéficieront d’un repas chaud. Tout cela est prévu dans ce budget, M. le président.

Nous sommes aussi venus avec les R 10 000 pour les écoles secondaires, pour qu’ils achètent des livres écrits par des auteurs locaux. This measure will serve to revive and promote further the reading culture. A boost will also be given to reading since these are books written by Mauritian authors and therefore present a context that is familiar to the Mauritian reader.

Mr Speaker, Sir, the further benefit that accrues from this measure is that it is a tacit encouragement for local authors to go for creative writing and thus enhance the corpus of local literature. Et cela permettra non seulement l’enrichissement de notre culture mais aussi une diffusion de la culture mauricienne au-delà de nos frontières. This may also prove highly useful to motivate authors to write in any language spoken in Mauritius.

M. le président, nous avons aussi prévu un budget pour les Evening Classes. Nous sommes revenus sur le ratio of teacher to pupil ratio dans ces classes. Nous avons aussi eu la décision d’aider les jeunes couples pour les enfants de moins de trois ans avec une allocation. Cela permettra aux jeunes de penser à fonder une famille, ça les aidera.

Believe me, Mr Speaker, Sir, when I say that all the measures taken here will contribute greatly to making the lives of people in Mauritius better. For a society like Mauritius that prides itself on its multilingualism and on its multi-cultural entity, it would be a disaster to let go of what acts as a mainstay of its identity. So, Mr Speaker, Sir, we are now happy that we have managed to come up with Kreol Morisien in the School Certificate, that we have put up the National Examinations Board.
M. le président, dans ce budget, le Ministre des Finances a aussi abordé la question du Revenu minimum garanti. Nous croyons que des revenus justes et viables sont essentiels pour valoriser notre main-d'œuvre et réduire les inégalités. Je suis contente de noter aussi que pour embaucher des femmes dans le service, ce sera maintenant possible à travers la mesure pour employer les femmes. Pour les aider, on arrive avec les Primes à l’emploi et aussi toutes les mesures qui ont été prises.

Permettez, M. le président, que je fasse un survol des différentes dispositions –
- L’augmentation des pensions que ma camarade l’honorable Jeewa-Daureeawoo a tellement bien illustré ;
- Les prix des denrées essentielles qui ont été gardées bas grâce aux subsides.

M. le président, on n’a pas cessé de dire de l’autre côté de la Chambre qu’il fallait à tout prix baisser le prix de l’essence. Maintenant qu’on l’a fait, on en parle plus.

M. le président, les 8000 logements sociaux en 18 mois et l’augmentation des grants pour la dalle sont tous là des mesures pour le bien de la population. L’investissement dans les infrastructures routières, sportives et autres drains, on le sait tous que le développement du pays passe toujours par la qualité et la durabilité de ses infrastructures.

M. le président, à chaque coin de l’île, vous voyez des chantiers. En ce qu’il s’agit de l’augmentation du prix du carburant, je vous en ai déjà parlé. L’introduction de la taxe progressive, M. le président, ces gens de l’autre de la Chambre disaient que ce n’est pas une taxe progressive. Dans ce cas-là, il va falloir leur demander d’écouter et d’aller entendre, de voir ce que l’honorable Doolub a si bien décrit dans son intervention.
- Le changement dans la structure des impôts ;
- La pension a augmenté ;
- Le minimum wage qui a été revu à la hausse ;
- L’augmentation dans les allocations pour les enfants sur le SRM ;

Et pour cela, je dois remercier le Premier ministe et le ministre des Finances pour le soutien indéfectible qu’ils ont apporté à la population.

Last measure, Mr Speaker, Sir, that goes straight to the heart is the decision to ensure the complete prise en charge des soins aux jeunes enfants qui sont atteints d’un cancer. Government will now cover the full cost of treatment for young patients, even those requiring medical treatment not available in the country. Mr Speaker, Sir, c’est de la
*compassion qu’a démontré le ministre des Finances*. Mr Speaker, Sir, I think the heartfelt cry of parents has not fallen in deaf ears and that is certain. And then, it has always been the deep-seated conviction of this Government that no one should be denied medical care due to financial constraints. So, allow me to insist that this budget is a huge step towards achieving universal healthcare especially when it comes to our children.

*M. le président*, the social dimension of the 2023/24 Budget presented by hon. Dr. Padayachy has been already been well canvassed. And rightly so, I tend to look at it from this perspective. In the past, a parent would never have known what is in store for his/her child right from day one, a whole lot of unknowns, indeed. For the first time, we get the impression from this Budget that the child is protected and cared for right from the word ‘Go’. A lot of support in the initial three years of his existence, the promise of enjoying free education across the several levels, from pre-school to University, a facilitated entry in the world of work, a slew of social and health benefits. To provide this whole panoply of support over the lifetime of individuals takes some daring and the hon. Minister of Finance has clearly demonstrated that he can dare to meet that challenge because he cares, because this Government, Mr Speaker, Sir, cares.

Thank you for your attention.

Mr Speaker: Hon. Obeegadoo!

(10.52 a.m.)

The Deputy Prime Minister, Minister of Housing and Land Use Planning, Minister of Tourism (Mr S. Obeegadoo): Merci, M. le président. Je suis heureux de constater que tout au moins certains membres de l’Opposition aient rejoint l’hémicycle pendant que ma collègue s’adressait à la Chambre.

M. le président, vous me permettrez quelques remarques d’ordre général. Cela fait plus de 20 ans que je suis député ; disons que j’ai servi comme député pendant plus de 20 ans.

Et pouvoir m’adresser à nouveau cette année à mes collègues, et je vous salue, M. le président, ainsi que mes collègues membres du gouvernement et tous les députés, pouvoir le faire, est un grand honneur et un grand bonheur aussi. Connaissant les aléas de la politique, c’est avec humilité, comme toujours, que je m’adresse à la Chambre.

Cela me peine souvent d’entendre, de témoigner de l’agressivité des uns et des autres, des coups bas, de la démagogie quand nous savons que toute notre histoire politique nous enseigne que nos adversaires d’hier sont nos alliés d’aujourd’hui, et que nos
adversaires d’aujourd’hui seront peut-être nos alliés de demain. Pas parce que comme le disent certains commentateurs, nous sommes, nous les politiques, des gens sans principes. Mais parce que la réalité de l’économie mondiale nous offre une marge de manœuvre très limitée en tant que petit pays insulaire cherchant à développer son économie et à assurer la prospérité de son peuple.

D’ailleurs, il n’y a pas grand-chose qui nous sépare sur le fond, je me réfère au consensus social-démocrate qui a guidé ce pays depuis l’indépendance, qui a guidé tous les gouvernements, même si évidemment, il y a des différences de personnalité, du style de gouvernance, du mode d’organisation et de fonctionnement des différentes parties. Mais sur le fond, nous devrions d’une part être assidus dans notre présence à l’Assemblée, et je me suis moi-même excusé pour une absence prolongée inhabituelle hier. Nous devons aussi faire preuve de courtoisie et tenter d’être constructif plutôt que de verser dans une opposition catégorique les uns vis-à-vis des autres des deux côtés de la Chambre.

Cela dit, M. le président, je voudrais dire que ce budget pour moi est d’abord et avant tout la confirmation qu’après le cataclysme du Covid-19, l’économie mauricienne est back on track et que nous pouvons désormais avancer très vite, retrouver le niveau de croissance pré-Covid. Donc, c’est le premier message fort qui à mon avis ressort de ce budget. D’autre part, ce budget est aussi la confirmation d’une philosophie économique qui est celle de notre Premier ministre et qui est celle aussi de notre ministre des Finances, une philosophie économique basée sur le concept de la redistribution et de la croissance.

Mais je vais débuter par un rapide survol de la situation économique en rappelant le contexte historique.

M. le président, sur la base du dollar, valeur 2023 constante, en 1968, le PIB réel par habitant équivalait à 2,377 dollars américains, dollar d’aujourd’hui, avant de passer à 13 000. Pour passer à 13 000 dollars en 2017 et frôler les 14 000 dollars en 2019. C’est ce qui nous permet d’accéder, n’est-ce pas, au rang des pays à hauts revenus. Ensuite, il y a la chute occasionnée par le Covid, mais déjà - et c’est important - les projections économiques nous disent qu’en 2023, nous allons retrouver le PIB par tête d’habitant d’avant le Covid et dépasser les 14 000 dollars américains en présupposant, bien sûr, le taux de croissance de 5 % auxquels nous nous attendons pour l’année calendaire 2023.

Le choc du Covid a été terrible, pire que la récession de 1980. En 1980, on connaîait une décroissance de 10 %, mais on va retrouver la croissance toute suite après en 81 avec une croissance de 6 %. Cette fois-ci, cela a été beaucoup pire avec une décroissance de
presque 15 % en 2020 et nous nous efforçons de retrouver la situation pré-Covid. La Banque mondiale nous dit –

“The government’s swift response to the COVID-19 shock was successful in controlling the public health emergency and protecting livelihoods, but it came at a high fiscal cost. Public debt spiked (…)”

Je le dis pour le rappeler à nos collègues de l’opposition qu’à la base des difficultés, des défis économiques, il y a le Covid-19 que nous ne pouvons oublier, qui a fait exploser la dette publique. Déjà, c’est une dette publique dont le profil s’améliore, comme l’a annoncé le ministre des Finances.

L’inflation - on en a beaucoup parlé dans cette Chambre. L’inflation, initialement, baisse au premier impact du Covid avant de passer à 12 % pratiquement en 2022 bien au-delà des projections de l’avant-Covid. Mais ce qui importe, c’est qu’aujourd’hui we are back on track. Dans son excellent discours, mon collègue, le ministre Mahen Seeruttun, a fait le survol des indicateurs économiques pour démontrer que désormais, ces indicateurs étaient passés au vert.

D’abord, la croissance - cette croissance de 8,7 %, et nous ne sommes pas peu fiers du rôle du tourisme. La Banque mondiale nous dit, croissance supported by the strong tourism recovery. La Banque commerciale nous dit, croissance ‘driven essentially by a pick-up in tourism which accounted directly for over 15% of the economic growth outcome,’ et qui va se poursuivre ‘supported mainly by a further upturn in tourism and the continuing good performance in financial services and ICT.’ Les indicateurs tournent au vert, l’inflation, dette publique, déficit budgétaire, déficit fiscal, réserve de devises et l’emploi – ‘unemployment fell by 5,200, labour force grew by 30,000 and employment increased by 35,200.’ Donc, là aussi, les indicateurs sont au vert.

Je vais rapidement commenter quelques critiques de l’opposition. L’essentiel de la critique tient à la dépréciation de la roupie, à l’inflation, et hier encore, différents intervenants ont parlé d’illusion monétaire. Mais, soyons clairs, certains ont même dit que fait ce budget par rapport à l’inflation. M. le président, la multitude des transferts sociaux annoncés par le budget vise précisément à aider les plus vulnérables à faire face à la vie chère en rehausant le pouvoir d’achat à travers ce que Jean Claude de l’Estrac, observateur indépendant, appelle des mesures nécessaires et pertinentes que présente ce budget. C’est vrai qu’avec l’augmentation des taux d’intérêt, l’inflation a augmenté. Nous sommes une petite économie ouverte et nous ne pouvons absolument rien faire pour empêcher, pour résister à l’impact de l’inflation mondiale, comme le rappelait hier mon
collègue, l’ancien Premier ministre adjoint, M. Collendavellloo, le fait que nous importons l’essentiel de ce que nous consommons.

Unlike many Governments in other countries, this Government has been and continues to be committed to redistribute the benefits of growth through its actions rather than empty words. We cannot by magic make inflation and the associated high interest rates disappear.

But what we can, we have and will continue doing is to ensure that the population receives the income support it needs to deal with these global issues. *Alors, pour être très concret*, for those earning between Rs15,000 and Rs25,000, Mr Speaker, Sir, the Rs2,000 income supplement represents an increase in purchasing power of between 8 and 13% which should be sufficient to offset our imported inflation. For those currently earning less than Rs15,000, they will be even more strongly supported against any inflation by the large percentage increase with the guaranteed income of Rs15,000. For an earner at the minimum wage, Rs11,500, they will receive an income transfer from Government, equivalent to almost a quarter of their income. *Donc, cela c’est notre réponse à l’opposition* - look at the volume, the dimension of the transfers and compare it to inflation.

Deuxième critique : c’est un budget pour les riches parce que la réforme du régime fiscal comporte certains avantages pour les plus fortunés. Je regardais hier un article de *Business Magazine* qui résume parfaitement notre argument. La réforme fiscale comble le déficit d’attractivité de Maurice vis-à-vis de ses concurrents. What does it say? To support redistribution, which is our priority, we need growth and growth requires foreign investment and to be a hub for business that serves Africa and India, we need competitive taxes. In this context, we require a tax regime that is attractive when compared to the 24% top personal income tax in Singapore, the 15% in the Seychelles and the UAE which has no income tax at all. So, the tax reform will benefit to a certain extent high income earners just as it will benefit all wage earners because we need to attract investors to grow the economy and pay for the social measures this government is committed to. But what is important is that the extensive social package that we introduced ensures the benefits of wealth creation will be shared by all. So, my friends of the Opposition, in judging whether the policy package is progressive or regressive, as serious analysts, which I hope you are, I would invite you to consider the totality of taxes and transfers which are expected to improve our Gini coefficient by considerably more than the 6.5. improvement of the Gini coefficient achieved in 2017.
Here again, the Opposition is disingenuous in arguing at the same time that we need new pillars which will rely on foreign investment and then opposing a tax reform that enables us to attract such investment. They are also modeled in their thinking and arguing that at the same time, they say we must diversify our economy, new poles of growth, new sources of economic growth and then saying that our tourism accounts for less, a lower share of GDP than the Seychelles. Obviously, we want to have a healthy and growing tourist sector but we also want economic diversification which such that is not possible for smaller island states like the Seychelles.

Finally, another myth that is being perpetrated by the Opposition is that we have exhausted our borrowing capacity. Firstly let me remind the House that Moody’s has maintained Mauritius at investment grade with a stable outlook which makes Mauritius an attractive country for lenders to finance. This is confirmed in a recent article of The Economist on 20 May 2023 which categorises African States potential borrowers in three categories and Mauritius is one of only two countries categorised as Emerging African State that can easily borrow on capital markets. So, today all our development partners including the World Bank, yesterday Mr Bérenger referred to the World Bank and the African Development Bank are willing if we require them to do so, to provide us with loans to support our socio-economic policies based on inclusive growth through redistribution.

A few words, Mr Speaker, Sir, as regards tourism. Encore une fois, je crois qu’un rappel historique est très utile pour démontrer en réponse au député Boolell qui nous disait hier ou quelques jours auparavant que l’État-providence comme le développement du pays n’est pas le monopole d’un seul parti. Vous avez raison, il a raison, M. le président. Je pense que en regardant l’histoire du tourisme, il faut convenir que tout le monde, tous les gouvernements ont joué leur rôle. Nous sommes passés de 3 350 touristes en 1959 à un peu plus de 15 000 au moment de l’indépendance ; en 1977, on dépasse la barre des 100 000 touristes ; en 1987 la barre des 200 000 touristes ; en 1991 la barre des 300 000 touristes ; en 1994 nous parvenons à 400 000 touristes ; en 1997 à plus de 500 000 ; en 2000 on dépasse la barre des 600 000 pour passer à 700 000 dès 2003 ; à 900 000 en 2007 ; toucher la barre d’un million de touristes en 2014, et là il y a eu une accélération extraordinaire qui fait que nous passons, nous frôlons 1,4 millions de touristes en 2018. Je voudrais rendre hommage ici à tous les ministres du Tourisme qui ont servi le pays dans cette période cruciale de 2014 à 2018 qui nous permet d’arriver à pratiquement 1,4 millions de touristes.
Mais au même titre, je demande à l’opposition de reconnaître l’impact du Covid-19 qui fait qu’en 2021, nous tombons à moins de 180 000 touristes. Nous sommes revenus aux années 1970, M. le président. Le tourisme en 2021 représente 2 % du PIB mais en 2022, nous sommes pratiquement à 1 million de touristes. De janvier à mai 2023, nous avons accueilli plus de 500 000 touristes, ce qui fait que le taux de récupération pour les cinq premiers mois de l’année est de 92 % comparé au pre-covid mais pour les mois d’avril et mai, nous avons fait mieux qu’avant le Covid, plus de 100 % de récupération. Et tout cela, M. le président, est sans doute dû au départ, au soutien financier extraordinaire offert par l’État au tourisme, à l’hôtellerie durant le Covid avec les plus de R 12 milliards de Wage Assistance Scheme et les R 350 milliards et quelques de Self-Employed Assistance Scheme.

En tout cas, aujourd’hui où en est-on ? Le tourisme poursuit sa reprise. Les recettes touristiques sont de l’ordre de R 62 milliards, à peu près, pour la période juillet à mars contre R 47 milliards pour la période pre-covid équivalente. Là j’aurais bien évidemment voulu souhaiter que le Leader de l’opposition soit là, il a disparu après la PNQ d’hier, il n’est plus jamais revenu, je pense après le PNQ d’hier et lui qui nous disait que tous ces progrès dans le tourisme ne compte pas à cause de la dépréciation de la roupie. M. le président, sachez qu’en 2022, en euros constants, tenant compte de l’inflation et de la dépréciation, les revenus du tourisme en 2022 ont augmenté de 5 % comparés aux pre-covid et je mets au défi qui que ce soit de contester ces statistiques.

Donc, nous n’épargnerons aucun effort pour soutenir la reprise du tourisme en cours sur la base d’un partenariat public-privé très fort et d’une stratégie à trois volets consistant à développer les marchés d’opportunités, améliorer et diversifier le produit touristique qu’offre Maurice et la promotion d’un tourisme résilient et durable en améliorant la connectivité bien sûr.

Comme l’a annoncé mon collègue, le ministre des Finances, il y a une réforme institutionnelle en cours, la réforme de la Tourism Authority, le redéfinition du mandat de la Tourism Authority, création d’un bureau de développement du tourisme au sein de mon ministère et comme je l’avais annoncé l’an dernier, un plan sur 10 ans préparé avec le soutien de la Banque Mondiale et de l’Organisation Mondiale du Tourisme.

Vous savez, M. le président, j’ai entendu encore des critiques nous disant que le tourisme aux Seychelles a fait mieux qu’à Maurice. C’est vrai, le tourisme aux Seychelles a repris plus vite qu’à Maurice pour une raison que nous connaissons tous que les Seychelles ont ouvert les frontières bien avant nous. Nous avons fait le choix, comme la
dit souvent notre Premier ministre, de privilégier la santé publique et la vie des mauriciens. Que nous disent les statistiques de l’Organisation Mondiale de la Santé ?

L’incidence du Covid pour 100,000 habitants –

(a) Maurice - 1,194 ;
(b) Maldives - 15,660 ;
(c) Seychelles - 21,470.

Le nombre des décès, M. le président, pour 100,000 habitants –

(a) Maurice - 6 ;
(b) Maldives - 43 ;
(c) Seychelles - 116.

Voilà, M. le président, ma réponse à l’opposition.

On a fait un choix, on a payé le prix fort certainement sur le plan économique, on a utilisé nos réserves pour protéger notre peuple et maintenant, nous sommes en train de rebondir après cette catastrophe du Covid mais je voudrais aussi rappeler, je ne dis rien contre les Seychelles ; c’est un pays ami, c’est un peuple frère. Il est condamné à agir autrement parce qu’il dépend énormément du tourisme, beaucoup plus que nous. Nous avons la chance d’être plus grand et d’avoir une économie diversifiée mais surtout, nous avons investi dans le développement humain. Je voudrais vous parler du Human Development Index.

Mauritius, and this is important, Mr Speaker, Sir, overtook Seychelles to be the top African country on the Human development Index since 2016 and in 2020, we ranked 62nd out of 191 countries surveyed. Mauritius is the only African country to be classified in the very high human development category.

M. le président, la deuxième dimension de ce budget, c’est la confirmation de notre philosophie économique, de celle du Premier ministre dès son arrivée à la tête du gouvernement et qui s’est poursuivi, qui s’est développé avec mon collègue Kishen Padayachy au Finances. Nous croyons, M. le président, que la redistribution des richesses, le combat contre la pauvreté et la réduction des inégalités sont la voie de la croissance indiquée pour notre pays. C’est évidemment le rejet de la Théorie du Ruissellement, cher aux libéraux et aux néolibéraux ; Comme certains l’ont dit hier déjà. Même le FMI, même des économistes néoclassiques, comme Krugman, reconnaissent qu’un niveau élevé d’inégalité est un frein à la croissance et que la redistribution peut être bonne pour l’économie. L’économiste français, Jacques Généreux, nous rappelle que la croissance n’est qu’un instrument tandis que la justice est une fin et que la loi du partage efficient
nous dit, nous indique l’effet positif et significatif de légalité de la distribution des revenus sur le taux de croissance à long terme et que finalement, la seule finalité légitime de l’économie et la qualité de vie des hommes et des femmes à commencer par celle des plus démunis.

C’est la philosophie économique et je me permets, M. le Premier ministre, de dire que c’est votre philosophie économique et c’est celle qui nous inspire toutes et tous de ce côté de la Chambre et j’aurais osé espérer aussi de l’autre côté de la Chambre au-delà des divisions, des antagonismes partisans.

Ce budget est donc un budget de solidarité vis-à-vis des moins fortunés de la société et je voudrais rapidement parler de deux choses ; de la pauvreté et des inégalités. Vous me permettrez de passer de l’anglais et au français, mes notes préparées à la hâte sont parfois en anglais, parfois en français.

The latest World Bank Report I have seen is the macro-poverty report of April 2023 which has this to say –

“Poverty is falling again after COVID-19 reversed recent gains.”

I think we have got to be opened and honest about this.

Si on considère le seuil de pauvreté des pays à haut revenu qui est de 6.85 dollars par jour, Maurice passe de 19 % de pauvres en 2012, and this is a very high standard, the poverty threshold of high income countries, 19 % en 2012 à 11 % en 2019; un progrès remarquables.

We reduced the numbers in poverty for higher income countries by almost half en 2019, puis va remonter à cause du Covid. According to the World Bank, there is obviously, as in any other country, an increase in poverty due to COVID-19 to 16% by 2020 and then it drops again to 13% by 2022.

Donc, nous revenons graduellement au niveau du pré-Covid et nous continuons à avancer vite but let me go back to the Gini coefficient which is, as we know, the standard measure of income inequality and these facts are objective because it is based on the household budget survey that comes out every five years and is made public. Historically, the figures we have go back to 1962, that is used as a base here and we know that income inequality improved up until 1975 because of the labour intensive development strategy with decrease in unemployment but then, after 75, the situation changed and the figures plateaued between 87 in 2007.
We remained, more or less, at the same level of economic inequality and then, as from 2007, the Gini coefficient deteriorated again until 2012. So, the household budget survey of 2012 shows a deterioration in terms of economic inequality and it’s in 2017 that those figures are reversed. So, what I want to say is that between 2001 and 2015, according to the World Bank, irrespective of whatever Government there was; 2001 à 2015, the gap between the incomes of the poorest and the richest in Mauritius, the richest being defined as the top 10% of households, the gap increased by 37%.

So, what happened is that the model we had since independence, this socio democratic I referred to earlier, which all governments believed in, stopped working at a certain point in time. This is where the Prime Minister and the new economic philosophy come in, and this is where the work done since 2014, the social transfers have an impact.

In 2017, Mr Speaker, Sir, we were the 45th most equal country amongst 157 countries with an improvement in Gini coefficient, significant improvement from 2012 to 2017. In fact, inequality in Mauritius is defined as in the relatively reasonable income gap of 30-40 countries. Only 17 countries across the world are in the better relative equality group. Now, this good performance on equality reflects the economic philosophy of the regime since 2014 which continues with the present Government and the present Minister of Finance.

In 2017, Government transfers improved Gini coefficient by 6.5 points. Without Government action, our Gini coefficient profile would have been much worst. In 2001 to 2002, when we were in government, the impact of government intervention only improved the Gini coefficient by 3.3 points and in 2012 by 4.8 points which demonstrates clearly how much more emphasis, the government, since 2014, has placed on social development and an appropriate trade-off between growth and ensuring more inclusiveness as regards the benefits of growth.

I want to say, Mr Speaker, Sir, that to the extent that we had to give up a little of growth perhaps for the sake of more social harmony, less inequality and elimination of absolute poverty, this trade-off has been worthwhile. We only need to look at the deteriorating economic inequality in developed countries in the United States, in Western Europe to see what I mean.

Donc, le palmarès de ces alliances mené par le MSM depuis 2014 est connu. Le negative income tax, minimum wage, Worker’s Right Act, Amendment of Portable Gratuity Fund, the guaranteed redundancy payments, tous ceux dont a parlé longuement mon collègue et ami, le ministre du Travail hier même, il a fait la liste de toutes ces
avancées, sont éloquents. Le résultat, M. le président, c’est que according to the projections in 2020, after 2020, the Gini coefficient is expected to improve as never before since 1962.

Income inequality will recede in a manner that is unprecedented since 1962 as we are awaiting the results of the next household budget survey. But yesterday, Minister Callichurn gave us some figures. He was comparing the calculations he has of the Gini coefficient from 2016 to 2020 and to 2022 to show the marked improvement. According to the World Bank, I go back to this report on poverty of April 2023 –

« Le pourcentage des pauvres sous le seuil de pauvreté des pays à haut revenus, c’est-à-dire 6.85 dollars par jour, devrait revenir au niveau de 2019 cette année avant de décroître pour atteindre un record historique de 10% d’ici 2024. »

If that is the case, it would mean that despite COVID-19, we would have halved the numbers in poverty since 2014.

Just one last indicator to prove my point, the total subsidies and transfers to households in 2023 as compared to 2014 shows an increase of 306%. This is the proof as they say, the proof of the pudding is in the eating. When you compare those figures to whatever you may say about the inflation of its spike, it is objectively established that the lot of the poorest and most vulnerable has improved.

Aujourd’hui, ce budget nous permet d’avancer encore plus vite. Dans un discours remarquable, le ministre de la Jeunesse et des Sports me remémorait le concept fondamental de l’État providence. What do we say, Mr Speaker, Sir? We say that the state must be with its citizens, invest in its citizens, offer social insurance to its citizens from cradle to grave, and this is what my colleague explained. He started by explaining how, in fact, before a child is born, the free and quality anti-natal care offered by the State. Then, the child is born and the new budget now provides for direct income transfer, support to households for children below the age of 3.

Je ne vais pas refaire le discours de mon collègue, et il nous a montré étape par étape comment l’État va accompagner les citoyens jusqu’au jour, malheureusement, où il quitte cette terre comme nous tous. Et même là, n’est-ce pas, ma collègue, la ministre de la Sécurité sociale vous le dira que pour les familles qui ne peuvent pas offrir des funérailles convenables aux défunts, l’État intervient pour les soutenir. Nous, les députés des deux côtés de la Chambre, le savons, car souvent, nous sommes sollicités et nous nous assurons que la sécurité sociale fait ce qu’elle doit faire dans ces cas.
So, this is extraordinary. I regret it that even those positive, I mean, when I was in the Opposition, I used to say that in every budget, there is some good and some bad. I think I must commend hon. Lobine. He is the only one on the Opposition benches that I heard saying that there are positive measures in this Budget.

C’est un budget extraordinaire. Je dirais à mon collègue, le ministre des Finances, que c’est de mieux en mieux. Chaque budget, chaque année, nous permet cet approfondissement de l’État providence dont nous parlent tout le temps le MMM - approfondissement de l’État providence - eh bien, on le fait, de mieux en mieux chaque année.

Vous savez ce qui m’a frappé, M. le président ? Les critiques de l’opposition ne traitent pas de la pauvreté et des inégalités sociales. Ces critiques traitent essentiellement de la gouvernance. Parce qu’ils ne peuvent rien dire, qu’il s’agisse du taux de croissance de l’économie, la reprise économique, le travail qu’a fait le ministre des Finances et le gouvernement pour remettre l’économie sur les rails, ils ne peuvent rien dire qu’en à la réduction des inégalités sociales, le soutien tangible, concret aux plus vulnérables, aux plus pauvres. Donc, le débat politique se déplace dans le seul domaine de la gouvernance.

Mais moi, je le dis à mes anciens camarades du MMM, nous socialistes, et je le dis aussi aux amis du Parti travailliste, les progressistes d’hier et j’espère d’aujourd’hui, peut-on faire abstraction dans le débat politique des progrès socio-économiques que réalise le pays ?

Ce dimanche, je lisais la presse dominicale, et un des titres d’un journal dominical bien connu, m’a frappé.

Le titre c’était : ‘Après l’intermède politique du budget, on en revient aux allégations contre la police,’ etc. Donc, le budget de la nation qui permet d’introduire pour la première fois dans notre histoire un revenu minimum pour les plus pauvres, pour les plus vulnérables, pour les veuves et les orphelins, ce n’est qu’un intermède politique dans la campagne de l’opposition pour renverser le gouvernement. C’est ça qui compte, c’est le plus important. Briser la confiance dans la police, dans les institutions électorales, dans la justice. Tout le reste n’est qu’un intermède politique – l’intermède politique du budget. Toutes les mesures positives, progressistes sont qualifiées d’électoralistes.

Hier dans un brillant discours, le ministre Ramano a répondu à cette critique pour dire : ça veut dire quoi électoraliste ? Je ne vais pas répéter son discours mais juste sur ce point fondamental, M. le président. Électoraliste ou populiste, ce qu’entend l’opposition, c’est que nous cherchons à plaire au plus grand nombre, à la majorité des gens. Mais pour
plaire au plus grand nombre, il faut répondre aux attentes du peuple ; il faut offrir au peuple ce à quoi il aspire. Et il aspire à quoi ? Une meilleure vie, une protection contre la vie chère, des moyens de mieux faire vivre sa famille. Eh bien, si c’est cela être électoraliste ou populiste, oui, nous l’assumons, M. le président. Nous sommes électoralistes et populistes si cela veut dire se tenir à côté du peuple et des pauvres de ce pays !

**The Prime Minister :** Dès le lendemain des élections !

**The Deputy Prime Minister :** Dès le lendemain des élections ! Absolument!

This is a budget for the many and not for the few. *Et nous n’en sommes pas peu fiers.*

M. le président, le temps court, je voudrais dire quelques mots à propos du logement. Malgré le Covid-19 qui nous a paralysés pendant presque deux ans, qui a fait exploser le coût de la construction et cela ce n’est pas mon ami le député Osman Mahomed qui me le contredira. Malgré cela, la NHDC a livré de novembre 2019 jusqu’à présent plus que la totalité de maisons livrées entre 2005, 2006 et 2014. Malgré le Covid-19 ! Et ce n’est pas fini, là depuis juillet 2022, 582 maisons livrées à Mare Tabac et à Wooton. Plus de 1 100 bénéficiaires de *Roof Slab Grant* durant la dernière année financière. Déjà nous entretenons la construction de 8 000 maisons sur 39 sites à travers Maurice correspondant à 400 par circonscription. Et je déplore vivement la démagogie de certains de l’autre côté, de l’opposition, voulant faire croire qu’on aurait boycotté telle ou telle circonscription, enfin, pas telle ou telle mais une circonscription précise avec des sous-entendus à relent communal.

Je l’ai dit, et je le redis, il y a plusieurs circonscriptions où nous n’avons pas trouvé suffisamment de terrain pour construire 400 maisons. Il y a la Circonscription No. 2 à Port-Louis, et j’ai eu le plaisir de m’entretenir avec les députés de cette circonscription bien en amont pour leur parler de la difficulté de trouver des terrains. Nous discutions alors des terrains à Vallée Pitot, je crois, et le député Reza Uteem m’a fait des suggestions, on a essayé mais on n’a pas pu réussir à trouver des terrains appropriés dans la Circonscription No. 2. Pareil pour la Circonscription No. 3 mais pareil aussi pour la Circonscription No. 18 ; pareil aussi pour la Circonscription No. 19. Et la concentration de l’habitat fait qu’on ne peut pas construire en hauteur dans ces régions, ce n’est pas ce qui est indiqué pour un aménagement correct du territoire et qui offrirait un habitat décent à nos concitoyens.
En tout cas, 39 sites, 35 déjà avec la NSLD, les contrats sont signés, les travaux débutent, la main-d’œuvre est mobilisée ; mon collègue le ministre du Commerce s’est pleinement impliqué pour s’assurer qu’il n’y ait pas de manquements et de pénurie en termes de matériaux de construction. C’est une tâche héréditaire et c’est pour cela que je dis que moi j’aborde cette tâche avec beaucoup d’humilité parce que nous essayons de faire ce qu’aucun gouvernement n’a réussi ou même essayé de faire, n’a osé dans le passé. Cela ne s’est jamais fait ! Nous avions parlé de 12 000 maisons, nous mettons en chantier 8 000 maisons avec la ferme intention de débuter la deuxième phase dès que possible.

Le coût de la construction est énorme. On a dû négocier les prix avec les grands constructeurs du pays. Le ministre des Finances en concertation avec le Logement et le reste du gouvernement, le Premier ministre, a fait le choix de confier cette tâche aux constructeurs du pays – mauriciens, locaux, des compagnies enregistrées à Maurice. Encore une fois, sans précédent, en termes de volume de construction dans le secteur public, c’est une ambition extraordinaire, c’est une tâche héréditaire et nous sommes tout à fait conscients des défis. Livrer 8 000 maisons en 18 mois ça ne s’est jamais fait, M. le président. Mais nous avançons pour les habitants des 20 circonscriptions du pays tout en discutant avec Rodrigues d’une formule appropriée pour Rodrigues et la NHDC est déjà engagée dans la construction de maisons sociales à Agaléga.

En plus, la NHDC poursuit son travail. À part les 8 000 maisons, la NHDC durant la prochaine année financière va livrer 203 maisons à Mare d’Albert, 223 à La Valette et va initier des projets pour encore 550 maisons dans différents lieux d’ici juin 2024. Ensuite, il y a les travaux de réhabilitation de différents complexes NHDC à travers le pays – à Atlee, Bambous, Beau Vallon, Dagotière, Gros Cailloux, La Tour Koenig, Vallée des Prêtres – et aussi la construction de fire exits. J’ai été étonné d’apprendre que beaucoup des immeubles de la NHDC n’ont pas de fire exits – incroyable mais vrai. Donc, dans la prochaine année financière, we will be building fire exits at Baie du Tombeau, Bambous, Camp le Vieux, Atlee, Cap Malheureux, La Caverne, La Tour Koenig, Plaine Verte, Poste de Flacq, as fast as we can.

Et à part le travail de la NSLD et de la NHDC, let me say that we are commissioning land use master plans in respect of selected towns and villages but not only, also State land that is not subject to optimal use. And there has been a lot of criticisms on the part of the Opposition again, unfortunately, trying to stir up communal feelings at times, wild allegations at other times but we are moving forward.
The master plan for Curepipe has been completed and I am delighted that the budget provides us the means to move forward. There is a new market fair coming up in Curepipe with a host of other developments. The master plan for Vacoas/Phoenix will be ready this year. In Rose Hill, there is a major redevelopment planned as regards the Rose Hill market and across the country, with the Ministry of National Infrastructure. We are working to improve conditions of life as regards housing and infrastructure for our people. Then there are the urban terminals. Again this was a line of criticism of the Opposition.

We are moving forward under the guidance of the Vice-Prime Minister and Minister of Local Government with development of Urban Terminals coming up in Quatre Bornes, Vacoas, Curepipe and Rose Hill expected to begin in the course of the present financial year.

Il a parlé des personnes âgées vivant au troisième étage dans des complexes NHDC. Il a tout à fait raison. Cela me brise le cœur. Je m’étais promis comme ministre du Logement de pouvoir agir, mais c’est difficile parce que ces maisons ont été achetées, et aller organiser des échanges en propriétaires de maisons, c’est quasiment impossible. Donc, ce que nous faisons maintenant pour les nouveaux complexes que nous livrons, c’est donner la priorité au rez-de-chaussée aux personnes âgées et aux familles nombreuses avec des enfants en bas âge, les handicapés. Ça nous le faisons, mais le drame c’est que ces personnes, les jeunes qui sont plus haut, eux aussi vont vieillir. Donc, il y aura plus tard des problèmes. C’est pour cela que nous préserverons l’espace pour installer des cages d’ascenseur éventuellement même si on ne peut pas le permettre là immédiatement.
Les facilités communautaires, M. le président, j’ai été étonné d’écouter le député Armance. C’est comme si c’était la faute à ce gouvernement que dans tous les immeubles de la NHDC, il n’y avait rien à part les logements. Ce n’est pas vrai, et là depuis deux ans déjà, toutes les nouvelles constructions de la NHDC comprennent un centre communautaire, des facilités sportives pour les enfants, pour les plus âgés, un petit commerce, des locaux pour un petit commerce, taxi stand, le réseau routier, provision of bus services etc. Donc, tous cela est fait et ça c’est grâce à l’initiative de ce gouvernement, de ce Premier ministre, que nous innovons, M. le président.

Donc, je vais conclure. Je vais conclure en disant que first of all, I think that our country is blessed. It is blessed to have avoided the polarisation and the division that witness in so many other countries including North America, including Western Europe. We have, because of this Social Democratic Consensus, because of the new philosophy since 2014 and especially since the present Prime Minister took over, and continued with the present Minister of Finance, we have avoided the social conflict, the social strife that we witness day after day in the more developed countries. It is not an accident, it is due to the policies that are in conformity with the ideals de la famille militante du MSM, de ceux issues du MMM. That is why we are doing it, and all this I want to say, is an embodiment of this new philosophy which the Prime Minister, when he was Minister of Finance I believe, first introduced with the notion of the Negative Income Tax. This was the start and we followed in this new approach ever since.

Ce que nous vivons, M. le président, n’a pas fini de me convaincre que moi-même, ceux de mon Parti, la Plateforme Militante, comme ceux qui ont rejoint le MSM à l’instar de Kavy Ramano, comme le ML de mon ami Ivan Collendavelloo, comme le MPM du ministre Alan Ganoo, de Tania Diolle, que nous avons fait le bon choix. Ces idéaux qui ont été les nôtres depuis notre adolescence, ces idéaux de justice sociale, ces idéaux d’agir dans le concret pour protéger les plus vulnérables, et bien, ces idéaux, nous arrivons à les traduire dans la pratique grâce à notre participation aux côtés de nos amis du MSM dans le présent gouvernement.

Et si vous permettez, je le dis à mes anciens camarades du MMM. Nous partageons toujours – je remercie madame la députée Arianne Navarre-Marie d’être là tout de même – nous partageons toujours les mêmes idéaux. Ce donc nous avons rêvé, le salaire minimum, on en a rêvé au MMM, on n’a jamais pu s’en approcher quand nous étions au gouvernement. Tripler la pension non seulement pour les personnes âgées, mais pour les veuves, les handicapés.
M. le président, moi je suis très ému – et je ne peux pas m’empêcher d’en parler – par les deux mesures de mon collègue pour les enfants. Promettre la prise en charge pour les enfants, donc, tous les enfants jusqu’à 17 ans. Prise en charge des soins médicaux quel que soit la nature du malade. En particulier, le cancer, pour tout traitement qui devra être entrepris dans le privé à Maurice ou à l’extérieur quel que soit le centre médical. Il faut ne pas avoir de cœur pour ne pas avoir été ému par ces appels de détresse régulièrement, les collectes d’argent pour permettre aux parents d’offrir des soins médicaux à leurs enfants à l’étranger.

Eh bien, ceci est chose révolue grâce au présent budget et c’est le signe de la maturité de notre société. Cela démontre plus que tout autre chose que c’est un gouvernement qui a du cœur, que nous sommes attachés profondément à la justice sociale que de pouvoir dire qu’aucun enfant de ce pays – et merci au député Kushal Lobine d’avoir reconnu cela – ne sera victime du manque de moyens économique de ses parents pour être traité médicalement et nous l’espérons, retrouver la santé. Ce sont des causes où l’on devrait pouvoir parler d’une seule et même voix. Je le dis à mes collègues de l’opposition.

Donc, voilà, M. le président, salaire minimum hier, tripler la pension, on l’a fait avant-hier et aujourd’hui introduire et c’est une autre étape historique, ce sera sans doute un des faits marquants de ce budget, d’introduire la notion du Revenu minimum au-delà du salaire minimum. Que l’État intervienne directement pour soutenir les plus pauvres, les plus démunis pour garantir à chacun un revenu minimum de R 15 000. En me joignant à l’alliance en 2019, je ne me serai jamais imaginé qu’on aurait pu réaliser cela, avec en plus le Covid qui nous a mis à genoux pendant deux ans ! Eh bien, on l’a fait. On l’a fait et pour cela, je ne suis pas peu fier d’appartenir à ce gouvernement et je convaincu d’avoir pris la bonne décision en choisissant le camp du Premier ministre, Pravind Jugnauth, et du MSM.

M. le président, nous avons joué de la malchance avec le Covid, but we are back on track. Redistribution des richesses, croissance, c’est une nouvelle année de travail que nous abordons dès à présent et le travail ne nous fait pas peur. Nous sommes reconnaissants envers la population qui continue à nous faire confiance en nous permettant de gouverner et le ministre des Finances avait utilisé une formule : ‘avec le peuple’ et je dirais donc encore et toujours avec le peuple et pour le peuple.

Merci, M. le président.

Mr Speaker: Hon. Prime Minister!
The Prime Minister: Mr Speaker, Sir, it is with a profound sentiment of satisfaction and pride that I intervene on the Appropriation Bill 2023-2024.

Laissez-moi dire aussi, M. le président, que chaque année, il y a certains médias qui décernent une personnalité comme, soit homme ou femme de l’année. Et de temps en temps, on voit aussi certains médias qui présentent quelqu’un comme un héros. Je ne vais pas rentrer dans les critères que ces médias déterminent cet homme ou cette femme ou ce héros. D’ailleurs, on a vu dans certains cas, il y a eu un trafiquant de drogue qui est décerné homme de l’année. On a eu un Maharajah qui est un héros, et j’en passe, sinon je vais prendre trop de votre temps.

Mais moi, je donne plus d’importance to international institutions and international associations. Je dois dire que je suis extrêmement content que l’Afrique a décerné notre ministre des Finances comme le ministre des Finances de l’Afrique. This, Mr Speaker, Sir, is due recognition to his hard work, dedication and competence. Je dois dire aujourd’hui, bien sûr, que je juge des personnes sur le temps. J’ai été moi-même ministre des Finances, et parmi les personnes qui ont collaboré avec moi dans ma tâche n’était pas un ministre, il était M. Kishen Padayachy. Cette collaboration, bien sûr, a continué et je dois dire s’est encore amplifiée. Je suis fier que j’ai pu le convaincre d’être candidat aussi. Il a été donc élu et plébiscité par le peuple, et maintenant, il est le ministre des Finances. Je dois évidemment le féliciter pour le travail abattu.

Et là, je félicite le gouvernement en général parce qu’avec cette pandémie, M. le président, le monde était à genoux. Il y a bien sûr l’opposition qui tourne la page et je ne vais pas refaire vivre certaines critiques de l’opposition à cette époque. Les gens n’ont pas oublié. Mais là, où il n’y avait rien de prescrit dans les livres, dans les textbooks, le monde a dû s’improviser tout comme nous. Mon collègue, le Deputy Prime Minister, a longuement parlé sur ce que nous avions pu faire, et le résultat. Et encore une fois, j’en passe sur certains médias, pas tous, qui ont écrit toutes sortes de choses. Mais moi, je me tiens à la Banque mondiale, au Fonds monétaire international et à l’Organisation mondiale de la Santé. Ce qu’ils voient, ce qu’ils écrivent, comment ils jugent notre performance, c’est ce qui compte le plus pour moi.

My satisfaction and pride stem from the fact that the 2023-2024 Budget presented by my colleague, the Minister of Finance, has also been widely acclaimed by both the majority of our fellow citizens and the economic operators. It is a Budget that protects the purchasing power of our people and improves the quality of life in our Republic. It is a
Budget that provides a boost for the economic recovery that has been registered since 2022 as a result of our bold actions and measures to mitigate the impact of COVID-19 and the war in Ukraine.

M. le président, le Budget 2023-2024 est un budget gagnant pour la population. C’est un budget dynamisant pour l’économie du pays. Je remercie tous nos compatriotes qui ont vite compris que le Budget a répondu à leurs attentes et que mon gouvernement n’a jamais cessé de démontrer qu’il a une approche humaine dans la gestion de notre pays.

Les réactions suscitées auprès des principaux opérateurs économiques du pays sont aussi éloquents, et j’ai noté quelques-uns.

PriceWaterHouseCoopers Mauritius parle d’un budget qui vise à booster la compétitivité de notre juridiction dans le but d’attirer davantage d’investissements et de renforcer notre économie.

KPMG Mauritius affirme que ce budget démontre que Maurice est de nouveau parfaitement aligné sur les rails de la croissance.

Deloitte a souligné une série de mesures budgétaires visant à enlever les barrières à l’investissement, à apporter des solutions au défi de la main d’œuvre et à renforcer notre économie.

Business Mauritius parle pour sa part de réelles avancées dans le climat des affaires.

Il est indéniable que les mesures phares du Budget restent fidèles à notre philosophie socialiste d’abord, qui met le peuple au centre du développement socio-économique. Je partage le point de vue du ministre des Finances qui dit qu’il n’y a pas de progrès économique sans justice sociale.

Au sein du gouvernement, nous avons toujours été à l’écoute de la population et nous avons agi dans la continuité pour répondre aux attentes de tout un chacun, nos compatriotes les plus vulnérables en particulier, afin, bien sûr, de bâtir une société plus juste et encore plus équitable.

Peu après les élections générales de 2019, ce gouvernement, comme je l’ai dit et l’ai fait rappeler, s’est confronté à la pandémie du Covid-19. On a fait face, M. le président, à une situation sans précédent, mais nous avons relevé tous les défis avec courage et détermination. Nous n’avons jamais abdiqué, mais au contraire, nous avons pris la pleine mesure de nos responsabilités et avons agi en conséquence.
Nous avons sauvé des vies, c’était notre priorité, nous avons sauvé les emplois de nos compatriotes, nous avons sauvé les entreprises. Les salaires, les bonus de fin d’année, les pensions ont été payées normalement. À aucun moment, l’État Providence n’a été remis en question. Nous nous sommes assurés de la sécurité et de la protection de nos compatriotes socialement vulnérables et nous avons veillé à ce que ceux vivant avec des maladies disposent de médicaments adéquats.

Nous avons mis à la disposition de la population des vaccins efficaces dans un temps record et nous avons équipé nos hôpitaux et centres de santé adéquatement. Et, M. le président, cela me peine de faire rappeler à la population au tout début de notre campagne de vaccination, cette campagne de certains de l’opposition qui avait même dépensé leur argent pour mettre sur les billboards - mo lekor pu mwa ou je ne sais pas quel genre d’insanités qu’ils avaient mis comme campagne - ne faites pas le vaccin, vous allez avoir plus de problèmes de santé. D’ailleurs, je n’aime pas me référer à ça mais ça démontre vraiment comment cette opposition surtout Travailliste, leur façon, je dirais, leur irresponsabilité, leur leader même le Dr. Navin Ramgoolam, lui-même il n’était pas convaincu du vaccin, il n’avait pas fait de vaccin et j’en passe pour dire ce qui s’est passé après. Mais nous, nous avons agis et bien sûr nous avons agi en tenant compte des progrès scientifiques ; en tenant compte des conseils des organisations comme l’OMS et d’autres ; en tenant compte du fait que des pays comme l’Angleterre, la France, l’Amérique avaient bel et bien commencé leur campagne de vaccination.

Alors, combattre le Covid-19, préserver les emplois et les entreprises ont nécessité l’injection de plus de 110 milliards de roupies. Je dis bien : 110 milliards de roupies ! Il fallait le faire, nous l’avons fait remarquablement bien, ce qui nous a permis de redémarrer nos activités le plus rapidement possible. Et aujourd’hui, M. le président, nous sommes fiers en tant que peuple d’avoir fait preuve d’une solidarité et d’une résilience exemplaire pour se relever du Covid-19. Mais, malheureusement maintenant, nous avons la guerre en Ukraine qui est venue apporter son lot de défis avec bien sûr des bouleversements au niveau de la chaine de distribution mondiale des produits alimentaires surtout et des carburants.

Ce qui a résulté à des poussées inflationnistes et ça a été pour tout le monde, tous les pays, il y a plusieurs orateurs qui ont donné chiffre à l’appui et tout, et Maurice, petit État insulaire qui importe la plupart de ses produits de consommation, n’a pas été épargnée. Maurice bien sûr a aussi subi les contrecoups d’une insuffisance de devises étrangères due à l’arrêt des activités économiques pendant la pandémie et cela évidemment a impacté sur la valeur de notre roupie et alimenté l’inflation. Nous disons la
vérité. Ce n’est pas comme-ci on était en train de ne pas donner les raisons de ce qui s’est passé mais nous avons pris et nous sommes en train de prendre des mesures d’après nos moyens, bien sûr.

Et, budget après budget, M. le président, ce gouvernement est venu en aide à la population tout en accordant une attention spéciale à ceux qui sont les plus fragiles afin de protéger leur pouvoir d’achat. Par exemple, les subsides sur le riz, la farine et le gaz ménager ont triplé en l’espace de 3 ans. Triplé ! Nous avons subventionné pendant une année, une dizaine de produits les plus consommés. Nous avons introduit le paiement d’une allocation de R 1,000 sous le CSG Income Allowance à tous les travailleurs touchant jusqu’à R 50,000 par mois. Nous avons fait mieux avec l’actuel budget, car tout en maintenant l’allocation de R 1,000 à ceux touchant entre R 25,000 et R 50,000 mensuellement, nous accordons maintenant une allocation de R 2,000 à ceux touchant jusqu’à R 25,000 mensuellement. Et malgré tout ça certains de l’opposition : nanie pa pe fer mem, nanie pa bon mem! Je me souviens d’un collègue, ancien ministre qui régulièrement intervenait lors de notre mandat de 2014 à 2019, l’ancien ministre Sinatambou, qui avait dit que l’opposition souffrait d’un virus. Le virus s’appelait ‘nanie na pa bon mem’. Ça continue ! Ce virus est toujours là. C’est un virus qui est plus tenace que Covid-19, M. le président.

Il ne faut pas oublier que depuis janvier de cette année, tous les travailleurs indistinctement touchent une compensation salariale de R 1,000. R 1,000 on a donné, across the board et il est amusant de voir que ceux qui avant le budget, nous demandaient de maintenir cette mesure qu’eux-mêmes n’ont jamais eu le courage de prendre, venir nous dire aujourd’hui qu’on aurait pu faire plus. Avant le budget ils disaient, il faut faire ça, il faut donner ça. Quand on le fait, ce n’est pas assez, il faut faire plus maintenant. Eux ils n’ont rien foutu pendant qu’ils étaient au gouvernement ; maintenant il faut faire plus.

Le Basic Retirement Pension est passé à R 11,000 par mois. Grâce à la contribution du CSG Retirement Scheme, les retraités âgés de 65 ans ou plus toucheront R 12,000 par mois et là aussi, qu’est-ce que l’opposition vient dire maintenant ? J’avais promis R 13,500, où sont les R 13,500 ? Bon, je dois dire premièrement, M. le président, on n’avait pas prévu Covid-19, on n’avait pas prévu à dépenser autant de milliards de roupies pour soutenir les travailleurs et les entreprises. On n’avait pas prévu une inflation causée par la guerre en Ukraine qui affecterait le monde entier, y compris nous et qu’il fallait donner des subsides et augmenter des subsides. Mais en plus, je ne m’engage pas aujourd’hui mais je dis : soyez patients messieurs, mesdames de l’Opposition ! Soyez patients ! Nous avons encore un budget et nous allons travailler, dépendant bien sûr de la situation
économique. Moi je ne fais pas de la démagogie. Oui, j’avais promis, j’ai promis. Évidemment quand je promets, c’est comme on dit en économie *Ceteris Paribus*, je crois, *all factors remaining constant*, c’est-à-dire, qu’on continue sur notre lancée à faire des progrès, la croissance etc. mais il n’y a pas eu de *Ceteris Paribus*. Alors ? Donc on va faire le maximum dépendant bien sûr de la situation économique qui va prévaloir l’année prochaine au moment de la présentation de notre dernier budget.

J’avais écouté mon collègue, la ministre Madama Daureeawoo. D’ailleurs je vais prendre les chiffres, pas pour les mentionner encore une fois aujourd’hui, elle l’a déjà fait si bien, et ces chiffres-là doivent être régulièrement communiqués à la population parce que vous les membres, quand je dis vous, je parle surtout de l’ancien gouvernement Travailliste parce qu’à chaque fois vous venez dire maintenant : oui, on aurait dû donner R 13,500, on aurait dû faire plus etc.

**An hon. Member:** Zéro.

**The Prime Minister:** Quel est votre bilan en termes de pension, en termes d’augmentation pour les personnes âgées ? Et qu’est-ce que disaient le MMM et le Parti travailliste à cette époque 2014 quand on avait proposé à la population, dans notre programme de campagne électorale, notre manifeste, que la pension allait augmenter à R 5,000 ? *Non, pa pou kapav done, pa pou done, pa pou done!* MMM-Parti travailliste ! Et à l’époque, ils étaient tellement sûrs de gagner les élections générales parce que 40 + 40 ! Mais 40 + 40 a fait 10 !

Ils ne savent pas cette mathématique-là. Attendons voir ! Moi, je ne regarde pas dans, comme on dit, *boul kristal*, je ne peux pas prévoir. Mais je peux prévoir ce qui va se passer ; d’après moi. On verra ! *Time will tell!* Parce que les gens font la différence entre ceux qui parlent le langage de la vérité même quand il y a des problèmes, même quand on fait face à des situations sans précédentes, on a toujours dit la vérité à la population. Et ceux qui, comme j’ai dit, ont des masques, vous allez voir - il nous reste un an et demi - combien de masques vont tomber du côté de l’opposition. Vous allez voir !

Et nous avons augmenté toutes les autres pensions de R 1,000, ce qui fait que depuis 2019, le *Basic Retirement Pension* a augmenté de R 2,000 soit une hausse de 22%, compensant totalement pour le taux d’inflation cumulative.

Depuis 2014 le BRP a augmenté de 120% contre une inflation cumulative de 34. 2 %. Ce sont les chiffres, M. le président.
Et ajouté à cela, le Revenu Minimum Garanti passe à R 15,000, n’en déplaise à certains, je ne vais pas répliquer l’honorable Mohamed qui avait fait tout un cas. Qu’est-ce qui est important ? Ce que reçoit la personne ; R 15,000 ! C’est ça qui est important, pas des théories et cela représente une hausse de 35% depuis 2019 et je dois encore une fois dire, ceux qui parlent, comme-ci de confusion autour de cette avancée, font preuve de mauvaise foi et d’hypocrisie.

Nous avons baissé le prix de l’essence de R 5.10 le litre en renflouant le *Price Stabilisation Account* de la *State Trading Corporation* à hauteur de 1,25 milliard de roupies. Nous agissons de manière responsable afin de ne pas mettre la STC en situation de faillite. Là, je dois dire, encore une fois la démagogie de l’opposition, ils disaient à chaque fois depuis un certain temps –

« Il faut baisser le prix de l’essence, il faut baisser le prix du diesel. »

Allez regarder les chiffres ! A chaque fois qu’il y a eu une augmentation – il y a le mécanisme qui est déjà en place - on n’a pas augmenté le prix dans sa totalité. Qu’est-ce que cela veut dire ? Cela veut dire que la STC a fait des pertes pendant plusieurs années. Ces pertes sont, si je peux le qualifier en termes de subsides finalement pour la population parce qu’on aurait dû augmenter le prix par beaucoup plus et pour le diesel, comme-ci ils ne savent pas le prix du diesel a régulièrement augmenté à l’importation. Encore une fois la démagogie !

M. le président, nous nous engageons aussi à réformer la taxe sur les revenus en l’abolissant pour les contribuables qui n’ont pas de dépendants et qui touchent jusqu’à R30,000 par mois. Un contribuable avec un salaire mensuel de R 30,000 économisera R 6,500 sur une année et cet argent sera désormais à sa disposition en sus des R 1,000 d’allocation mensuelle du *CSG Income Allowance*.

150,000 autres contribuables paieront moins de taxes et à titre d’exemple, un contribuable touchant R 50,000 et qui n’a pas de dépendant économisera R 15,700 sur une année. Un autre contribuable avec deux dépendants, touchant R 70,000 par mois, économisera R 25,575 sur une année. Cela augmentera le ‘*disposable income*’ et conséquemment, le pouvoir d’achat va s’améliorer.

M. le président, je suis également heureux qu’avec le Budget 2023-2024, nous sommes en train d’augmenter de 19% les assistances payables aux bénéficiaires sous le *Social Register of Mauritius*. 
Une autre mesure qui témoigne de notre humanisme est le financement à 100% des frais de traitement à Maurice ou à l’étranger pour les enfants et adolescents âgés de moins de 17 ans souffrant d’un cancer.

Nous encourageons le recrutement des jeunes et des femmes avec la ‘Prime à l’Emploi’ de R 15,000 et dans ce Budget, nous incitons les femmes de tout âge à rejoindre le monde du travail et suppléer ainsi au manque de main d’œuvre dans différents secteurs.

Nos actions le démontrent, ce gouvernement a toujours privilégié encore l’éducation et l’épanouissement de nos enfants et de la jeunesse. C’est pour cette raison qu’en 2019, nous avons introduit la gratuité au niveau de l’éducation tertiaire dans les institutions publiques. C’était une décision historique. Deuxième décision historique à partir de janvier 2024, l’éducation pré-primaire aussi sera gratuite dans les institutions accréditées. Et une troisième décision historique a été annoncée dans le Budget, à savoir que le gouvernement contribuera R 2,000 par mois au développement d’un enfant depuis sa naissance jusqu’à l’âge de trois ans. Ce qui veut dire, M. le président, que le gouvernement prend en charge l’épanouissement de chaque enfant de la République depuis sa naissance jusqu’au moment où il termine ses études universitaires.

Ajouté à cela maintenant, à la majorité, nos jeunes percevront désormais une subvention de R 20,000 à l’âge de 18 ans. Qu’est-ce que certains sont en train de dire ? R 20,000 bribe électoral !

Et tout à l’heure, quand le DPM énumérait le nombre de mesures dans son discours, tout sa bribe électoral. J’ai fait la remarque. Vous savez depuis que nous avons gagné les élections, le lendemain ça veut dire que nous avons toujours fait des bribes électorales, tous les jours. Tous les jours des bribes électorales ! C’est un peu comme le leader du MMM, qui, à chaque fois après les élections générales, il vient dire –

« Eleksion deryer laport. Eleksion pou vini, eleksion taler, eleksion dan enn mwa. »

Mais ce qu’il dit va s’avérer vrai à un de ces jours parce qu’il y aura des élections après notre mandat de cinq ans. Mais à ce sujet, M. le président, cela me désole que certaines mauvaises langues essaient de donner une connotation politique à cette mesure et qui consiste pourtant à donner un appui à chacun de nos enfants qui démarre sa vie d’adulte et par respect à notre jeunesse, je ne répéterais pas les arguments dénués de tout fondement et je dois dire même dégradants et autres insinuations formulées par ces personnes, qui pourtant jouissent d’une certaine influence.
Contrairement à eux, moi, en tant que Premier ministre, j’ai foi en chaque jeune de notre pays, j’ai confiance en leur capacité de faire briller davantage notre nation arc-en-ciel, et je m’engage encore et encore à les épaüler afin qu’ils réalisent leur plein potentiel et je n’ai aucun doute que cette subvention marquant le 55ème anniversaire de notre indépendance leur offrira un levier idéal dans cette volonté pour un avenir meilleur que nous avons tous en commun.

M. le président, nous avons été au chevet de notre économie en 2020-2021. Nous avons osé et nous avons réussi à redresser la barre et enregistrer une reprise soutenue. Aujourd’hui, les principaux indicateurs économiques sont au vert. La croissance - laissez-moi mentionner certains - est de retour avec une prévision de 8% en 2023-2024. Nous avons ramené le déficit budgétaire à 3,9% en 2022-2023 et nous nous sommes fixés un objectif de 2,9% pour la prochaine année financière. Le taux de chômage a baissé de 9,2% en 2020 à 7,7% en 2022. L’Investissement Direct Étranger qui avait baissé à 17 milliards de roupies en 2020 a atteint 27,6 milliards de roupies en 2022. Les investissements totaux ont augmenté de R77 milliards en 2020 pour dépasser R125 milliards en 2022.

Ces résultats ne sont pas les fruits du hasard mais ils découlent d’une action concertée, réfléchie et cohérente à tous les niveaux.

Les réformes et politiques mises en place ont permis de consolider les 3 critères cruciaux à la bonne santé économique de notre île.

Nous avons su préserver et rehausser la paix sociale, qui pour moi est fondamentale et déterminant. Nous avons assaini davantage le climat financier et nous demeurons un exemple mondial en termes de stabilité politique.

A ceux qui régulièrement brandissent à la moindre occasion le rapport V-DEM, j’ai ceci à vous dire, l’Economist Intelligence Democracy Index classe notre pays en première position en Afrique - vous allez dire que nous sommes régulièrement premier en Afrique - mais 21ème au niveau mondial. 21ème, M. le président ! Notre pays se trouve dans la ligue des full democracies au même titre que les pays du G20 tels que le Canada, l’Allemagne, le Japon ou encore le Royaume Uni. J’ai entendu dire un nouveau terme maintenant de l’honorable Armanse, je n’entends plus ‘totalitaire,’ ‘autocrat, ’or whatever. Il y a un nouveau terme maintenant.

Vous pouvez croire, vous vivez dans un pays où vous avez la liberté de la radio, de la presse écrite, où n’importe qui, pas seulement l’opposition, peut manifester peut faire des réunions disant n’importe quoi aussi, des propos très diffamatoires dans pas mal de cas. Et c’est l’autocratie ! C’est un régime totalitaire ! Moi, le dictateur ! En tout cas,
Economist Intelligence Democracy Index va vous dire qu’est-ce qu’on est. Un full democracy!

Le monde nous cite en exemple et nous accorde sa confiance. Il est grand temps que nous nous fassions nous-mêmes confiance. Je suis persuadé que ceux qui ont à cœur l’avenir et le progrès de notre nation adopteront cette approche. Moi, j’ai une confiance absolue en notre destinée.

M. le président, il est clair que la confiance est revenue, l’optimisme est de mise, et ce budget va catalyser la reprise économique que nous avons connue.

En tant que Premier ministre, moi, je suis confiant que nous pouvons retrouver assez rapidement notre rang en tant que pays à revenu élevé que nous avions atteint en 2019.

Épousant la philosophie des budgets que j’ai moi-même présentés dans le passé, mon collègue, le ministre des Finances, a soutenu les petits planteurs qui ont tant contribué au développement de notre pays. Le prix garanti d’une tonne de sucre passe à R 27 500 pour ceux produisant jusqu’à 60 tonnes de sucre, encore un nouveau coup de pouce.

De même, l’effacement des dettes - très important cette mesure - l’effacement des dettes de plus de 20 ans des petits planteurs, pêcheurs et éleveurs pour leur donner une bouffée d’air frais.

Concernant les pêcheurs, la hausse de l’allocation de mauvais temps à R 650 par jour est salutaire, de même que l’augmentation à R 100,000 du lump sum qui est payable à un pêcheur souhaitant rendre sa carte de pêcheur et prendre sa retraite.

M. le président, ce matin, je viens de recevoir une compilation des mesures annoncées et implémentées depuis décembre 2014 pour soutenir le pouvoir d’achat et améliorer les conditions de vie de la population. Ces mesures ont nécessité des débourssements de 275 milliards de roupies - je dis bien, 275 milliards de roupies - et uniquement en termes de revenues additionnel, c’est-à-dire salaire pension, de différents subsides et des assistances financières directes. Cela est sans précédent. Et il y a certains qui ont le culot de venir dire que nous avions mis la population à genou. J’ai justement demandé à faire cet exercice.
Je salue également, M. le président, les mesures qui nous permettrons d’avancer dans nos initiatives concernant la sécurité alimentaire et énergétique. De même, les mesures pour continuer à s’adresser surtout aux problèmes et défis posés par le changement climatique.

Les investissements dans les infrastructures publiques de même que dans les aménités dans les différentes régions du pays témoignent de notre volonté sans cesse renouvelée de modernisation pour améliorer, bien sûr, davantage la qualité de vie au sein de notre République, et dans la même foulée, nous continuons à améliorer le climat des affaires dans le pays et nous accélérerons le processus de digitalisation de l’économie.

M. le président, j’aborderai maintenant les secteurs et dossiers tombant sous ma responsabilité directe en tant que Premier ministre, ministre de la Défense, des Affaires Intérieures et des Communications Extérieures, ministre de Rodrigues, des îles Éparses et de l’Intégrité territoriale.

Mr Speaker, Sir, for our people to prosper, they must, first of all, feel safe in their country and in their living environment. In line with its mandate, the Mauritius Police Force is contributing immensely in improving the quality of life in our Republic by ensuring a safe and secure environment for both our citizens and visitors.

The Police Department will have a budget of Rs10.9 billion to implement new projects and enhance the quality of its services. One of the projects is the setting up of a Police Academy that would stand out as a Centre of Excellence for law enforcement training in the region. A plot of land of 28.5 acres at Côte d’Or has already been vested for its implementation. The Academy will provide a common training platform, not only for the Police, but also for the Mauritius Prison Services and the Mauritius Fire and Rescue Services.

Another important project for which funds have been provided is the construction of a new G+2 building to house the Operations Room of the National Coast Guard, including the Maritime Rescue Coordinating Centre and the Server Room/Control Centre of the Coastal Surveillance Radar System. The new building will meet the requirements of the National Coast Guard, in terms of modern and spacious working place and will accommodate the new Coastal Surveillance Radar System being acquired from Japan. Moreover, to enhance surveillance and ensure optimal maritime safety and security, the Police Department will acquire a new Offshore Patrol Vessel at an approximate cost of Rs330 m. Also, 12 Light Armoured Personnel Carriers are being purchased to complement the existing fleet of vehicles so as to meet the country’s expectations in terms of internal
security, disaster management during cyclonic conditions, flooding and other types of natural disasters and any other contingencies that might arise. In addition, Rs125 m. has been provided to renew the fleet of transport vehicles.

Mr Speaker, Sir, the Budget will also allow the recruitment of 1,000 Police Officers, both male and female, during Financial Year 2023-2024 and the promotion of 833 Police Officers to the rank of Police Corporals to fill vacant posts following the retirement of Police Officers. The Disciplined Forces Service Commission has already advertised for the enlistment of Police Constables/Woman Police Constables.

To further enhance the capabilities of the Safe City Project, noise cameras will be procured. The number of cases elucidated with the help of Safe City cameras bear testimony to the effectiveness and success of this project. Another indicator of its success is the number of requests obtained not only from members of the public but some Members of the National Assembly, also, for the installation of Safe City cameras in their vicinity and in their respective constituencies also.

Mr Speaker, Sir, my Government is pursuing its endeavour to modernise the Mauritius Prison Service and in ensuring that it is properly equipped and staffed. To enhance security, the CCTV surveillance systems have been revisited and are fully operational in all prison institutions.

In 2022, we equipped the Central Prison, Beau Bassin with a full Body X-Ray Scanner. This equipment has been instrumental in detecting illicit items hidden by detainees. Out of 22,979 scans conducted, in 129 cases foreign bodies were identified among detainees. An amount of Rs18 m. has been allocated in the current financial year so as to equip the Grand River North West Prison and the Eastern High Security Prison with similar scanners. A contract was awarded on 31 January 2023 for the procurement and installation of the said equipment and delivery is expected by end of this month.

Moreover, provision has been made for the upgrading of prison infrastructure at the Eastern High Security Prison, Melrose and the Petit Verger Prison.

I wish to inform the House, Mr Speaker, Sir, that the re-engineering of both the Prisons Department and the Probation and Aftercare Service to promote better offender management practices is being looked into following recommendations submitted in the ‘Beyond the Bars’ Report by an international consultant whose services were hired for that purpose.
Mr Speaker, Sir, the country is well aware of my Government's unwavering commitment and resolve to fight the drug scourge. The massive seizures of drugs amounting to Rs15 billion since 2015 and as many as 22,000 arrests speak volumes of the crusade we are leading against the drug peddlers. Despite the threats and the intimidations we are being subjected to, let it be clear: there will be no retreat, no surrender. We are not going to pay any heed to those who make allegations of ‘drug planting’ which have now become, I must say, a new weapon some are using to discredit and discourage Police Officers who are putting, in fact, their lives at risk to help society rid itself of dangerous drug criminals and their accomplices.

Je voudrai ici dire, M. le président, au Leader de l’opposition que ce n’est pas parce qu’un chef émeutier notoire et ses acolytes présents et passés répètent ad nauseum des accusations de ‘drug planting’ par la Police que tel est effectivement le cas. M. le président, hier j’ai répondu à la PNQ du Leader de l’opposition. Et d’ailleurs ce n’est pas seulement ce PNQ mais tous les PNQ, je veux avoir plus de temps moi-même pour pouvoir donner encore plus des informations à la population et donner la réplique aussi. Mais, M. le président, je ne fais pas de critiques ; je sais que les Standing Orders sont tels que vous respectez les Standing Orders. Je suis d’accord mais laissez-moi profiter aujourd’hui, j’ai l’occasion. Donc, je vais ajouter un élément pour que le peuple puisse comprendre.

Tout d’abord la Private Notice Question du Leader de l’opposition d’hier, il fait mention à la partie (b). Je vais lire la question, et je cite –

« (b) with a view to eventually recommending proposals for a more effective structure to replace the –

(i) Anti-Drug Smuggling Unit as recommended in the Report of the Commission of Enquiry on Drug Trafficking, and

(ii) recently created Police Headquarters Special Striking Team ».

Peut-être qu’on n’avait pas remarqué mais moi, je n’ai pas eu le temps d’expliquer. Lui-même dans sa question il vient dire, et je cite -

« with a view to eventually recommending proposals for a more effective structure ».

Qu’est-ce que ça veut dire « for a more effective structure »? Cela veut dire que the structure of ADSU, the structure of the Special Striking team is effective but he wants it to be more effective. And I agree with him, we want it to be more effective!
Maintenant, quelque chose que je pense que le Leader de l’opposition n’avait pas remarqué, et ce n’est pas facile parce que le matin lorsque je reçois la question, je dois dire qu’on n’a pas beaucoup de temps pour lire tous les documents. Donc hier, même après la PNQ, je suis allé continuer à lire les documents. Donc, je fais référence, M. le président, et s’il faut table, je vais table parce que moi, je ne parle pas de n’importe quel document et je ne brandis pas quelque chose qui n’est pas vraie. – L’affidavit de Monsieur V. S. Alors un commentaire en passant, un commentaire qui va plaire à beaucoup et surtout ceux du Parti travailliste. Dans son Applicant’s First Affidavit, solemnly affirmed on 26 mai 2023, qu’est-ce qu’il vient dire à la paragraphe 5 ? Je vais citer un bout seulement –

« I aver that I am very close and used to provide security services to the former Prime Minister, Mr Navinchandra Ramgoolam … »

(Interruptions)

L’affidavit s’il vous plaît ! Vous savez comment ça se fait, vous jurez la vérité de tout ce que vous avez dit, et je cite –

« I am very close to Dr. Navinchandra Ramgoolam... ». 

Mais plus important encore, M. le président, parce qu’hier le Leader de l’opposition faisait un grand cas et pourquoi je me réfère à ça ?

Je croyais que c’était fini, mais l’honorable Armance est revenu comme-ci mettre le couteau dans la plaie. Hier j’étais là, je l’ai entendu, heureusement.

Donc, il est venu dire ‘ouais’, on a dit qu’il faut dismantle the ADSU et que – d’ailleurs je n’avais pas dit que c’était en crise si on allait dismantle l’ADSU – mais il l’a corrigé après. Alors, qu’est-ce que vient dire Monsieur V. S. dans son affidavit ? Paragraphe 39, et je cite –

“I aver that I have no objection that any unit/division as appointed by the respondent [The respondent c’est le Commissioner of Police] conduct the enquiry in my case.”

Lui, celui qui fait des allégations, celui qui accuse certains officiers de police, vient dire et il vient demander au Commissaire de police de demander à n’importe quelle unité et division de la police de faire une enquête. Vous pouvez être plus royaliste que le Roi, M. le leader de l’opposition ?

Alors, je crois que c’est bon de préciser ces éléments pour qu’on puisse bien comprendre et je dois dire, le leader de l’opposition, a posé ses questions. On veut tous
améliorer l’efficacité de nos institutions, l’efficacité de la police. Et je le redis, M. le président, la police tombe sous ma responsabilité mais c’est le Commissaire de Police qui a le *effective control and operation of the Police*. Mais, ceci dit, bien sûr, il est indépendant, c’est lui qui dirige, mais on a des *regular consultations* et bien sûr, moi comme Premier ministre, je fais part de certaines choses que je dois faire part au Commissaire de police et lui aussi, il me fait part de certaines choses. Et je dois vous dire que moi en tout cas je suis rassuré que lui il ne va pas tolérer ces brebis galeuses si jamais cela existe au niveau de la police. Et, bien sûr comme nous sommes dans un état de droit, il y a des allégations et les allégations doivent être vérifiées premièremment. Et si, allons dire qu’on sent qu’il y a une certaine vérité dans ces allégations, évidemment, il va prendre les actions nécessaires et éventuellement l’enquête va déterminer s’il y aura d’autres actions qui vont être prises. Donc, M. le président, je dirai au leader de l’opposition, laissons plutôt nos cours de justice faire la lumière sur de telles allégations.

Mr Speaker, Sir, we have adopted a multi-faceted approach covering diverse aspects of the drug problem including actions in the areas of health, education, and public safety. An evaluation of the implementation and impact of the National Drug Control Master Plan 2019-2023 will be conducted with the support of the Office of the UN Resident Coordinator, prior to the formulation of the next National Drug Control Master Plan for the next five years.

Mr Speaker, Sir, it is widely acknowledged that evidence-based information is critical for ensuring an effective response to drug trafficking and drug use and also to strengthen prevention. To that effect, Government has recently undertaken its first national drug studies, both in Mauritius and Rodrigues. My Office also organised a conference on substance abuse for countries of the western Indian Ocean, in collaboration with the Indian Ocean Commission with the objective to come up with a common strategy covering intelligence sharing, supply reduction, harm reduction as well as demand reduction. And, as a follow-up, it is proposed to organise a Ministerial Meeting in 2024 to further promote regional cooperation to counter the drug threat in the countries of the region and also explore the possibility of setting up a Regional Drug Observatory.

Mr Speaker, Sir, as at February 2023, over 80% of the 390 recommendations of the Commission of Inquiry on Drugs, including for Rodrigues, have been addressed. 146 recommendations have already been implemented and 151 have adequate measures in place. Actions have been initiated on 49 other recommendations. Three recommendations concerning the Drug User Administrative Panel will be implemented at the level of the Judiciary.
To address the drug problem, there is need to involve people from all spheres of life, such as the youth, parents, teachers, the Police, religious organisations, community groups as well as service providers. To ensure that this community-based approach is sustained, the Community Welfare Task Force project that was launched in November 2022 whereby 30 community leaders from 18 different regions have been empowered during a two-day workshop for the setting up of a community welfare task force in their respective regions.

Mr Speaker, Sir, with a view to empowering the Police and the other Law Enforcement Agencies to fight the traffic of illicit synthetic drugs, Government has obtained the support of the United States to provide a platform for all stakeholders to set up regional and international networks for the sharing of information and know-how and adopt evidence-based prevention programmes and treatment measures, in line with the International Narcotic Central Board and the United Nation’s Office on Drugs and Crime.

Mr Speaker, Sir, I am pleased to inform the House that on 01 June 2023, the contract for the construction of the new Forensic Science Laboratory was signed with URC Construction Private Limited, which is an Indian-based company. The construction will be completed in 22 months. This project will not only establish Mauritius as a major player in the field of forensic sciences in the region but will also showcase the excellent relations between Mauritius and India.

M. le président, je n’insisterais jamais assez sur le rôle crucial de la femme dans l’avancement et le progrès de notre pays. Nos mères, nos épouses, nos sœurs et nos filles méritent tout le respect, car ce sont elles qui façonnent la société dans laquelle nous vivons. Leur contribution à l’avancement de notre société et à l’épanouissement de notre économie est indéniable. Je veille personnellement à ce qu’elles bénéficient de chances égales à tous les niveaux et à ce qu’elles ne soient plus victimes de maux et de discriminations qui appartiennent à un temps révolu.

With regard to gender-based violence, I welcome the progress made so far. To show the importance I give to this matter, I personally chair a High-Level Committee on the Elimination of Gender-based Violence since January 2020 to ensure initiatives and actions to ascertain that the problems are well coordinated. Government recently had the opportunity to be informed of a mid-term review report concerning the National Strategy and Action Plan for the Elimination of Gender-based Violence. This report allowed all concerned stakeholders to take stock of where they fared better and where they still had room for improvement.
Mr Speaker, Sir, I take satisfaction that we have further consolidated the framework aimed at the protection of our children. The Children’s Act premised on the principle of best interest of the child, in line with the UN Convention on the Rights of the Child, and since 2022, the admissions to the Rehabilitation Youth Centres have decreased. The children being referred to probation services have increased due to parent-support interventions and diversion programmes. Accordingly, there is a felt need to review the role and functioning of the Reform and Rehabilitation Institutions. My Office has already started internal consultations in the matter. There may be also a need to revamp the decades-old legislations at the same time.

The forthcoming financial year will help in setting the base for the reorganisation of the Reform and Rehabilitation Institutions, through broader consultations with stakeholders concerned.

Mr Speaker, Sir, developing our entire territory is yet another of our priorities. Since 2015, we have provided adequate resources to ensure the sustainable and socio-economic development of Rodrigues. For the next financial year, an amount of Rs5.1 billion is being provided for furthering progress in the island.

Ensuring resilience in water supply remains a key objective. To that effect, Government has been working in close collaboration with the Rodrigues Regional Assembly to implement various measures and projects to improve water production, treatment and distribution.

Accordingly, for the coming financial year, an amount of Rs117 m. is being provided in the budget of the Rodrigues Regional Assembly for the construction and rehabilitation of dams and reservoirs. An amount of Rs10 m. has also been provided for the deployment of the Rainwater Harvesting Scheme in Rodrigues.

In the same vein, Rs1 billion will be invested by the Rodrigues Public Utilities Corporation with funds from the Mauritius Investment Corporation in desalination plants.

Moreover, to unlock the full economic potential of Rodrigues, a Technopark is being constructed, under the supervision of the Rodrigues Business Park Development Company Ltd, at Baladirou with a view to promoting entrepreneurship and employment in the field of ICT. The Technopark is expected to be completed by August this year.

Most importantly, an amount of Rs7.7 billion has been earmarked for a new runway of 2.1 km long at the Plaine Corail airport. This strategic project will enable larger
planes to land in Rodrigues thus contributing to further development and diversification of economic activities in Rodrigues.

Moreover, to further boost up the Rodriguan economy, the SME Refund Scheme and the SME International Fairs Refund Scheme are being extended to the Rodriguan SMEs. Freight charges on the exportation of agricultural products from Rodrigues to Mauritius will be waived. Additionally, the Subsidy on Animal Feed and the Promotion of Sheltered Farming and Smart Agriculture Schemes are being extended to the Rodriguan farmers.

Furthermore, with a view to supporting the tourism industry in Rodrigues, an amount of Rs80 m. and Rs30 m. are being provided to extend the Subsidy on Special Rodrigues Holiday Package and Subsidy on Airfare respectively, up to September 2024.

Mr Speaker, Sir, Government is pursuing our long-standing struggle to complete the decolonisation process of Mauritius. I am glad to say that a significant milestone has been achieved in this struggle with the Judgment delivered on 28 April 2023 by the Special Chamber of the International Tribunal for the Law of the Sea, which established a binding international maritime boundary between Mauritius and Maldives in the Chagos Archipelago region. This historic judgment has once again confirmed that the Chagos Archipelago forms an integral part of the territory of Mauritius and that Mauritius is the only State which is lawfully entitled to exercise sovereignty over the Chagos Archipelago, including Diego Garcia.

Mr Speaker, Sir, this month marks the 50th anniversary of the last forcible removal by the United Kingdom of the former inhabitants of the Chagos Archipelago in the wake of its illegal excision from the territory of Mauritius in 1965.

My Government is fully sensitive to the plight of our citizens of Chagossian origin who were forcibly removed from the Chagos Archipelago and supports their legitimate aspiration to return and resettle in their birthplace.

My Government remains committed to implementing a resettlement plan in the Chagos Archipelago. In this regard, as already announced in the Budget Speech, another trip to the Chagos Archipelago will be undertaken to carry out an assessment of the requirements for a proper resettlement.

In the meantime, Government will continue to take, through the Chagossian Welfare Fund, special measures in favour of our citizens of Chagossian origin.
Mr Speaker, Sir, my Government is also committed to preserving the pristine marine environment of the Chagos Archipelago. In this regard, we intend to create a Marine Protected Area around the Chagos Archipelago. The creation of such a Marine Protected Area will allow us to protect at least 30% of our maritime zones by 2030. In establishing that Marine Protected Area, Government will be guided by the following key principles –

(a) consistency with international law, including the United Nations Charter and the United Nations Convention on the Law of the Sea, as well as with the Sustainable Development Goals, including SDG 14 which is to “Conserve and sustainably use the oceans, seas and marine resources for sustainable development”;

(b) allowing the resettlement of Mauritian nationals, in particular those of Chagossian origin, on some of the islands of the Chagos Archipelago;

(c) conservation and dissemination of cultural values, traditional knowledge and traditional management of resources as well as cultural heritage;

(d) inclusion of no-take areas as well as subsistence fishing, and

(e) ensuring a multi-stakeholder partnership, use of science-based evidence and implementation of a state-of-the-art monitoring and enforcement system.

Mr Speaker, Sir, in the statements which it made at the UN Ocean Conference held in Lisbon last year, Mauritius invited interested States, non-governmental organisations, scientific institutions and other stakeholders to support the creation and management of our Marine Protected Area around the Chagos Archipelago and to help make that area a model of ocean governance.

Mr Speaker, Sir, this Government is equally committed to put Agalega on the path of development and progress. The two main infrastructural development projects and associated works being implemented for improving sea and air connectivity to Agalega are at completion stage. The new airstrip and jetty will be operational at the end of this year. Arrangements are also being made to ensure the operation of the new jetty. In this respect, funding has been provided in the Budget for the acquisition of two tugs to enable MV Mauritius Trochetia to berth on the new jetty. These infrastructural developments will broaden the scope of economic activities of Agalega and, thus, improve the standard of living of those inhabitants.
Mr Speaker, Sir, as regards housing projects in Agalega, the National Housing Development Co Ltd (NHDC) is proposing to construct 50 housing units of duplex type. Each housing unit will be provided with individual water tanks and rainwater harvesting system and a common photovoltaic system will supply each duplex with electricity.

I know it has been announced before, I must say it has been proved to be very, very difficult because we have not, first of all, been able to get an appropriate contractor. The cost of bringing the building materials to Agalega is, I must say, sometimes becoming prohibitive, but we shall continue to strive and I hope that we shall be able to make this project a reality this time.

A desalination plant and a sewerage treatment plant are being constructed in each village, as part of the two main infrastructural projects being implemented. These plants will also cater for the requirements of the 50 housing units.

Mr Speaker, Sir, the sustainable management of our maritime zones remains a top priority for the Government. However, how to manage if we do not even know what is in our waters?

The Department for Continental Shelf, Maritime Zones Administration and Exploration has partnered with various organisations throughout the past year for surveys and marine scientific research. These organisations include reputed ones such as Monaco Explorations and Stanford University. The Department for Continental Shelf, Maritime Zones Administration and Exploration will pursue further collaborations for surveys which are paramount for gathering data on the mysteries of our maritime zones.

Mr Speaker, Sir, as enunciated in the Budget Speech, we are engaging on a major reform of our migration policy. The Government of Mauritius has endorsed a Migration and Development Policy for the Republic of Mauritius 2030 enumerating 158 policy measures for implementation pertaining to matters such as data collection, labour mobility, diaspora, climate change, remittances, human trafficking, and institutional frameworks, as formulated by the European Union. There are currently around 109 policy measures which have been implemented under different axes of intervention of the National Migration and Development Policy and Action Plan.

A Migration and Development Steering Committee has been set up comprising all stakeholders for increased coherence at institutional and policy levels.
Mr Speaker, Sir, there is a need to further open up the country to foreigners who have capital and skills to boost our socio-economic development. I am pleased to inform that the Premium Visa has attracted some 3,800 foreigners to Mauritius.

Moreover, we have been very attentive to the difficulties our fellow senior citizens are facing regarding enlistment of experienced carers. It is more complicated when they are bed-ridden. We have, therefore, taken the decision that henceforth, carers from abroad will be allowed to stay and work in Mauritius beyond the current maximum period of 4 years for so long as their services are required.

Another plea which has been made recently is the dearth of workers as house staff and babysitters. It is a fact that in developing and upper middle-income countries, more and more couples are taken up at work. Therefore, Mauritius is no exception, Mr Speaker, Sir, thus the need for families to have help and support through the services of house staff and babysitters. My Ministry, in collaboration with the Ministry of Labour, Human Resource Development and Training is working out the categories of skills required to alleviate the problem of many households. We will facilitate the entry of bona fide non-citizens to take up employment as domestic workers.

We are further exploring new markets and initiatives to dynamise the economy. As you all know, with the pandemic, there have been many job losses worldwide. Many people have had to re-orient themselves for other jobs through re-skilling whereas some others, by virtue of their advanced age, have opted for early retirement. In this Budget, we are creating a new opportunity by attracting foreign retired people over 50 years old to invest in apartments under a special PDS Scheme for Senior Living for not less than USD 200,000. They would be given a residence permit for so long as they would hold the property.

Mr Speaker, Sir, the aviation and port sectors are critical for our development especially in an ever more globalised world. And my Government has taken unprecedented measures to support these sectors to ensure more efficiency, sustainability, and competitiveness.

Actions have been initiated to improve the efficiency of our Port to render it more competitive. And while answering a recent PNQ from the Leader of the Opposition, I had already informed the House of a series of initiatives and projects that have either been implemented or are in the pipeline.

These initiatives and projects include the installation of modern and state-of-the-art Vessel Traffic System and the implementation of a Vessel Clearance System at the cost of
Rs7.5m. scheduled to go live by mid-July this year to streamline the submission and approval processes.

Furthermore, the Mauritius Ports Authority is reviewing its 2016 Master Plan. This study, which would cost around Rs30m., would pave the way for new port development projects. The new Plan, expected by end of 2024, will cover the period up to horizon 2050.

The Mauritius Ports Authority has also been investing massively to increase its operational capabilities. Four small tugs at the estimated cost of Rs600m. would be procured shortly, for which delivery is expected by first quarter of 2025.

Moreover, two big tugs would be procured for which procedures would be initiated in the coming financial year and delivery is expected in 2027-2028. Renewal of the fleets of tugs and floating crafts is of critical importance for port operations. And to that end, a Reserve Fund is being created in the coming financial year with a provision of Rs50m. for that specific purpose.

The Mauritius Ports Authority will also be carrying out infrastructural works at Fort William. This project will enable the development of an additional 56 hectares of land thereat and thus provide an opportunity for the coming into operation of an additional shipyard as well as increasing facilities for storage of petroleum products. The project cost is estimated at around Rs270m. with expected completion around October 2025.

Besides, under the Green Port Initiative, the Mauritius Ports Authority will embark on a project for the use of Solar Photovoltaic energy under the Central Electricity Board Greenfield Renewable Energy Scheme at the estimated cost of Rs45m.

Mr Speaker, Sir, in April this year, the Cruise Terminal project which cost around Rs835m. has been completed. 17 cruise vessels are expected to call at Port Louis in the year 2024/2025 and around 4,000 passengers can be accommodated in the terminal at any one time. The terminal will no doubt contribute to the rejuvenation of the Cruise Tourism Industry in Mauritius.

As regards capacity building, an amount of Rs25m. is being provided in the coming financial year for the training, in scarcity areas, of staff of the Mauritius Ports Authority.

Mr Speaker, Sir, let me now come to the aviation sector. Government is maintaining its policy of opening of our skies with a diverse number of airlines serving Mauritius from key tourist sources. Our national airline, Air Mauritius is performing well
in its new configuration under the AHL Group and remains a key element in our development strategy.

Mr Speaker, Sir, as a responsible Government, we recognise the delicate balance between economic progress and preserving the very foundation that sustains it - the environment. That is why we have implemented measures to reduce emissions and make our aviation sector more environmentally sustainable.

In March this year, an updated State Action Plan on Carbon Dioxide Emissions Reduction for international aviation operations was submitted to the International Civil Aviation Organisation. This would reaffirm the position of Mauritius in its support to the global effort to minimise aviation’s carbon footprint and safeguard the environment from global climate change. Additionally, Mauritius will participate in the Carbon Offsetting and Reduction Scheme for International Aviation, on a voluntary basis as from year 2024.

Mr Speaker, Sir, in our endeavour to further digitalise our services, the Mauritius National Identity Card System is being revamped. The ID card will be complemented with a Mobile ID which will also serve as identity proof. The new system and the new card will have more security features and safeguards to protect the identity of citizens in line with commitments taken by Mauritius with the United Nations Human Rights Committee.

This will reduce the risk of data being misused and the system will also introduce a digital wallet which will include access to Mobile ID. The new system will be in place early next year.

Mr Speaker, Sir, in our resolve to keep our island clean and healthy, the National Environment Cleaning Authority, NECA, which is operational since July 2022 as the apex authority to spearhead the vision of Government for a cleaner and greener Mauritius, has embarked upon various projects in line with its mandate. Thus, NECA is carrying out cleaning programmes on various sites around the island including the M1 and M2 motorways with the assistance of other stakeholders such as the Beach Authority, the RDA, Mauri-Facilities Management Co Ltd, the Ministry of Environment and, of course, our local authorities.

NECA is coming forward during year 2023/2024 with an Action Plan to clean and embellish some 48 sites, including villages and agglomerations, throughout Mauritius, in collaboration with different stakeholders including the private sector. In addition, provision is being made for the acquisition of modern equipment and specialized vehicles for the cleaning of the island in a more sustainable manner. NECA and Mauri-Facilities will also plant trees in public spaces across the island.
Regarding the Côte d’Or International Racecourse and Entertainment Complex Company, it has come up with a development and embellishment plan for the Champ de Mars for which funds have been earmarked in the Budget. As regards the proposed new racecourse and Entertainment complex project, actions have been initiated for selecting a transaction adviser and it is expected that bids will be launched by the end of this year.

Mr Speaker, Sir, this Government is and will remain a caring Government. The Citizen Support Unit was set up to be close to the people. I personally take stock, through regular monitoring and evaluation reports submitted, of the actions taken by Ministries and Departments with respect to tickets opened by citizens. For the period April 2017 to May 2023, the Citizen Support Unit has settled 245,897 cases which represent 92% of cases registered. This demonstrates the success of the Citizen Support Unit in its engagement with the citizens, through its radio programmes on the MBC on Saturdays, and also the “Ansam Avek CSU” campaign.

In October last year, I proceeded with the launching of the “Ansam Avek CSU” in Rodrigues so that even our people in Rodrigues can register complaints affecting their daily lives and for their prompt resolution by the regional administration.

Mr Speaker, Sir, in view of its success, the CSU is being re-organised. Specific provisions have been made for a proper structure, staffing and budget. We are therefore making of the CSU, a full-fledge structure to serve our citizens still better.

Mr Speaker, Sir, the Budget has remained in line with our vision for an Inclusive, High Income and Green Mauritius – the better future that we all want for present generations and for our children and their children.

As a caring Government, we have made sure that we address the major current concerns and needs of our citizens, be they consumers, families, babies, children, youths, women, entrepreneurs, investors, students, educators, and the list can be extended and it is long.

It is a Budget that has not only lifted the well-being of the population but also, and equally important, has created the necessary conditions for our economy and society to accelerate its recovery from the impact of the COVID-19 Pandemic and the war in Ukraine. At the same time, it is building up resilience to the impact of climate change.

With the underlying motto of this Budget, To Dare and To Care, we have shown that we do not only talk but we also walk the talk and we are sincere in our promises and decisions.
M. le Président, depuis le début de son mandat, ce gouvernement a dû faire face à des chocs externes inédits. Ajouté à ces défis hors de notre contrôle, nous avons aussi à conjuguer avec des contretemps internes. Je fais ici allusion aux tentatives désespérées de certains de nos opposants qui ont saisis la justice de façon répétitive pour tout et rien, aux théories du complot sorties les unes plus grotesques que les autres et à une démagogie systématique qui est devenue leur marque de fabrique.

Malgré cette stratégie calculée et dangereuse, nous avons démontré qu’en tant que gouvernement, nous sommes restés fidèles à nos engagements auprès de la population. Notre action a été constamment dictée par le travail, la discipline et la rigueur. Nous avons agi de façon responsable, dans le respect des lois et de nos institutions et nous sommes plus que jamais déterminés à traduire les aspirations de la population en réalité en toute sérénité.

Pour ceux qui parlent de budget électoraliste, sachez que ce budget, qui ne sera pas le dernier budget de notre mandat, n’est que le résultat d’un travail continu en faveur du bien-être de chaque citoyen et du progrès de notre République. Je sais pouvoir continuer à compter sur mes compatriotes pour poursuivre le travail que nous avons commencé en 2014 afin qu’il y ait un avenir encore meilleur pour toute la population.

I am done, Mr Speaker, Sir.

Mr Speaker: Hon. Members I suspend the Sitting for one and a half hour.

At 1.21 p.m., the Sitting was suspended.

On resuming at 2.55 p.m. with Mr Speaker in the Chair.

Mr Speaker: Please be seated. Hon. Dr. Padayachy!

(2.54 p.m.)

The Minister of Finance, Economic Planning and Development (Dr. R. Padayachy): M. le président, pour la quatrième fois de ce mandat, je me présente devant cet auguste Assemblée à la fois conscient et honoré de la responsabilité qui nous incombe.

Au sortir d’une semaine riche en échanges, en argumentations et en joutes verbales, il me revient la lourde tâche de clôturer les débats entourant, comme la tradition parlementaire le veut, la présentation du Budget 2023-2024.

Mais avant de revenir sur les mesures phares de ce budget et les enjeux largement discutés au cours de ces derniers jours, je me saisis de cette occasion pour saluer l’ensemble des orateurs pour leurs interventions. Plus particulièrement, je voudrais
remercier notre Premier ministre, l’honorable Pravind Kumar Jugnauth, pour sa direction et son soutien indéfectible tout au long de la préparation du budget et jusque dans sa très pertinente allocution de ce jour.

Je tiens également à mettre en exergue le précieux apport de mes collègues ministres, PPS et parlementaires de la majorité. Tant pendant l’exercice de préparation que durant les débats budgétaires, ils ont porté haut les valeurs qui sont nôtres. Tous ont apporté une importante pierre à l’édifice du Budget 2023-2024. Pour cela, nous sommes fiers d’appartenir à une majorité unie et solidaire guidée par la vision humaniste et pragmatique de notre Premier ministre.

Sous son leadership, notre pays n’a de cesse de se développer. Un développement robuste, juste et équilibré qui profite à tous les Mauriciens. Nous devons beaucoup à ce Premier ministre qui a complètement rebattu les cartes de l’action publique en faisant du progrès social le bras armé de la croissance économique. Une vision pragmatique, une grandeur d’esprit, mais aussi et surtout, une grandeur de cœur.

M. le président, ce Budget est le Budget du rassemblement et du progrès. Aux antipodes de cette approche de conciliation, l’opposition a tiré à boulets rouges, sans aucune jugeote ni honnêteté intellectuelle et encore moins de patriotisme sur chacune des mesures pro-Mauriciens de ce Budget. Comme s’ils souhaitaient le malheur de la population et du pays.

Nous, de ce côté de la Chambre, sommes portés par l’accomplissement du devoir et de la mission qui nous a été confiée. Avec humilité, nous avons été touchés et parfois même bouleversés par l’accueil que la population mauricienne a réservé à ce Budget.

Je pense notamment –

• à la possibilité pour les jeunes mauriciens atteints de cancer de pouvoir dorénavant être soignés dans les meilleurs hôpitaux étrangers ;
• à la prise en charge totale par le gouvernement des soins médicaux pour les enfants malades et dont le traitement n’est pas disponible à Maurice ;
• à l’allocation mensuelle de 2,000 roupies qui sera allouée aux familles ayant un enfant en bas-âge,
• à la subvention unique de 20,000 roupies que nous verurons à tous les Mauriciens entrant dans l’âge adulte,
• ou encore, à l’introduction d’un revenu minimum garanti à 15,000 roupies par mois.
Des mesures qui changent la vie, des mesures qui sauvent la vie.

Au travers du Budget 2023-2024, les travailleurs, les personnes âgées, les femmes, les jeunes, les personnes handicapées et les malades, ont tous reçu le soutien et l’attention qu’ils méritent de la part de ce Gouvernement. Leur reconnaissance est notre plus belle récompense.

M. le président, les opérateurs économiques et les représentants de la société civile n’ont pas été en reste et nous les remercions de leur soutien. Des syndicats au patronat en passant par les analystes économiques et financiers, ils ont tous salué un Budget équilibré et à la mesure des enjeux qui préoccupent les familles et entreprises mauriciennes.

Permettez-moi d’en citer quelques-uns –

Pour M. Reaz Chuttoo de la CTSP : « Ce budget ine reponn a sa gran latant de la popilasion parski li finn a la fwa tous la klas mwayin, a la fwa bann dimounn au bas de l'echelle et li finn vinn avek d'autres mezire ki boukou pa ti atann. »

Pour M. Kevin Ramkalaon, Directeur général de Business Mauritius, il y a « de réelles avancées sur le climat des affaires, notamment avec le streamlining des autorisations, le retour du principe du ‘silent agreement’ qui donne des certitudes quant aux livraisons de permis requis et la réforme de la fiscalité vers un système plus équitable et progressif. Les mesures annoncées par rapport par rapport par rapport à l’emploi et à l'employabilité viennent répondre à nos besoins en matière de ressources humaines, notamment avec la participation des femmes, des jeunes, des personnes en situation de handicap, ainsi que la main d'œuvre et talents étrangers. »

Enfin, pour M. Gerald Lincoln, Country Leader d'Ernst & Young à Maurice–

“The Government has cleverly elaborated a long list of measures for all segments of the population, as well as most sectors of our economy. None can complain about measures that would make their life more difficult. Most individuals see an improvement in their disposable income and we reach the psychological bar of Rs15,000 per month as minimum guaranteed income.”

Strong signals on today’s priority of being GREEN: a million new trees for public spaces, the pulling down of the eyesore Emmanuel Anquetil building from the 1960s to be replaced by a mini-forest in the heart of Port Louis, solar energy, coastline protection, plastic bottle recycling, maintaining negative excise duty on
electric vehicles and introducing much needed cycle lanes on new roads. All give a clear sense of direction towards building a more sustainable island.

Agile because the Minister manages to generously increase most allocations, some substantially for those most needy, while making no changes to the corporate tax regime and withdrawing the highly criticized Solidarity Levy, albeit at a midway point by raising the highest income tax rate from 15% to 20%. Agile also, as we see a reduction in budget deficit from 3.9% to 2.9%, GDP growth targeted at 8% and falling unemployment. Public debt falling to 79% this month with a target of 71.5% in a year’s time.

This budget is inclusive in many aspects first, gender measures in favor of women and mothers’ joining the workforce, including a Rs15,000 monthly ‘Prime à L’Emploi’ contribution by the Government for a period of two years for newly employed women. Nursery facilities to be made available by large companies, double tax deductions for childcare costs, triple deductions for employing less abled persons.

Even inclusive towards non-citizens who choose Mauritius as a place to work and live, with the facilitated work and occupational permits. Free education all the way to include pre-primary as well point to the fact that we need families to have more children to reverse the trend in our demographics.

In conclusion, a budget of continuity, with a huge focus on the social inclusion and poverty alleviation, while maintaining high infrastructural investments and generating a feel-good factor by giving something to all. A “no complaints budget”!

M. le président, ces éléments témoignent du fait que nous sommes sur la bonne voie pour réaliser notre vision d'une île Maurice inclusive et durable. Et ce, contrairement à ce que l'opposition tente de faire croire à la population. Qu’il n’en déplaise à certains, les résultats sont là. Ce n’est pas une affaire d’opinion, mais de réalité, de faits. Et pour cause, les principaux indicateurs macro-économiques mesurés à la fin de 2022 montrent une nette amélioration de nos fondamentaux. Je rappelle ainsi que -

- La croissance du PIB a augmenté de 8,7 % en 2022, en forte augmentation par rapport aux prévisions locales et internationales initiales.
- Le niveau d'investissement s'est entièrement rétabli et a dépassé largement le niveau d'avant la pandémie, en franchissant le cap jamais atteint des 100 milliards de roupies.
- Les entrées d'IDE ont atteint un niveau record de 27,7 milliards de roupies en 2022, en hausse de 50% par rapport à 2021.
• Les conditions du marché du travail se sont très clairement améliorées puisque le nombre total d'emplois à Maurice a augmenté de 35 200 en 2022 et le taux de chômage est lui tombé à 7,7 %, contre 9,1 % en 2021.

• Les exportations de biens et de services ont dépassé les niveaux d'avant la pandémie pour atteindre 320 milliards de roupies en 2022, soit une augmentation de 51 % par rapport à 2021 et un surplus de 100 milliards en comparaison au niveau pré pandémique.

• Enfin, pour ce qui est de la dette publique, elle a marqué une claire décélération, passant d’un pic à 92% du PIB en juin 2021 à 79% en juin 2023.

Sur ce dernier point, l’opposition tente de mener la population en erreur en sortant la carte du montant de la dette par habitant, et non pas celle du ratio dette par rapport au PIB usuellement utilisé. Sans vouloir donner de leçons d’économie de base, ce qui compte c’est la soutenabilité de la dette et notamment sa tendance par rapport au PIB. Je vais même plus loin et les renvoie dans leur propre camp. Savent-ils qu’entre 2006 et 2014, la dette par habitant avait augmenté de 61 % ?

M. le président, si aujourd’hui nous avons les moyens de nos ambitions et la marge de manœuvre pour oser et protéger la population, c’est parce que nous sommes sortis plus forts et plus résilients de la pire crise de notre histoire. Et cela grâce à la détermination, le courage et l’action prompte de ce gouvernement, sous la supervision de notre Premier ministre. Dois-je une nouvelle fois rappeler que nous avons été confrontés au choc le plus brutal de toute notre histoire.

En termes concrets, cela signifie que du côté du tourisme, contribuant directement et indirectement à 20 % à notre PIB, nous sommes passés de 1,4 millions de touristes en 2019 à seulement 180 000 en 2021.

Un manque à gagner cumulé de plus de 120 milliards de roupies, toutes choses égales par ailleurs, soit environ 1 tiers de nos entrées en devises étrangères habituelles. C’est ce qui explique la dépréciation de notre monnaie en 2020 et 2021.

M. le président, alors que la pandémie commençait tout juste à s’essouffler, la guerre s’est abattue pour la première fois depuis 70 ans en Europe. Cette guerre entre la Russie et l’Ukraine, couramment nommée le grenier du monde, est un autre choc externe que la population mauricienne a dû vaillamment affronter. Car de ce conflit a résulté une
inflation, c’est-à-dire, une augmentation des prix pour ce qui douterait encore de la définition économique du terme, à travers le monde entier. Dans le monde, l’inflation a été de 4,7 % en 2021. À Maurice, elle était de 4 %. Et en 2022, 8,7 % au global, 10,8 % à Maurice. Nous savons quelles ont été et quelles sont encore les difficultés que connaissent les familles mauriciennes face à la cherté de la vie. C’est bien pour cela que ce budget, le Budget 2023-2024, s’inscrit dans la continuité des 3 derniers budgets présentés dans un contexte de crise mondiale et historique.

M. le président, afin d’amoindrir les effets de la crise sur la population et la structure de notre économie, ce Gouvernement a toujours osé et protégé. C’est notre ADN, ce qui nous unit, nous guide et nous éclaire. Dois-je encore rappeler la réponse historique apportée par ce Gouvernement pour sauver les emplois et préserver le pouvoir d’achat.

M. le président, le pragmatisme doit l’emporter sur la démagogie. Sous la direction de l’honorable Premier ministre, ce Gouvernement n’a ménagé ni ses efforts, ni ses ressources. Il est clair que nous ne sommes pas sortis de ces affres en restant immobiles. Bien au contraire !

Ce Gouvernement a agi avec audace sauvegardant la structure de notre économie touchée par la Covid-19 et en protégeant les ménages confrontés à l'augmentation du coût de la vie. Mais aussi, en augmentant les prestations, en investissant dans l'entrepreneuriat mauricien, en promouvant une croissance durable qui crée des emplois qualifiés et en consolidant le filet de sécurité des plus précaires.

Pour cause et pour rappel, au cours de ces trois années de crise, nous avons entre autres -

- introduit le Wage Assistance Scheme et le Self Employed Assistance Scheme qui ont bénéficié à 542 000 travailleurs, pour un montant de 27 milliards de roupies afin de préserver l’emploi ;
- contribué à hauteur de 34 milliards de roupies depuis 2020 pour subventionner les produits de base afin qu’ils restent accessibles à tous les Mauriciens ;
- investi 4,3 milliards de roupies pour soutenir le pouvoir d'achat de 350 000 travailleurs, en leur versant la CSG Income Allowance de 1 000 roupies par mois ;
- progressivement augmenté la pension de retraite de base pour atteindre 10 000 roupies par mois et introduit la CSG Retirement Benefits de 1 000 roupies pour qu'un retraité bénéficie de 11 000 roupies par mois au 1er juillet 2022, et
- amélioré l’accès aux programmes de soutien du Gouvernement pour 142 000 Petites et Moyennes Entreprises et Entreprises de Taille Intermédiaire, payé la
compensation salariale des PME et introduit une Prime à l'emploi de 15 000 roupies par mois pour faciliter l’accès au marché de l’emploi pour les jeunes et les femmes.

Rappelons que la Banque mondiale a classé la réponse mauricienne à la crise comme la 4ème plus forte au monde. Et malgré tout, l’opposition veut faire d’une pierre deux coups en effaçant la crise et balayant le soutien que l’Etat apporte à sa population et aux entreprises.

C’est pourtant grâce à ce même engagement sans faille du Gouvernement et à la confiance inébranlée de la population que nous avons pu atteindre d’excellentes performances en 2022 et ainsi aborder l’année 2023 avec plus de sérénité. Et cela dans un contexte international toujours incertain marqué par un conflit persistant en Ukraine.

M. le président, en implémentant la stratégie de ce gouvernement, nous estimons que les politiques annoncées dans le discours du Budget 2023-2024 vont générer 2 points de pourcentage de croissance supplémentaires et 40 000 emplois additionnels. De ce fait, en 2023-2024, le PIB connaîtra une croissance robuste de 8 %, poursuivant la tendance de 2022-2023. Le déficit budgétaire s’élèvera lui à 2,9 % du PIB.

Je souligne que ce déficit est inférieur de 1 point de pourcentage au déficit de 3,9 % enregistré l’année dernière et de 2,1 points de pourcentage au déficit de 5,6 % enregistré en 2021-2022. Plus encore, en termes de consolidation fiscale, nous avons pris de l’avance sur le calendrier ambitieux que nous nous étions fixés. La dette du secteur public devrait donc continuer à diminuer pour atteindre 79% à la fin de juin 2023 et 71,5 % à la fin de juin 2024.

A cet égard, je me permets de rappeler que nous remplierons l’objectif fixé par le FMI en abaissant notre dette publique en deçà de 80%. Nous poursuivrons nos efforts pour parvenir à notre objectif de moyen terme qui est de ramener la dette à 60% du PIB. Dans le contexte actuel, nous convenons aisément que c’est une situation que l’opposition a bien du mal à accepter. A dire vrai, la réussite de leur propre pays semble leur rester en travers de la gorge.

M. le président, fort d’une détermination sans faille et à l’appui du Budget 2023-2024, ce gouvernement est convaincu que chemin faisant, nous continuerons à améliorer nos fondamentaux économiques. Nous continuerons à renforcer notre résilience face aux chocs externes qu’ils soient d’une nature économique, environnementale ou sanitaire. Nous continuerons ainsi et ensemble à construire le futur que nous méritons. Pour y parvenir, je reviendrai dans la seconde partie de mon intervention sur les grandes mesures
que le Budget 2023-2024 contient au bénéfice des mauriciens, des entreprises et de notre environnement. Mais avant, permettez-moi dès à présent de couper court aux accusations sans fondements et critiques fallacieuses formulées par l'opposition.

M. le président, tout d'abord, je prendrai le temps de répondre aux imputations faites à l’encontre des autorités concernant la dépréciation de la roupie. Dans cette auguste Assemblée, l'opposition a fait valoir que dans les pays insulaires tels que les Maldives, le taux de change est déjà revenu à son niveau d'avant la pandémie.

En réalité, les choses sont un peu moins simplistes que le souhaiterait l’opposition qui excelle dans la démagogie et la déformation d’informations. Et oui, car Maurice, en tant que centre financier international possède depuis 1994 un régime de change flottant, ce qui n’est pas le cas des Maldives. Les Maldives ont en effet un régime de taux de change fixe, le rufiyaa étant adossé au dollar américain. Mécaniquement, il n'y a donc pas eu de dépréciation de la monnaie locale des Maldives face au dollar américain depuis le début de la pandémie.

M. le président, dans le cadre d’un régime flottant comme c’est le cas à Maurice, la valeur de la roupie face aux devises de référence est le reflet de l’offre et de la demande qui fluctuent en fonction de plusieurs facteurs. L’un d’eux étant la baisse significative des recettes en devises étrangères que nous avons connues suite à la fermeture des frontières en 2020 et 2021.

Comme cette auguste Assemblée le sait, le secteur du tourisme a fermé ses portes pendant plus de 18 mois, ce qui a entraîné une baisse drastique des entrées de devises d’environ 2 milliards de dollars entre 2020 et 2021. Les exportations de biens ont également été déficitaires d'environ 400 millions de dollars et les entrées d'IDE ont été inférieures d'environ 200 millions de dollars. Le manque de devises étrangères sur le marché local a exercé une forte pression sur la roupie et la dépréciation de la monnaie aurait été largement plus importante si la Banque de Maurice n’était pas massivement intervenue.

M. le président, les bras m’en sont tombés quand j’ai entendu l’honorable Uteem affirmer que la Banque de Maurice n'a pas fait assez pour soutenir la roupie. Ce n'est pas le cas. La Banque de Maurice a vendu quelque 3,8 milliards de dollars sur le marché local des changes depuis mars 2020 pour contenir la volatilité excessive du taux de change. Cela a été possible, car avant la crise, la Banque de Maurice depuis 2017, a fortement augmenté ses réserves en devises étrangères. Fin 2014, les réserves officielles du pays s’établissaient
à seulement 124,3 milliards de roupies, soit 3,9 milliards de dollars, représentant une couverture d’à peine six mois et demi d’importations de biens et de services.

A la fin du mois d’avril 2020, juste avant la crise, les réserves ont plus que doublé pour atteindre 280,6 milliards de roupies, soit 7 milliards de dollars et une couverture de 12,8 mois d’importations de biens et de services. Cette augmentation, elle n’est pas tombée du ciel, bien au contraire. Elle découle d’une stratégie d’anticipation visant à construire la résilience économique de notre pays pour se prémunir de chocs exogènes. Cela s’appelle de la prévoyance car gouverner, c’est prévoir.

Et aujourd’hui encore, malgré le fait d’être passés au travers de la pire crise de notre histoire, les réserves se sont maintenues proches du niveau pré pandémique. Au mois de mars 2023, les réserves officielles du pays s’établissaient à 6,7 milliards de dollars, représentant une couverture de 10,3 mois d’importations de biens et de services. Petit à petit, avec le rétablissement du secteur touristique, nous observons un rééquilibrage des entrées en devises étrangères. Nous ne pourrons pas effacer une crise de cette ampleur et de cette profondeur d’un simple revers de la main. Maurice comme l’immense majorité des pays ont vu leur monnaie se déprécier en raison de la pandémie.

Je referme ici la parenthèse de la Banque de Maurice en réaffirmant clairement que le montant du One-Off Grant attribué par la Banque centrale au gouvernement était de 55 milliards de roupies, et non de 150, 180 ou 200 milliards de roupies comme j’ai pu faussement l’entendre dire. Je rappelle également que cette contribution constituait une avance sur le paiement des profits dus et encadrés par la loi bancaire.

M. le président, je viens maintenant au second point que je m’évertuerai à clarifier, celui concernant l’inflation. L’honorable Ramful prétend que de nombreux pays sont parvenus à maîtriser leur inflation. Comment explique-t-il alors que l’inflation dans notre région, celle de l’Afrique subsaharienne, ait été de 14,5% en 2022, bien plus élevée qu’à Maurice. De plus, contrairement à ce que l’opposition laisse entendre, nous constatons que l’inflation à Maurice a déjà amorcé sa décroissance. Nous nous attendons à ce qu’elle continue de décélérer dans les mois à venir pour revenir à un niveau optimal au moyen terme, conformément à l’objectif adopté par la Banque de Maurice.

Du côté du gouvernement, nous faisons notre part sur le plan budgétaire en réduisant le déficit à 2,9 % du PIB au cours de l'exercice 2023-2024. Contrairement à ce que n’avait pas fait l’opposition face à l’inflation de 2006 - 2007-2008, nous avons mis en œuvre un très grand nombre de mesures pour aider les plus vulnérables à préserver leur pouvoir d'achat. Au travers du Budget 2023-2024, nous avons renforcé les mesures de
soutien mises en place depuis 2020 et avons annoncé de nouvelles. Je reviendrai plus tard sur les soutiens et mesures ciblées que nous introduisons actuellement.

M. le président, l’opposition proclame que ce Budget n’est que de la poudre aux yeux. Qu'ont-ils fait de leur côté quand ils étaient aux commandes du pays ? Le PTr n’avait-il pas été créé comme le parti des pauvres et des opprimés ? Quelle a été pourtant la stratégie du Parti travailliste une fois le pouvoir conquis ?

Et qui plus est, en l'absence de choc économique majeur ou de pandémie ?

Et M. le président, juste après les inondations meurtrières de 2013, tout ce que le Gouvernement du Parti travailliste a trouvé de mieux à faire, c'était de modifier à nouveau la loi pour réduire encore davantage les droits des syndicats et le droit de grève.

De notre côté, nous avons fait face à la pandémie de la Covid-19, l'économie a connu sa plus forte contraction et le pays était à genoux. Dans un tel contexte, qu'avons-nous fait, de ce côté de la Chambre ? Nous avons veillé à protéger tous les Mauriciens. Nous avons protégé tous les salariés, toutes les entreprises et tous les indépendants. Le paiement des salaires aux employés et aux travailleurs indépendants en témoigne.

M. le président, du côté de la fiscalité, le Parti Travailliste n'a rien fait pour rendre le système fiscal plus juste. C'était plutôt l'inverse. Ce qu'ils ont fait, c'est instaurer un système fiscal régressif.

Oui, M. le président, un système régressif. Plus vous avez, moins vous payez. Cela semble aberrant et choquant, mais c’est la triste réalité Travailliste. Le régime d'imposition uniforme introduit par le Parti Travailliste était un système fiscal injuste. En effet, la charge fiscale moyenne diminuait au fur et à mesure que les revenus augmentaient.

Ce n'est pas la philosophie de ce gouvernement. Ce n'est pas la philosophie de notre Premier ministre. Cela, c'est l'héritage du Parti Travailliste. Ils sont même allés plus loin en taxant les intérêts de l'épargne des particuliers.

M. le président, ce que nous, de ce côté de la Chambre, avons apporté au travers de ce Budget, c'est un régime fiscal progressif. Un régime juste, équitable et durable.
Auparavant, le régime de l'impôt sur le revenu était injuste en raison de l'effet de seuil qui faisait qu'une augmentation des recettes entraînait une baisse du revenu disponible.

Nous procédons à une réforme globale qui permettra à chacun de payer moins d'impôts qu'auparavant. Le régime de l'impôt sur le revenu évoluera désormais vers un régime plus progressif. Tous les revenus étant imposés de manière graduelle, en relevant le seuil d'imposition et en supprimant le **Solidarity Levy**.

Sur ce dernier point, je tiens à rappeler que nous avions fait appel à la solidarité des plus fortunés et ainsi introduit le **Solidarity Levy** afin de consolider les finances publiques pendant la pandémie.

Maintenant que l'économie mauricienne a refermé le douloureux chapitre de la pandémie et que la consolidation fiscale avance à un rythme soutenu, le **Solidarity Levy** n'est plus justifié.

Comme je l’ai indiqué, un individu sans personne à charge ayant un revenu net allant jusqu'à 30 000 roupies par mois, contre 25 000 roupies dans le système prévalent jusqu’alors, ne paiera plus d'impôt sur le revenu.

Grâce aux modifications apportées à l'impôt sur le revenu, les particuliers disposeront d'un revenu disponible plus important et le pouvoir d’achat augmentera de manière significative.

M. le président, les analyses effectuées par Maurice Stratégie à l'aide de différents modèles économétriques, notamment le modèle d'équilibre général calculable et le modèle macro-économique structurel, montrent que la réforme de l'impôt sur le revenu permettra, toutes choses égales par ailleurs, d’augmenter le PIB aux prix du marché de 0,60 % pour l'exercice 2023-2024.

Cela représente une contribution supplémentaire de 3,7 milliards de roupies à la production nationale.

L'injection supplémentaire dans l'économie résultant de la réforme de l'impôt sur le revenu des personnes physiques va également générer davantage d'emplois. Quelque 16 800 nouveaux emplois seront ainsi créés.

N’en déplaise à l’opposition, cette réforme voulue de tous est favorablement accueillie par les spécialistes. PwC Mauritius abonde dans ce sens et souligne que –
« L'évolution vers un régime fiscal progressif apporte plus d'équité et de justice au système. »

Et qui dit plus de justice sociale dit amélioration du potentiel de croissance économique.

M. le président, permettez-moi de poursuivre sur le sujet de la taxation. J'ai entendu plusieurs orateurs de l'opposition affirmer que ce gouvernement s'est trompé de réforme fiscale et qu'il aurait dû s'attaquer à la TVA.

C'est assez ironique, pour ne pas dire déroutant comme argumentation lorsque nous savons que c'est le MMM lui-même, et plus précisément l'honorable Bérenger qui a introduit la Sales Tax en janvier 1983.

Son collègue du Parti Travailliste, M. Bheenick, a lui augmenté le taux en 1996 pour le porter à 8 %. De nouveau, le ministre des Finances du Parti Travailliste, l'honorable Bunwaree, a introduit la TVA à 10 % en remplacement de la Sales Tax. Le même honorable Bérenger qui avait déjà introduit la taxe sur les ventes a également augmenté la TVA à 15%.

Alors non, M. le président, l'herbe n'est pas plus verte ailleurs. Et alors même que nous avons procédé à la suppression de la TVA sur 15 produits de base au travers du Budget 2023-2024, les modifications apportées ne leur conviennent pas non plus. Lors des débats, je dois vous avouer avoir entendu tout et son contraire de la part de l'opposition. C’est parfois troublant.

En effet, l'honorable Sik Yuen a cru malin de dire que "Kaye, gom, kreyon pa ranpli vant" tandis que l'honorable Bhagwan a osé prétendre que l'élimination de la TVA sur des produits de grande consommation, tels que les gommes, n'améliorera pas la vie de la population.

Ne croient-ils pas en l'éducation de nos jeunes ? Ne savent-ils pas que sur presque tous les produits alimentaires, il n'y a pas de TVA. Que plus de la moitié des produits sont exemptés.

Je tiens à lui rappeler que les gommes, les crayons, et les cahiers d'exercices sont pourtant des biens scolaires essentiels qui doivent être achetés régulièrement par des dizaines de milliers de familles mauriciennes.

Demandez à ces nombreux parents de petits mauriciens s’ils pensent que cette suppression de la TVA est inutile ?
Peut-être que le Parti Travailliste a oublié ses racines historiques pro-population ? Et que le MMM a lui aussi oublié comment il a été créé ? Cette amnésie semble contagieuse. Nous préférons rester loin, très loin.

De notre côté, la preuve de notre dévotion pour la population mauricienne se trouve dans notre action. C'est notre marque de fabrique.

M. le président, c'est bien ce gouvernement et ce Premier ministre qui ont annoncé en 2018 la gratuité de l'enseignement supérieur pour tous. Tout récemment, nous avons complété le cycle scolaire dans son entièreté avec la gratuité de l'enseignement pré-primaire pour tous à partir de janvier 2024.

Il ne fait aucun doute que la suppression de la TVA sur les articles scolaires de base et la gratuité de l'école maternelle aideront les parents à offrir à leurs enfants la possibilité d'apprendre dans un environnement propice au développement. C'est ainsi que nous donnerons la chance de réussir à chaque enfant mauricien et que l'ascenseur social s'activera encore davantage.

M. le président, j'en viens maintenant à l'accusation qui, de ce côté de la Chambre, m'a, je dois le dire, le plus interpellé. Je savais l'opposition malicieuse, je ne la pensais pas à ce point démagogue.

Brandissant le drapeau du *Money Illusion*, l'opposition semble complètement déconnectée de toute réalité. Elle fait même fi de ses propres déclarations.

Permettez-moi de citer l'honorable Boolell qui, dans le Budget 2006, avait déclaré –

« Le ministre des Finances de l'époque n'a pas hésité, en 1979, à procéder à l'ajustement structurel de l'économie. Il aurait pu repousser le jour du bilan. Non ! Au lieu de cela, en tant que dirigeant, en tant qu'homme d'État, il l'a fait, quel que soit le résultat. »

Justement, quel est le résultat d'une telle politique ? Plus d'inflation et moins de croissance.

Maurice a en effet connu à cette époque ses taux d'inflation les plus élevés de son histoire. 14,5 % en 1979, 42 % en 1980 et 14,5 % en 1981. Chapeau bas, Monsieur !

M. le président, est-ce vraiment ce bilan déplorable qu'ils défendent ? Et ils osent qualifier notre budget d'argent illusoire ? Rappelons que la dévaluation provoquée s'est faite à une époque où il n'y avait pas de récession dans le monde. C'était une époque où la
croissance mondiale était positive et sans nuage à l’horizon. Pourtant, ici à Maurice, le Parti Travailliste avait choisi de dévaluer délibérément la roupie alors que l’économie se portait bien. Pas de crise, pas de Covid, pas de fermeture des frontières !

M. le président, sous la mandature du Parti Travailliste, entre 2006 et 2008, Maurice a connu une inflation cumulée de 30 %. Soit, 8,9 % en 2006, 8,8 % en 2007 et 9,7 % en 2008. En parallèle, les compensations salariales avaient été pour ces mêmes années de 170 roupies, de 135 roupies et de 400 roupies, soit un total sur 3 ans de 705 roupies alors que l’inflation cumulée était d’environ 30%. Je le redis – seulement 705 roupies en 3 ans pour 30 % d’inflation ! Voilà ce qu’a fait le Parti Travailliste !

M. le président, de ce côté de la Chambre, nous avons introduit une allocation de revenu CSG de 1 000 roupies qui a maintenant doublé pour atteindre 2 000 roupies pour des personnes dont le revenu est inférieur à 25 000 roupies.

Nous avons aussi accordé une compensation salariale de 1 000 roupies en une seule année. Plus encore, nous avons garanti un revenu minimum de 15 000 roupies par mois. Allez demander donc à ces Mauriciens si les ressources financières additionnelles mises à leur disposition sont factices, illusoires. Le revenu minimum garanti pour les employés à temps plein va passer ainsi de 11 075 roupies en juin 2022 à 15 000 roupies en juillet 2023, dans à peine 15 jours. C’est une hausse de presque 4 000 roupies.

Cela représente donc une augmentation de 36,1 % des revenus disponibles des travailleurs les plus vulnérables de notre société. Alors que l’inflation après avoir atteint un pic à 10 % l’an dernier amorce sa descente. Est-ce une illusion ?

Peut-être que 4 000 roupies en plus par mois ne représentent pas grand-chose pour une opposition complètement déconnectée de la réalité des travailleurs, mais pour des dizaines de milliers de mauriciens, l’introduction d’un Revenu minimum garanti à 15 000 roupies est une mesure qui change le quotidien ; le rend moins difficile, moins angoissant, moins imprévisible.

M. le président, un tel manque de compassion envers les travailleurs, ne peut que nous indignier. D’autant plus que cette même opposition quand elle est aux commandes, tolérait sans état d’âme que les travailleurs soient payés un salaire de misère et que nos aînés ne reçoivent qu’une peau de chagrin comme pension.

L’opposition pense sans doute que la période était plus réjouissante pour les Mauriciens quand les pères de famille ne percevaient que 1 500 roupies par mois et les pensionnés à peine 2 800 roupies. Et qu’aucune aide n’avait été octroyée malgré un taux
d'inflation frôlant les 10 % à l’époque. Pensent-ils qu’il était plus facile de vivre avec 1
500 roupies en 2008 plutôt qu’avec 15 000 roupies en 2023 alors que le prix -
- du pain maison était de 2,62 roupies en 2008 et qu’il est aujourd'hui de 2,60
roupies ;
- celui de la baguette était de 5,44 roupies en 2008 contre 5,40 roupies en
2023 ;
- celui de la farine était à 13,59 roupies par kg contre actuellement 9,70
roupies par kg, ou encore
- la bonbonne de gaz de 12 kg à 314,60 roupies et contre 240 roupies à ce
jour.

Permettez-moi de vous donner un autre exemple. Les nouilles, Mine Apollo, qui
cûtaient 7,29 roupies en 2008, ont augmenté de moins de 2 % par an pour atteindre 9,31
roupies aujourd'hui.

En dépit de cette hausse contenue, nous sommes tout de même allés plus loin en
supprimant la TVA de 15 % sur ce produit, qui ne coutera plus que 7,90 roupies en
moyenne grâce à ce Budget.

**Mr Toussaint : Macaroni pena ?**

**Dr. Padayachy :** A l’appui de ces comparaisons factuelles, pouvons-nous
sérieusement parler d’argent illusoire ? M. le président, lorsque l’opposition ne parle pas
d’argent factice, d’illusion monétaire, elle parle au contraire de cadeaux populistes et
même de bribes électorales. C’est à en perdre son latin. Mais surtout, quel manque de
considération pour les Mauriciens !

Quand une fois les arguments avancés par l’honorable Ramful, je me tords ! Et pas
de rire ! Car souvenons-nous de la politique ultra-capitaliste et inégalitaire conduite entre
2006 et 2014. Ils se sont évertués à prendre aux pauvres pour donner aux plus riches.
Parce que, M. le président, ils étaient plus nombreux.

Oui, le Gouvernement d’aujourd’hui a vu ses revenus augmenter de 20 milliards de
roupies mais chacune de ces roupies est retournée à la population au travers de mesures
sociales. A l’inverse, lorsque l’opposition était au pouvoir, elle n’avait pas hésité à prendre
aux plus démunis pour donner aux petits copains. Sans même s’en cacher, la population ne
mérite rien pour eux.

Les budgets présentés entre 2006 et 2014 donnent froid dans le dos. En effet, donner
du pain aux élèves dans les écoles était considéré comme du gaspillage…
Mr Toussaint : Dominer !

Dr. Padayachy : … alors que subventionner les frais d'examen SC et HSC leur semblait une folie. Plus encore, ils considéraient comme des cadeaux et de l’argent jeté par la fenêtre –

- Les exonérations sur les prêts immobiliers et les personnes à charge pour l’impôt sur le revenu;
- Les subventions pour le riz et la farine, ou encore
- Le système tripartite de compensation salariale.

De ce côté de la Chambre, nous sommes révoltés par ce manque d’humanisme. Avec beaucoup de conviction et de sérieux, nous nous attachons à faire l’inverse de ce que cette opposition a toujours fait car avec ou sans inflation, avoir du cœur ne s’achète pas.

M. le président, toujours dans la rubrique des retournements de veste, permettez-moi d’aborder la question soulevée par l’opposition, en particulier par l’honorable Uteem, qui accuse maintenant le Gouvernement de ne pas avoir augmenté les pensions de base à 13 500 roupies. Alors que cette même opposition criait à bribes électorales quand la mesure avait été proposée par ce Gouvernement en 2019, avant la Covid-19.

Droits dans nos bottes, je voudrais rappeler à l’honorable membre qu’en 2020, nous avons été confrontés à la pire crise de notre histoire économique. Nous avons dû faire face à des défis sans précédent, exaserbés par la guerre en Ukraine et les effets du changement climatique. Jamais auparavant nous n’avions été confrontés à une telle succession de chocs en un laps de temps aussi condensé.

Dans l’adversité, nous n’avons pas fui nos responsabilités. Nous avons apporté le soutien nécessaire à toutes les personnes touchées par la crise. Nous avons mobilisé des ressources considérables pour protéger la vie et les moyens de subsistance de nos citoyens.

Comme je l’ai dit –

- Nous avons débloqué quelque 27,8 milliards de roupies pour le Wage Assistance Scheme, le Self-employed Assistance Scheme ;
- Nous avons augmentés les subventions pour maintenir les prix de détail du riz et de la farine et contenu l’augmentation du prix du gaz ménager ;
- Nous avons prévu quelque 4,3 milliards de roupies pour le paiement de l’allocation de revenu de la CSG de 1,000 roupies par mois à quelque 350,000 salariés et travailleurs indépendants au cours de l’exercice 2022-2023 ;
Nous avons réduit le taux de l'impôt sur le revenu pour les personnes à revenus faibles et moyens.

En plus de ces mesures, nous avons augmenté la pension de retraite, la pension d'invalidité et la pension pour les veufs. Nous allouons actuellement un total de 43 milliards de roupies pour l'ensemble des pensions de base, contre environ 12 milliards de roupies en 2014. En outre, nous avons introduit la CSG *Retirement Benefit* de 1,000 roupies par mois pour quelque 169,000 retraités âgés de 65 ans et plus.

Au travers du Budget 2023-2024, nous augmentons maintenant les pensions de base à 11,000 roupies par mois à partir de juillet 2023. Cela coûtera 4 milliards de roupies supplémentaires. C'est un choix juste, justifiable et justifié. Malgré ce que prétend l'opposition, il s'agit là d'une augmentation sans précédent des pensions de base et nous ne nous arrêterons pas là.

M. le président, je n’insisterai jamais assez sur ce point : le progrès social et la protection de la population sont la genèse du développement économique. Dans ce Budget, nous avons ainsi annoncé une nouvelle série de mesures visant à préserver et à améliorer la protection sociale par des transferts destinés entre autres aux ménages vulnérables, aux jeunes, aux personnes âgées et aux femmes.

Pour les mauvaises langues, l'enveloppe importante allouée au renforcement du filet de protection sociale pourrait être de prime abord perçue comme un poids sur les finances publiques. Il n’en n’est rien ; au contraire. En effet, leurs effets directs sur les dépenses sont compensés par l'augmentation des recettes et les effets positifs indirects, induits et catalytiques au profit de la croissance et l’emploi.

Selon l'analyse de Maurice Stratégie, les transferts sociaux devraient ajouter 6,7 milliards de roupies au PIB par le biais des effets du premier et du second tour, sous forme d'injections supplémentaires dans le flux circulaire, contribuant ainsi à hauteur de 1,21 % au PIB.

Les ménages les plus vulnérables auront un revenu disponible supérieur, et la consommation devrait ainsi atteindre un pic de 1,20 %, augmentant son niveau de 5,9 milliards de roupies.

En raison de l'activité accrue, l'investissement devrait augmenter de 1,29 %, avec un investissement direct supplémentaire estimé à 1,5 milliard de roupies. L'analyse indique tout autant que les mesures de protection sociale augmenteront les exportations de 1,96 % et les importations de 1,84 %.
Suite à l'augmentation des besoins en termes de consommation et de production, l'emploi devrait ainsi augmenter d'environ 6,700 personnes, soit une hausse de 1,26 %.

M. le président, il me semble essentiel de prendre le temps, à l’appui de statistiques et chiffres étayés, d’expliquer à nouveau le bien-fondé de cette stratégie gouvernementale centrée sur l’Humain.

En espérant avoir pu apporter les clarifications et justifications éclairées aux accusations infondées de l’opposition, je vais maintenant revenir sur les principales mesures du Budget 2023-2024.

Je rappelle que ce Budget, « Oser et Protéger » se comprend comme un triptyque voué à –

- Renforcer les fondements de notre économie ;
- Poursuivre le verdissement de l’économie mauricienne, et
- Construire le futur que nous méritons.

M. le président, le Budget 2023-2024 fait la part belle à l’économie et à ses secteurs porteurs. Au travers de cet exercice, nous avons tâché de supprimer les obstacles à l’investissement, d’adresser l’enjeu du manque de main d’œuvre et de fortifier encore davantage notre économie.

Pour ce faire, les mesures prises au profit de l’employabilité des femmes, des jeunes, des personnes à handicap et des professionnels étrangers sont historiques. Je reviens notamment sur l’ensemble des annonces faites pour favoriser l’accès des femmes au marché du travail et ainsi leur permettre une plus grande autonomie financière. Il s’agit notamment de l’extension du régime de la Prime à l’emploi, de l’obligation pour les entreprises de plus de 250 employés de disposer d’un centre de garde d’enfants ou encore de la révision des conseils d’administration pour voir siéger un minimum de 25% de femmes.

Je cite mot pour mot le paragraphe 172 de ce fameux Budget travailliste –

« Pour faciliter la vie des femmes, j’ai le plaisir d'annoncer la suppression de tous les droits de douanes sur les fours à micro-ondes, les fours, les cuisinières, les grils, les lave-vaisselles, les hottes de cuisine, les cafetières et les théières, les grille-pains et les machines à sandwich, les autres appareils électrothermiques tels que les chauffe-plats, les casseroles électriques et les yaourtières, ainsi que les appareils
électroménagers tels que les sèche-cheveux, les tondeuses et les appareils de coiffure.

Voilà ce qu’en 2007, faciliter la vie des femmes signifiait pour le Gouvernement travailliste. Une yaourtière bon marché mais toujours pas d’emploi, pas d’opportunité, pas de salaire et encore moins d’indépendance.

Quelle honte, M. le président !

Sur le point de la main d’œuvre étrangère, l’opposition ne s’est pas non plus illustrée par sa modernité. Alors que ce gouvernement a notamment annoncé la rationalisation du processus d’obtention du *Work Permit* et la révision de ses conditions d’attribution, j’ai eu beaucoup de peine à entendre les arguments nationalistes et les raisonnements d’un autre temps de la part de l’honorable Joanna Bérenger.

Diaboliser les étrangers venant à Maurice, c’est tellement facile mais tellement infondé. Non, ces travailleurs ne volent pas l’emploi des mauriciens ; non, ces travailleurs ne confisquent pas les élections nationales. Au contraire, ils contribuent à notre développement en apportant expertise, capitaux et emplois car c’est bien au travers d’une Ile Maurice ouverte aux nouveaux talents que notre économie continuera à se développer, à se diversifier et à se consolider. Je le rappelle, notre objectif est de maintenir une croissance du PIB autour des 5% à terme.

M. le président, sans pouvoir faire la liste exhaustive des mesures budgétaires prises en faveur des secteurs de l’économie, permettez-moi de citer quelques-unes des annonces clés.

Je démarrerai cette liste par l’Agro-Industrie –

- Afin de soutenir le dynamisme du secteur du thé, nous avons annoncé l’augmentation de la *Winter Allowance* de 25% pour la porter à 2,50 roupies par kg de thé ;
- Par ailleurs, pour les planteurs produisant jusqu’à 60 tonnes de sucre, pour la récolte 2023, le prix minimum garanti du sucre passera de 25,000 roupies à 27,500 roupies avec le vote du Budget 2023-2024 ;
- Au profit des éleveurs qui nourrissent notre population, nous allons augmenter la subvention sur l'alimentation animale de 50% pour la porter à 15 roupies par kilo ;
- En ce qui concerne le secteur de la pêche, la somme forfaitaire versée aux pêcheurs âgés de 65 ans et plus a été rehaussée de 52,500 roupies à 100,000 roupies s'ils rendent leur carte de pêcheur ou la transfèrent.
 Quant à l'indemnité journalière de mauvais temps, elle a été portée de 575 roupies à R 650 roupies.

Enfin, symbole de la solidarité et de l’humanisme caractéristiques de nos institutions, j’ai eu le plaisir d’annoncer que la DBM annulera tous les prêts restés en souffrance depuis plus de 20 ans ainsi que les prêts des planteurs, éleveurs, et pécheurs décédés.

M. le président, les secteurs de l’industrie manufacturière, des TIC et du tourisme ont eux aussi bénéficié de mesures importantes. Afin de promouvoir la production locale, j’ai également annoncé la mise en place d’une zone dédiée au "Made in Moris" au Mauritius Duty Free Paradise à l’aéroport. Pareillement, nous avons annoncé renoncer aux frais de fret sur les conteneurs de Rodrigues à Maurice pour les produits agricoles, y compris les oignons, les piments, les grains de café et les citrons.

De plus, le Gouvernement accordera une dérogation de 50% sur l'augmentation des prix de l'électricité au cours des deux prochaines années pour les entreprises exportatrices qui s'orientent vers une énergie 100% renouvelable. En parallèle, le CEB introduira un système de neutralité carbone pour le secteur des TIC.

Pour ce qui est du tourisme, pilier de notre économie, le budget de promotion et de marketing de la MTPA a été revu à la hausse, passant ainsi de R 400 millions de roupies à 500 millions de roupies. C’est ainsi que grâce à ces mesures en faveur du développement sectoriel que nous atteindrons nos objectifs de croissance robuste, inclusive et durable.

M. le président, dans la continuité des budgets présentés par ce gouvernement, le développement durable et inclusif constitue en effet un pilier majeur de notre stratégie. Nous voulons poursuivre le verdissement de l’économie mauricienne, que ce soit en termes d’énergie, d’eau ou d’économie circulaire. Nous veillons aussi à ce qu’une attention particulière soit accordée à notre système social, sanitaire et éducatif. C’est ainsi que ce gouvernement donnera à chaque Mauricien la possibilité d’élargir son champ des possibles et ainsi s’épanouir.

M. le président, j’en viens maintenant au secteur de l’énergie et à celui des infrastructures. Le budget 2023-2024 voit ainsi l’introduction des programmes d'énergie renouvelable pour les hôtels, les centres commerciaux, les galeries marchandes et le secteur agricole devenir une réalité. Nous avons tout aussi annoncé la mise en place de systèmes photovoltaïques solaires sur les toits de 200 écoles publiques de l'île ainsi que l’octroi d’une subvention de 30% jusqu'à un maximum de 3,5 millions de roupies pour l'achat de bus électriques.
Au profit des familles mauriciennes de plus en plus sensibles à la protection de l’environnement, la subvention pour les réservoirs d'eau passera de 8,000 roupies à 15,000 roupies et sera étendue aux ménages dont le revenu mensuel est inférieur à 60,000 roupies.

Enfin, 3,4 milliards de roupies seront investies dans la modernisation et l'extension de notre réseau routier sur 60 km.

M. le président, les enjeux ayant attrait à la santé et à l’éducation constituent une priorité de ce gouvernement. C’est dans cette lignée que l'honorable Premier ministre a annoncé la gratuité de l’éducation pré-primaire pour tous à partir du 1er janvier 2024. C’est une mesure historique qui sera complétée par la mise en place de l’allocation de 2,000 roupies par mois que ce gouvernement va octroyer aux familles ayant un enfant en bas-âge.

Concernant le secteur de la santé, nous avons annoncé que l’État aller prochainement s’engager dans la vaccination de quelque 80,000 enfants contre le papillomavirus humain afin de prévenir l’apparition de certains types de cancer. En sus, pour faciliter la vie de quelque 1,000 patients atteints de diabète de type 1, ce gouvernement leur fournira un moniteur de glucose en continu. Parmi eux, 450 patients diabétiques à haut risque recevront également une pompe à insuline. Il est clair que le bien-être de la population est au cœur de la stratégie de ce gouvernement. Quelques soient les difficultés de la vie, nous nous tiendrons toujours aux côtés des mauriciens.

M. le président, alors que je suis largement revenu dans la première partie de mon discours sur les actions prises en faveur de la population, permettez-moi de rappeler les grandes mesures sociales contenues dans ce budget.

Premièrement, dorénavant, chaque enfant diagnostiqué avec cancer sera entièrement pris en charge par le Gouvernement, depuis le diagnostic jusqu'à la fin des soins. Et cela, à travers une assistance financière pour la totalité des coûts de soins et de traitement du cancer dans les hôpitaux étrangers disposant de la meilleure expertise. De plus, la prise en charge de la totalité des soins à l'étranger pour les enfants atteint de maladie non soignables à Maurice.

Deuxièmement, pour préserver le pouvoir d'achat de nos forces vives, la *CSG Income Allowance* de 1,000 roupies est maintenue à tous ceux qui gagnent jusqu'à 50,000 roupies par mois. Plus encore, nous avons également annoncé l’augmentation de cette allocation mensuelle à 2,000 roupies pour ceux qui perçoivent jusqu'à 25,000 roupies par mois. C’est ainsi que 200 000 personnes verront leur *CSG Income Allowance* doubler.
M. le président, pour soulager les Mauriciens contre l’inflation, ce Gouvernement a annoncé la suppression de la TVA sur les 15 produits essentiels suivants –

(a) Les nouilles ;
(b) Le dentifrice ;
(c) Les brosses à dents ;
(d) Les lingettes pour bébé ;
(e) Les couches pour bébé ;
(f) La poudre pour bébé ;
(g) La crème pour bébé ;
(h) Les tire-laits ;
(i) Les biberons pour nourrissons ;
(j) Les cahiers d'exercices ;
(k) Les crayons ;
(l) Les crayons de couleurs ;
(m) Les gommes,
(n) Les cannes d’aide à la marche, et
(o) Les protections pour incontinence.

N’en déplaise à l’opposition, cette mesure historique viendra soulager le quotidien de centaines de milliers de mauriciens.

Quatrièmement, symbole de la confiance que nous, de ce côté de la Chambre, nous avons dans la jeunesse mauricienne, nous avons annoncé l’introduction de l’*Independence Scheme*. C’est ainsi qu’à partir du 01 janvier 2023, tous ceux qui atteindront l’âge de 18 ans percevront une subvention de 20,000 roupies. Aller à l’université, obtenir un emploi, créer une petite entreprise ou apprendre à conduire, tels sont les projets de vie que nos jeunes adultes pourront ainsi entreprendre.

Cinquièmement, afin de protéger nos citoyens contre la hausse des prix mondiaux, à partir du 01 juillet 2023, nous introduisons le Revenu Minimum Garanti à 15,000 roupies par mois. Nul besoin de faire de polémique sur l’appellation de la mesure, ce qui compte, M. le président, c’est que tous les Mauriciens auront désormais au moins 15,000 roupies par mois pour mener une vie décente.
Dans cette même visée, le Budget 2023-2024 a fait de la baisse du prix de l’essence une réalité. Depuis le 3 juin 2023, le prix du litre de l’essence qui était à 74.10 roupies est passé à 69 roupies.

Septièmement, grâce aux marges de manœuvres dégagées nous sommes aujourd’hui en mesure de garantir l’augmentation de 1,000 roupies de la Basic Retirement Pension, de la Basic Widow’s Pension, de la Basic Invalidity Pension et de la Basic Orphan’s Pension pour atteindre 11,000 roupies par mois. Combiné à la CSG Retirement Benefit, un retraité âgé de 65 ans et plus recevra au moins 12,000 roupies par mois.

En sus, afin de soulager les ménages touchés par la hausse des taux d'intérêt, ce Budget va plus loin dans la protection des Mauriciens dont l’accession à la propriété est un rêve qu’il serait injuste de briser. Ainsi, R 1,000 roupies par mois seront accordées aux personnes qui ont contracté des prêts allant jusqu'à 5 millions de roupies pour l'achat de leur logement.

M. le président, les ménages les plus vulnérables ont, plus que jamais, besoin du soutien de l’État. Il en va de notre devoir de renforcer le filet de sécurité qui les entoure. À cet effet, nous avons revu les seuils d’éligibilité pour l’aide sociale. C’est ainsi que 20,000 ménages vulnérables bénéficieront désormais d’un soutien plus important dans le cadre du SRM et de la DataBase of Vulnerable Groups.

Dixièmement, et enfin, ce Budget a mis en son cœur chaque Mauricien. C’est ainsi que la refonte holistique de notre système fiscal viendra apporter un revenu supplémentaire à tous les contribuables mauriciens. Basé sur l’équité, tous les revenus seront taxés de manière graduelle et donc progressive.

M. le président, mettant en perspective les nombreuses et historiques mesures annoncées dans le Budget 2023-2024 face aux critiques véhémentes de l’opposition, j’ai le sentiment qu’il y a de l’autre côté de la Chambre, un passé qui ne passe pas. Et pour cause, quelles politiques le Parti travailliste a-t-il adoptées pour soulager la détresse des Mauriciens et soutenir le pouvoir d'achat lorsqu’ils étaient au pouvoir ?

Permettez-moi de citer les mesures Budgétaires qu’ils proposaient à cette période :

« Pourquoi acceptons-nous un programme d'alimentation des écoles primaires connu pour son gaspillage et son iniquité ? M. le président, nous réorientons les subventions sur le riz et la farine et les dépenses sur le programme d'alimentation des écoles primaires… En outre, le programme visant à payer la moitié des frais d'examen SC et HSC sera supprimé, sauf pour les étudiants dans le besoin ». 
Ils sont allés plus loin, M. le président, pour les personnes âgées, voici ce qu'ils avaient à dire -

« Un autre sujet de préoccupation est la viabilité financière de nos différents régimes de retraite... Il est clair que nous sommes assis sur une tombe à retardement... »

J'ai cru l'entendre aussi cette fois-ci lors les débats budgétaires -

« Nous devons revoir l'âge de la retraite... les augmentations du BRP [Basic Retirement Pension] seront aussi limitées à l'évolution de l'indice des prix à la consommation. Et j'ai le plaisir d'annoncer que pour l'année fiscale 2006/2007, nous augmenterons les pensions de vieillesse de 5 %. ».

Je rappelle que l’inflation frôlait pourtant à l’époque les 10%.

M. le président, au cours des débats budgétaires, que n’a-t-on pas entendu sur notre soi-disant manque de considération à l’égard des forces vives. Mais n'ayons pas la mémoire trop courte et rappelons-nous comment ils ont dépecé les travailleurs et leur pouvoir d'achat. Voilà ce que cet ancien ministre des Finances avait à dire sur le sujet de l’emploi -

« C'est pourquoi nous abolissons l'actuel mécanisme tripartite de compensation salariale... Des réformes seront également apportées à la législation et à la réglementation du travail afin de parvenir à la flexibilité nécessaire... Plus il sera facile de recycler la main-d'œuvre, plus il y aura de travailleurs embauchés... ».

Je rappelle que 50 % des travailleurs touchaient moins de 8 000 roupies en 2008 et que 90 % d’entre eux touchaient moins de 25 000 roupies par mois. C’est tout simplement écoeurant.

M. le président, aujourd’hui, avec les mesures annoncées dans le Budget 2023-2024, nous accompagnons notre économie à se consolider et à se verdir. Plus encore, nous soulageons concrètement les Mauriciens dans leur combat contre la vie chère et leur faisons la promesse de tout faire ce qui est en notre pouvoir pour améliorer leurs conditions de vie.

M. le président, par le truchement des mesures annoncées dans le Discours du Budget 2023-2024 -

- 350 000 personnes âgées, handicapées et veuves recevront une pension plus élevée.
- 200 000 travailleurs recevront une allocation mensuelle de 2 000 roupies.
- 150 000 travailleurs recevront une allocation de revenu mensuelle de 1 000 roupies.
- 150 000 contribuables à l'impôt sur le revenu paieront moins d’impôt.
- 85 000 personnes bénéficieront d'un Revenu Minimum Garanti de 15 000 roupies.
- 70 000 ménages ayant contracté un prêt pour l'achat de leur logement bénéficieront d'une aide de 1 000 roupies.
- 48 000 ménages recevront une allocation familiale mensuelle de 2 000 roupies par mois.
- 40 000 emplois seront créés dans les secteurs du public et du privé.
- 20 000 ménages vulnérables bénéficieront d'un soutien plus important dans le cadre du SRM et de la Database of Vulnerable Groups, et enfin
- 15 000 individus atteignant l'âge adulte de 18 ans recevront une subvention unique de 20 000 roupies.

M. le président, au travers de ce Budget, nous osons et nous protégeons la population pour qu’elle puisse envisager avec optimisme le futur qu’elle mérite. Nous rappelant au plaidoyer du Président Obama -

« C’est l’audace de l’espoir. L’audace de croire que malgré des revers personnels, la perte d'un emploi, un malade dans la famille ou une famille empêtrée dans la pauvreté, nous avons quelque emprise et par conséquent une responsabilité sur notre destin ».

Sur ces mots, je vous remercie pour votre attention, remercie le Premier ministre pour son soutien précieux, la majorité parlementaire pour son engagement sans faille et la population pour sa confiance renouvelée.

C’est pour moi une immense fierté de pouvoir servir mon pays sous le leadership de Pravind Kumar Jugnauth qui m’a fait confiance et m’a confié cette grande responsabilité.

the hon. Prime Minister inform the House when was the current MNIC Project introduced in Mauritius and whether the hon. Prime Minister can inform the House as to why there is a need now to replace the current MNIC Project? Thank you.

The scheme is composed of Central Population Database, Certificate Authority, MNIC System and shared infrastructure. Accordingly, the Citizens Advice Bureau which was under the purview of the Ministry of National Infrastructure and Community Development will fall under the responsibility of the Citizen Support Unit under the Prime Minister’s Office.

The provision is made for payment in relation to contracted services of resident inspectors in the fields of Airworthiness, flight operations and Air Navigation Services due to scarcity of personnel in these areas.

May we know who are the suppliers of those VSAT stations, the equipment, are they locals or are they foreigners?

The Prime Minister: Solar panel for VSAT Station at Agalega – the solar panel of the very small aperture terminal station of Agalega installed around year 2000 has reached the end of its useful lifetime. The contract to replace the existing solar power system was awarded to Rey & Lenferna in December 2022. The installation works started in May
2023 and are expected to be completed around mid-June 2023. The delay in installation is due to non-availability of ship to transport the equipment. 50% of the contract price will be paid upon delivery of the equipment on site at Agalega in this financial year.

With regard to the upgrading works for VSAT Station at Agalega and St Brandon, the Department of Civil Aviation operates a very small aperture terminal, very high frequency communication equipment in Agalega and St Brandon Islands for the provision of air navigation services. The security perimeter fences of these stations are corroded and need to be replaced. Minor civil works such as waterproofing and painting are also required. In order to address the issue of non-responsiveness, bids will be launched through restricted bidding exercise. Tender for the construction of a two-storey building was launched on 11 August 2021, however, bids received were above the threshold of Rs25 m. The contract of the Consultant was terminated and tender will be re-launched and the Department of the Civil Aviation is accordingly liaising with the Ministry of National Infrastructure and Community Development.

The project value has been revised to Rs31 m. and funds of Rs4 m. are being provided for the appointment of a Consultant. The project is expected to be completed in December 2025.

The Prime Minister: Fees to chairperson and members of boards and committees. So, the provision made for payment of fees to chairpersons, members and secretaries of RYC Board of Visitors, District and Central Probation Committees. The increase in provision is based on actual cost of expenditure; it includes also fees for training of staff at Civil Service College Mauritius, fees to Consultants, that is, payment of fees to Psychologists and Therapists on a sessional basis. The Chairperson: A last one, hon. Osman Mahomed!

Mr Osman Mahomed: Thank you, Item 31111.413 – Dwellings, Upgrading of Probation Institutions for a project value of Rs20 m. Is this a long term project going for 5-6 years or even 10 years if it is Rs2 m. per year for Rs20 m. Is it like a 10-year project?

The Prime Minister: No, the decrease in provision is due to ongoing survey exercises. As a result then, we will see.

Ms J. Bérenger: Item 17, Assistant Superintendent, Rehabilitation Youth Centre at page 106, je vois qu’aucune provision n’est faite pour le poste de Assistant Superintendent, Rehabilitation Youth Centre. Peut-on savoir la raison puisqu’il semblerait qu’il y ait quelqu’un qualifié pour ce poste ?

Deputy Prime Minister’s Office, Ministry of Housing and Land Use Planning and Tourism

Vote 3-1 Housing and Land Use Planning was called.

The Chairperson: We have 20 minutes for this Vote and we start with Sub-Head 3-101: General, on page 122. Hon. Ms J. Bérenger!

Ms J. Bérenger: Thank you. Item 21110.005 – Extra Assistance, peut-on savoir à qui est distribué ce budget alloué de R 2,400,000 et quel est le package de ces personnes?

The Deputy Prime Minister: Sorry, I did not hear. Quel est le package de?

Ms J. Bérenger: À qui est attribué ce budget alloué pour le Extra Assistance et quelle est leurs rémunérations?

The Deputy Prime Minister: Mr Chairperson, I understand the provision here is made for the remuneration of 3 Advisors –
(i) Advisor on Stakeholder Relations and Research – Mrs Ramsamy; You want the salary as well? So, it is a basic salary of Rs32,350.

(ii) Advisor on Information Matters – Mr Ludhor; basic salary: Rs66,200, and

(iii) Advisor on Public Relation Matters – Mr Khedah; basic salary: Rs 25,525.

Mrs Luchmun Roy: Thank you, Mr Chairperson. Under Item - 21110.004 – Allowances, can we have a breakdown of the allowances he is referring to? Thank you.

The Deputy Prime Minister: I am informed this is provision made for payment of acting allowance, ad hoc allowance and responsibility allowance to officers of the Ministry.

Mr Ameer Meea: Page 123, Item 22030 – Rent, there has been a substantial increase from Rs33 m. to Rs39 m. May I know why there is such an increase and at the same time, if I can have the details and the breakdown of this figure?

The Deputy Prime Minister: It is a very good question. I asked myself the same question. So, I am informed as follows –

Provision is made for payment of rental of buildings as follows –

(i) Ebène Tower, 2nd to 7th Floor;

(ii) Ebène Tower, 1st Floor;

(iii) Ebène Tower, Ground Floor;

(iv) Ebène Tower, Ground Floor.

So, the increase in provision is due to additional office space that is to be rented at Ebène Tower, where the Ministry is presently housed. The additional office space is required following a reorganisation of various sections of the Ministry together with an increase in staff numbers.

The Chairperson: You are done? Hon. Deputy Prime Minister, that is your answer? Okay. Hon. Uteem.
**Mr Uteem:** On the same Item 22030 – Rent, may I know from the hon. Deputy Prime Minister, when does the lease agreement expire and whether there has been any tender launched for relocation to new premises?

**The Deputy Prime Minister:** I understand that this is since December 2010. A total extent of 4,893 square metres has been rented together with 50 parking slots. The contract was renewed for the period stretching from 01 June 2020 to 31 May 2025, for a further period of 5 years. The first one was from Shah Institute of Technology & Co. Ltd.

Then, in October 2016, a second floor space was rented from Excel International Co. Ltd. The contract has been renewed; it now extends to 30 September 2025. Since 01 June 2020, another extent of 250 square metres rented from Excel International Co. Ltd for period 01 June 2023 to 31 May 2026.

Finally, on 01 May 2022, a total extent of 211 square metres on ground floor, again from Excel International Co. Ltd, for a period of 3 years, ending 30 April 2025. So, it would appear that all these contracts run until 2025, except for one that goes up to May 2026.

**The Chairperson:** Thank you, hon. Deputy Prime Minister. We now move to Sub-Head 3-102: Social Housing Development and for this we have 10 minutes. It starts at page 123 to page 124. So, we start with page 123. No question? Page 124. Hon. Mrs Luchmun Roy.

**Mrs Luchmun Roy:** Thank you, Mr Chairperson. Under Capital Expenditure, Item 28222.015 – Transfer of Title deeds of ex-CHA Houses, can we know the number of beneficiaries and the locations as well, if the Minister can provide same to the House? Thank you.

**The Deputy Prime Minister:** The information that I have been provided with states that provision has been made for financial assistance to vulnerable lessees of ex-CHA housing estates whereby they are granted the land -presumably the land on which their houses stand - free of charge by means of a waiver of the purchase price of Rs2,000 and registration fees. Additionally, the notary fee of Rs1,500 and survey fees of Rs1,500 are also met by Government.

So, I understand that as at 31 May 2023, 18 families have benefited from this scheme.

**The Chairperson:** Hon. Dr. Boolell!

**Dr. Boolell:** Thank you, very much, Sir.
Under the Item 26 – Grants, 26313.154 – Extra-budgetary Units – New Social Living Development Ltd, can the Minister apprise us as to why there is a substantial increase on Rs78 m. to Rs130 m.? Thank you.

**The Deputy Prime Minister:** Again, that’s a question I asked myself when I saw the figures. So, the explanation I have been provided with states as follows – provision made for the government grant to the NSLD to meet its operational and administrative costs including salaries of employees, board meeting fees, payment of rent, utilities, purchase of stationery, furniture and equipment. This is what the item is about.

Now, the increase is due to additional expenses foreseen to be incurred in salary and other related costs in as much as 50 additional members of staff are to be recruited. This will comprise Project Managers, Project Officers, Project Assistants, and Technical Officers in relation to the construction of 8,000 housing units on a design and build basis. And then, I have to break down, if required.

**The Chairperson:** Hon. Uteem!

**Mr Uteem:** On the same item 26313.154 – Extra-Budgetary Units – New Social Living Development Ltd., being given that the hon. Deputy Prime Minister just mentioned that this money is for the payment principally of salaries, maybe the hon. Deputy Prime Minister will now be in a position to tell us what is the salary of the Chief Executive Officer and the Chief Operating Officer which I asked for a few days ago and at the time, you said that the information was being compiled.

**The Deputy Prime Minister:** Yes. It is not only salary, I gave the breakdown, it includes a host of different fees. Now, I’ll just check if I have the information requested. The hon. Gentleman wanted the salary of the Executive Director - no, this is not provided here but if I have stated that I will lay in the Library of the National Assembly, then I will do so, Mr Chairperson.

**The Chairperson:** Hon. J. Bérenger.

**Ms J. Bérenger:** Yes, on the same Item 26313.154 – Extra-Budgetary Units – New Social Living Development Ltd. Je ne suis pas sure si c’est sous cet item-là que je dois demander, mais peut-on savoir la composition du Board de la NSLD et les rémunérations aussi si possible?

**The Deputy Prime Minister:** So, the composition of the Board –

(i) Mr Mohammad Ehsan Ahmad Abdool Rahman, Chairperson;
(ii) Mr Jairaj Sonoo, Executive Director;
(iii) Mr Krish Addivigadoo, Independent Director;
(iv) Mr Shameem Mahmood Muslun, Independent Director;
(v) Mr Amritlall Moolchand, Independent Director;
(vi) Mrs Nandita Ramdewar, Representative of Shareholders, this is SICOM;
(vii) Mr Prakash Ramchurn, Director from the Ministry of Housing;
(viii) Mr Jean Damien Kervin Ramma, Independent Director;
(ix) Mrs Amritasingh Golam, Director from the SIC;
(x) Mr Yashraj Seeruttun, Director from the PMO.

I believe these are all the members of the present Board. The remuneration for the Board Members is Rs26,250 per month.

The Chairperson: Hon. Osman Mahomed!

Mr Osman Mahomed: Thank you. On the same vote Item 26313.154 Extra-Budgetary Units – New Social Living Development Ltd. I fail to understand why is it that the Minister cannot provide the salary requested for by hon. Uteem because I have the full list that the Director, CEO…

Mrs Dookun-Luchoomun: It’s to provide day time and night security in primary schools and the four zonal directorates as per contract. The funds will be used for the provision of night security services in 216 Primary Schools and the increase in provision is because of the new bidding exercise which is being launched by the CPB.

The Chairperson: Hon. Mrs Luchmun Roy!

Mrs Luchmun Roy: Thank you, Mr Chairperson. Under item 22030.001 – Rental of Building, can the hon. Minister shed some light upon the renting of which building we are referring to? Thank you.

The Chairperson: Hon. Ms Tour!

Ms Tour: Thank you, Mr Chairperson. Item 26313.034–Mauritius Examinations Syndicate, there is an increase of Rs30 m. for Year 2023-2024.

Mrs Dookun-Luchoomun: The operational examination related expenses of the MES are met from Government grant, income from fees in respect of examinations conducted by the MES on behalf of professional and other bodies and then funds for sponsorship of SC and HSC and GCE Exams. Most probably, this year, it is extra because of the fact that students of Grade 10 and Grade 11 both are sitting for the SC Exams.

The Chairperson: Thank you. Hon. Uteem!

Mr Uteem: Item 26313.132 –PSEA – Management Grant to Private Secondary Schools, there is an increase from Rs590 m. to Rs630 m. for this year, may I know have from the hon. Vice Prime Minister a breakdown of each college, how much is given for each college and what is the criteria for allocation of that grant? This is the management grant, not the student.

Mrs Dookun-Luchoomun: In fact, the grants are meant for rental for the use of premises and for the operational costs of each and every school. Now, the increase in the
amount that has been mentioned here refers to the fact that the comprehensive grant formula is being worked again for the next phase of three years.

**The Chairperson:** Thank you. Hon. Mrs Navarre-Marie!

**Mrs Navarre-Marie:** Item 28212.012 – S.C and H.S.C Examination Fees, there is no increase in the sum earmarked inspite of the fact that the Rupee has been devalued. Has there been any decrease in the number of students taking part in the examination?

**Mrs Dookun-Luchoomun:** Not at all, Mr Chairperson. In fact, the MES normally has a reserve and normally because of fluctuations in foreign exchange rates etc., so they normally do have the sum and part of it most probably remains from last year.

**The Chairperson:** Hon. Doolub!
Mr Doolub: Thank you, Mr Chairperson. Item 22900.006 – School Requisites, I note an increase of at least Rs11 m., can the hon. Vice Prime Minister tell us the reasons thereof? Thank you.

Mrs Dookun-Luchoomun: The provisions are for printing and publishing of textbooks for Grade 7, 8 and 9 and for the purchase of books for needy students, equipment and materials and teaching aid materials. Increase in provision is due to the rise in the cost of printing and book materials.

The Chairperson: So we move to page 149. Hon. Ameer Meea!

Mr Ameer Meea: Page 149, Item 31112.402 – Upgrading of Schools, there is a budget of Rs68 m. May I have a list of schools which are being upgraded?

Mrs Dookun-Luchoomun: I am tabling the list.

The Chairperson: Thank you. Hon. David!

Mr David: Thank you, Mr Chairperson. Item 26323.123 – Mahatma Gandhi Institute. Je vois que chaque année, il y a un budget qui était prévu de R 10m. sauf sur cette nouvelle année financière avec une baisse à R 7 billion. Puis-je demander pourquoi cette baisse ponctuelle pour cette nouvelle année?

Mrs Dookun-Luchoomun: The Rs2.5 was provided for the acquisition of a new van, AC units and CCTV cameras. So, now that this has already been done, they do not require that much of funds.

The Chairperson: Thank you. We now move to Sub-Head 4-105: Technical Education. We have got 10 minutes and it starts from page 149. Hon. Mrs Luchmun Roy!

Mrs Luchmun Roy: Thank you, Mr Chairperson. Under Item 22120.008 – Fees to Consultant - Roadmap for Technical and Technology Education, can the hon. Minister provide details whether we have already embarked on with a consultant if ever to provide the name and details? Thank you.
Mrs Dookun-Luchoomun: In fact, the fees are meant for a consultant coming from the University of Alberta in Canada. We have a provision of Rs5 m. for consultancy services to conduct a high level forum on technical and technology education and to devise a road map for technical and technology education for Mauritius. This will bring together the triple helix of Government industry and technology operators to connect the skills gap of today and to the industry trends of tomorrow. So, it is, in fact, meant for the consultancy services to conduct this High-Level Forum on technical and technology education.

The Chairperson: Hon. Dr. Boolell!

Dr. Boolell: Thank you very much, Mr Chairperson. Under the Item 22900.991 – Expenses icw Technical Education Centres, can the Vice-Prime Minister can apprise us why there is this substantial increase compared to money earmarked in the last financial year?

Mrs Dookun-Luchoomun: The provision being made is to meet operational costs including salaries, allowance, maintenance of tools and equipment, as well as cleaning services for the 6 Technical Education Centres currently being administered by the MITD pending the taking over by ITET.

The Chairperson: Hon. Mrs Navarre-Marie!

Mrs Navarre-Marie: Yes, thank you, Mr Chairperson. Item 26313.157 – Institute of Technical Education and Technology (ITET). We voted a sum of Rs15 m. last year. Can we have a breakdown of expenses incurred last year?

Mrs Dookun-Luchoomun: So the provision was made to meet the operational cost of ITET and the Human Resource cost, support of staff allowance, rental of office space, maintenance of building and also for the purchase and procurement of vehicles, IT equipment and furniture.

The Chairperson: Hon. Gungapersad!

Dr. Gungapersad: Thank you, Mr Chairperson. Page 149, same Item like hon. Mrs Navarre-Marie, Item 26313.157 – Institute of Technical Education and Technology (ITET), Rs18 m. for this year. Will the hon. Minister tell us whether it is fully operational, number of students who are currently following courses and the staff, as well as the Board of the ITET?

Mrs Dookun-Luchoomun: As I have just stated, Mr Chairperson, the 6 institutions are still being run under the MITD and the staff of the MITD is involved there.
I can also table the Board of the ITET.

**The Chairperson:** Thank you. Hon. Uteem!

**Mr Uteem:** Yes, Item 22900.991 – Expenses icw Technical Education Centres. There is an increase in the budgeted amount. Can we have a breakdown of the amount paid to each Technical Education Centre?

**Mrs Dookun-Luchoomun:** I don’t have the information with me right now. I have it bulked, but we can provide it to you.

**The Chairperson:** We now move to page 150, the upper part only. Go on, hon. Dr. Gungapersad!

**Dr. Gungapersad:** Thank you, Mr Chairperson. Page 152, Item 28212.011–State of Mauritius/Additional Scholarships...

**The Chairperson:** No! Which Item? Page 150. So there is no question. So we move to Sub-Head 4-106: Special Education Needs. We have got 5 minutes for that.

**Hon. Dr. Boolell:**

**Dr. Boolell:** Thank you very much, Mr Chairperson. Item 26313.149 – Special Education Needs (SEN) Authority. There was no provision made last year and I see that there is provision of Rs169 m. So, if the hon. Vice-Prime Minister can apprise us as to how this money is being spent to cater for those who are in need of special education.

**Mrs Dookun-Luchoomun:** In fact, funds have been provided for the grant-in-aid and we are also providing hot meals to students in the SEN Schools. We are providing funds to the SEN Schools, the NGOs and the RCEA-SEN Schools. We are also providing hot meals in all these schools for all these children on a daily basis.

**The Chairperson:** Hon. Mrs Navarre-Marie!

**Mrs Navarre-Marie:** Yes, Item 26313.149 – Special Education Needs (SEN) Authority (b) Grant-in-Aid for SEN Schools run by: (i) NGOs. Could we have a list of the NGOs that will benefit from this budget, please?

**Mrs Dookun-Luchoomun:** We have 47 NGOs and 8 RCEA Schools and a total of 2,505 students. We are going to table the list of NGOs.

**The Chairperson:** Hon. Uteem!
**Mr Uteem:** On this very same Item 26313.149 – Special Education Needs (SEN) Authority (b) Grant-in-Aid for SEN Schools. May we also have from the hon. Vice-Prime Minister, the criteria for allocation of these grants to the various NGOs?

**Mrs Dookun-Luchoomun:** Mr Chairperson, the Special Education Needs Authority has got norms and conditions and a list of criteria and all registered schools only do get these funds. I will obviously submit to the House, a list and criteria used by the SENA.

I would also like to add that the increase in funds is also on the account of the fact that the salaries of all the carers, teachers, drivers, handy workers have all been increased to meet the new requirements as per the budget.

**The Chairperson:** Hon. Gungapersad!

**Dr. Gungapersad:** Thank you, Mr Chairperson. Page 150, Item 22120 – Fees. For example, from Rs2.2 m, it comes to Rs1.2 m. this year and then again it drops for subsequent years. May we know why there is this drop, hon. Vice-Prime Minister?

**Mrs Dookun-Luchoomun:** The decrease is due to the fact that MIE has already conducted 50% of the work for the adaptation of textbooks.

**The Chairperson:** We move to page 151 under the same Sub-Head.

**Dr. Gungapersad:** Page 151 at the top. We find that transfers to non-profit institutions, Item 28211.067 – RCEA for Special Education Needs (SEN) Schools, for this year and subsequent years we do not have any budgetary provision while we had it last year.

**Mrs Dookun-Luchoomun:** I think that the funds have been transferred from one item to another. The amount has been transferred under the vote of Special Education Needs Authority.

**The Chairperson:** Hon. Uteem!

**Mr Uteem:** Thank you. Under Item 26323.149 – Special Education Needs (SEN) Authority of which (a) Upgrading of SEN Schools run by NGOs/RCEA, may we have a list of the SEN schools that would be benefitting from this grant?

**Mrs Dookun-Luchoomun:** If I’m not mistaken, all the SEN schools will be provided with this grant of about Rs100,000 for upgrading the infrastructure and around Rs50,000 for educational materials and equipment.
The Chairperson: Time is over! We move to Sub-Head 4-107: Scholarships and Capacity Building. We have got five minutes for this.

Mr Ameer Meea: Thank you, Mr Chairperson. On page 152, Item 28212.011 – State of Mauritius/Additional Scholarship, may I ask the hon. Vice-Prime Minister why the estimate for State and additional scholarship has decreased by Rs10 m. when we all know that tuition fees and living expenses around the world has been increasing and the more so, the living allowance for laureates has not been changed since 2017?

Mrs Dookun-Luchoomun: The funds are used for the payment of tuition fees, living allowance and air tickets for a total of 283 laureates and 13 beneficiaries of scholarships under the Rodrigues Scholarship Scheme. We have noted that some students have delayed their departure as well. Sometimes, those getting the scholarships decide to move at some other point in time, so, they ask for a delay. Ils ont déjà commencé des cours à Maurice and they decide to go after that. This is a policy decision.

The Chairperson: Hon. Ms Tour!

Ms Tour: Thank you, Mr Chairperson. Item 28212.020 – Student Scholarship Schemes for Vulnerable Households. There is a decrease in provision for the year 2023-2024, may we know from the hon. Vice-Prime Minister why this decrease in provision?

Mrs Dookun-Luchoomun: The decrease is due to a low number of applicants. For the vulnerable group, they apply for the scholarships and it all depends on whether or not, they come into the first 500 candidates according to the list from Cambridge.

The Chairperson: Hon. Dr. Boolell!

Dr. Boolell: Thank you, Mr Chairperson. Item 28212.010 – Post-Graduate Scholarship Schemes. I’m sure I will get the same reply from the hon. Vice-Prime Minister. In respect of budgetary provision earmarked compared to last year, there has been a substantial drop, be it for the State of Mauritius Post-Graduate Scheme or Post-Graduate Scheme for Laureates. Can the hon. Vice-Prime Minister inform us as to why there has been a drop in the budgetary provision? Thank you.

Mrs Dookun-Luchoomun: Every year there are nine scholarships that are awarded to graduates willing to go for a Master’s Degree. For studies abroad of one year’s duration, the tuition fees, living allowance and air tickets at the beginning and end of the course are covered. For those who study locally, the scholarship covers tuition fee and living allowance for two years and their monthly allowance as well. So, most probably you have fewer students going for the two years and some going for one year only.
If they take the first degree in Mauritius, then, they can take two years for a postgraduate degree outside Mauritius. If they do not stay in Mauritius for their first degree and they go out, then they do not have to pay for the postgraduate allowance.

**The Chairperson:** Mr Uteem!

**Mr Uteem:** Under Item 28212.032 – *Scholarship Schemes to Student with Disabilities*, may I know from the hon. Vice-Prime Minister how many students benefited from that Scholarship and what is the amount paid to each student?

**Mrs Dookun-Luchoomun:** In fact, we have five scholarships every year, normally five every year. And it all depends on which course they follow. Sometimes they go for polytechnics, for degrees – it all depends on which courses they are going for. So, the amount will vary.

**The Chairperson:** Hon. Mrs Luchmun Roy!

**Mrs Luchmun Roy:** Thank you, Mr Chairperson. Under Item 28212.025 – *Financial Assistance Schemes to Students*, there is a considerable drop. Can the hon. Vice-Prime Minister provide information as to why there is such a drop in the figures and also the number of beneficiaries under this one? Thank you.

**Mrs Dookun-Luchoomun:** It is most probably due to the fact that we now have the Free Tertiary Education Scheme. 196 students had applied for the loan under the above scheme. We are talking here about a scheme that started in 2013 and the beneficiaries have all paid back their loans apart from one. That’s why there is a decrease.

**The Chairperson:** Hon. Dr. Gungapersad!

**Dr. Gungapersad:** Thank you, Mr Chairperson. Again I am referring to page 152, Item 28212.038 – *Postgraduate Scholarship Scheme in Digital Technologies*. I would like to have details regarding how this Rs10 m. would be spent, number of students concerned and where normally these students go to study - locally or abroad – to which universities?

The Scheme comprises two types of scholarships for those willing to go abroad and for those willing to do their post-graduation in Mauritius at the *Université des Mascareignes* and the funds were utilised for 22 new awards, two scholarships awarded for PHD courses, 15 scholarships to be awarded at Masters Level of one year duration if it is taken abroad and two years if it is taken in a local institution. Five scholarships awarded to PHD level for a duration of up to four years abroad or locally.
I do not have any more information here. 20 scholarships for AI and Block Chain technology are awarded at Université des Mascareignes. The number of beneficiaries is 12.

Mr Chairperson: Thank you, hon. Vice-Prime Minister. We will now move to the last sub-head which is Sub-Head 4-108: Tertiary Education. We have five minutes for this and it starts at page 152. Hon. Dhunoo!

Mr Dhunoo: Thank you, Mr Chairperson, Item 22130 - Studies and Surveys – National Higher Education Strategy. Can we have more details from the hon. Vice-Prime Minister?

Mrs Dookun-Luchoomun: The Studies and Surveys refer to studies and preliminary project preparation for the National Higher Education Strategy and the funds of Rs5 m. are available. The Ministry is partnering with UNESCO, the World Bank and High Education Commission to obtain wide stakeholders’ inputs on the topic. Preliminary pillars identified for the strategy are technology driven high education, agile regulatory framework and the quality assurance, pass ways and micro credentials as part of the higher education, the role of research and internationalisation and cross border higher education.

Mr Chairperson: Thank you. So, we move to page 153. Hon. David!

Mr David: Thank you, Mr Chairperson, Item 26313.150 – Higher Education Commission. May I ask the hon. Vice -Prime Minister to table the composition of the Board of the HEC?

Mrs Dookun-Luchoomun: Yes, it will be done.

The Chairperson: Hon. Uteem!

Mr Uteem: On the very same point, Item 26313.150 – Higher Education Commission, in addition to the composition of the Board, may I request the Vice-Prime Minister to also table the salary package of the Chairman and each member of that Board?

Mrs Dookun-Luchoomun: Yes, this will be done. The Chairperson has a package of Rs40,000 and members Rs2,500.

The Chairperson: Hon. Dr. Boolell.

Dr. Boolell: Thank you very much, Mr Chairperson. On the same Item 26313.150 – Higher Education Commission, could the Vice-Prime Minister inform us as to the number of African students who have taken advantage of the scholarships awarded and
secondly, the funding of research projects and if the hon. Vice-Prime Minister can table the projects that are being funded? Thank you.

Mrs Dookun-Luchoomun: There are 153 African students who have benefitted from the scheme and 60 are still following courses in Mauritius. As far as the research fund is concerned, we have 103 projects that have been approved since the start of the scheme for a total project value of Rs156.2 m. As at date, HEC has a closing balance of Rs43.1 m. which will be used for disbursement in respect of ongoing projects in the year of 2023-2024. All new projects are funded on basis of the potential impact on the economy and society. Eight new projects have been approved for a total value of Rs7.5 m. Funds amounting to Rs7.7 m. are committed for disbursement up to June 2023.

The Chairperson: Hon. Dhunoo!

Mr Dhunoo: Thank you, Mr Chairperson, under same Item 26313.150 – Higher Education Commission, ii. Recruitment of foreign lecturers, can the Vice-Prime Minister inform how many foreign lecturers have been recruited?

Mrs Dookun-Luchoomun: The foreign lecturers are recruited on a temporary basis. They come for one or two modules and they go back but I will try to get the information and table it.

The Chairperson: Hon. Navarre-Marie!

Mrs Navarre-Marie: Thank you, Mr Chairperson. Item 28211.071 – Higher Education Advisory Council, may we know the composition of the Council?

Mrs Dookun-Luchoomun: It has not been constituted yet.

The Chairperson: Hon. Dr. Gungapersad!

Dr. Gungapersad: Thank you, Mr Chairperson. Page 153, Item 26313.150 - (d) Université des Mascareignes of which Scholarship (Robotics and Artificial Intelligence), there has been a 100% increase in the budgetary provision. Will the hon. Minister inform the House how many students will benefit from the scholarship every year and for what level? Is it for diploma, graduate, post graduate levels?

Mrs Dookun-Luchoomun: It is supposed to be for post-graduate. It is a Masters in Artificial Intelligence and Robotics. It is serviced by consortium of universities and it is awarded jointly by UDM and Université de Limoges. There are 20 scholarships that have been awarded to students of self-finance. 15 students from batch 1 have already graduated.
The scholarship covers an amount of Rs250,000 per student as tuition fees and cost of oversees placement for up to three months during the last semester of the programme.

**The Chairperson:** Any question on page 154? No? Okay.

*Vote 4-1 Vice-Prime Minister's Office, Ministry of Education, Tertiary Education, Science and Technology (Rs 19,700,000,000) was, on question put, agreed to.*

(00.11 a.m.)

*(Vice Prime Minister’s Office, Minister of Local Government and Disaster Risk Management)*

*Vote 5-1 Local Government was called.*

**The Chairperson:** So, we take Sub-Head 5-101: General on page 166 and we have got seven minutes for this. Hon. Uteem!

**Mr Uteem:** Item 21110.005 – *Extra Assistance*, may we have the names of the advisors and their salary package?

**Dr. Husnoo:** The *Extra Assistance* is for the payment of salaries for four advisors –

(i) Advisor for information matters – Mr Yeadally Jameer Udeen;

(ii) Public Relations Officer – Mr Mussa Innayatula;

(iii) There is one expert on land use and planning executive – Mr Rajeshwar Phul, and

(iv) One advisor on policy matters – Mr Oomar Khooleegan.

**Mr Uteem:** I also asked for the salary package.

**The Chairperson:** Sorry?

**Mr Uteem:** I also asked for the salary package. Not just the names.

**The Chairperson:** Are you going to provide this information?

**Dr. Husnoo:** Yes, I got it. Mr Rajeshwar Phul, Rs82,250; Mr Khooleegan Rs43,500; Mr Mussa Innayatula Rs25,525; Mr Yeadally Rs66,200.

**The Chairperson:** Any other questions on page 166? Page 167? No.

So, we move to the next Sub-Head 5-102: Facilitation to Local Authorities and for this we got 10 minutes. Page 167, the lower part. Page 168, hon. Dr. Boolell.
Dr. Boolell: Thank you very much, Mr Chairperson. Under Grants, Item 26312.017 – Disaster Risk Management Programmes in Local Authorities, Rs18 m. earmarked for the coming financial year. If the hon. Vice-Prime Minister could apprise us as to how this money is going to be spent; if he can give us a breakdown. Thank you.

Dr. Husnoo: This is a new item which is being introduced through the amendment in the Local Government Act this year. An amount of Rs1.5 m. will be allocated to each of the 12 local authorities to develop their respective disaster risk management programme because as you know, we are trying to train people near their place of residence. In case of disaster, they can act quickly instead of waiting for people to come. Basically, this is what it is.

Dr. Boolell: Thank you very much.

The Chairperson: Hon. Ms Tour.

Ms Tour: Thank you, Mr Chairperson. Item 26322.030 – Local Development Projects (d) Multipurpose Complexes (iii) Abercrombie, may we know from the hon. Vice-Prime Minister where matters stand?

Dr. Husnoo: Actually, Abercrombie is a very complicated case. What happened is that, there were a lot of issues between the consultant and the contractor. They have both stopped working and the MNI has taken over to act as consultant to sort out of this project. The problem is not just the first floor; we have to consolidate the ground floor as well. So, the MNI is working on the plan and once we sort it out, we will advertise for the contractor as well.

The Chairperson: Hon. Uteem.

Mr Uteem: Thank you, Mr Chairperson. Item 26322.030 – Local Development Projects (c) Renovation of Port Louis Theatre (Phase II), an amount of Rs23 m. is earmarked for next year. May I know from the hon. Vice-Prime Minister, what is the status of these renovations? We seem to be voting every year an amount for innovation and the Theatre is still not operational.

Dr. Husnoo: Actually, Phase I is over. Provision of Rs23 m. is to kick-start the Phase II of the project of Port Louis Theatre. It is estimated that the Council will only be able to use the Rs23 m. this year. An additional amount of Rs10 m. has been provided in the Loto fund in the financial year.

Mr Uteem: What is the pace of the project?
Dr. Husnoo: This will take a bit of time. It is a very complex project, as you know. The first phase took a long time as well and the second phase, maybe easily two years. Easily!

The Chairperson: Hon. Dhunoo!

Mr Dhunoo: Thank you, Mr Chairperson. Item 26322.030 – Local Development Projects (d) Multipurpose Complexes (vi) 16ème Mille, may we know from the Vice-Prime Minister where matters stand?

Dr. Husnoo: This is for the construction of a Multipurpose Complex at 16ème Mille. We are still looking for clearance from the Ministry of Housing and Land Use Planning, the National Infrastructure Division, the Department Civil Aviation, Water Resources Unit and Wastewater Management. Once we get all the clearances, then, the bid will be invited through Open National Bidding.

The Chairperson: Hon. Mrs Mayotte.

Mrs Mayotte: Thank you, Mr Chairperson. Page 169, Item 26322.030 – Local Development Projects (e) Markets and Fairs (vii) Bambous (Consultancy), it is mentioned consultancy. Can the hon. Vice-Prime Minister give us more details about this item?

Dr. Husnoo: Construction for market fair at Bambous – the project value is Rs90 m. A plot of land to the extent of 1.5 arpents belonging to Belle Isle Estate at Royal Road, Bambous has been identified and needs to be acquired by the Ministry of Housing and Land Use Planning and vested in the District Council of Black River through my Ministry. Site visit was effected by the Ministry of Housing and Land Use Planning in the presence of relevant stakeholders on 06 June. We are still waiting.

The Chairperson: Hon. Ameer Meea!

Mr Ameer Meea: On page 168, Item 26322.030 – Local Development Projects (d) Multipurpose Complexes (iii) Abercrombie. Can I ask the hon. Vice-Prime Minister, how much has been spent up to now on this project, bearing in mind the dispute between the consultant and the contractors, and also what are the risks the public is facing in relation to this building?

Dr. Husnoo: The actual expenditure is around Rs10.2 million as of 05 May. When the project was started to put the first floor extension, it was found that the ground floor is not strong enough to take the first floor. That is why there were some disputes. Now, as I have explained, the MNI has taken over. They have to consolidate the ground floor first,
and then, we have to build the third floor. I know it is a very difficult situation but that is the way it is, unfortunately.

**The Chairperson:** Thank you. We now move to page 169. Hon. Mrs Luchmun Roy.

**Mrs Luchmun Roy:** Thank you, Mr Chairperson. Under Item 26322.030 – *Local Development Projects (f) Setting up of Incinerators of which (ii) Long Mountain*, can the hon. Vice-Prime Minister provide details on this project, whether it includes land acquisition and the project completely because the amount is Rs18 m.?

**Dr. Husnoo:** This item provides for the construction of an incinerator, as you mentioned, at Long Mountain. Currently, discussions are ongoing between the Ministry of Housing and Land Use Planning, my Ministry and the District Council of Pamplemousses to finalise a site around Ilot Branch Road. We have to finalise the site. Basically, this is what it is.

**The Chairperson:** Hon. Woochit.

**Mr Woochit:** Item 26322.030 – *Local Development Projects (e) Markets and Fairs (vi) Pamplemousses*. I would like to know, from the amount Rs130 m., is the land adjacent to the site included in it or is it only for the contractor?

**Dr. Husnoo:** Rs37 m. has been made available in this financial year to start the construction of a new market. Basically, it is for the construction. The project value is Rs130 m. and around Rs7 m. will be spent during the current financial year. It has been awarded to Laxmanbhai & Co. (Mauritius) Limited.

**The Chairperson:** Hon. Uteem!

**Mr Uteem:** Item 26322.030 – *Local Development Projects (f) Setting up of Incinerators of which (vi) Tranquebar*. Rs20 m. was the project value and an amount of Rs2 m. has been earmarked for this year. May I know from the hon. Vice-Prime Minister where matters stand as to whether the contract has been awarded and what is the schedule completion date of that project?

**Dr. Husnoo:** Actually, a plot of land has been identified adjacent to the existing cremation ground at Tranquebar. The Ministry of Health and Wellness has informed that there is a risk of air pollution in the surrounding area and I recommended to seek the views of the Ministry of Environment, Solid Waste Management and Climate Change. We are still waiting for a reply from the Ministry of Environment, Solid Waste Management and Climate Change.
Mr Chairperson: Hon. Lobine!

Mr Lobine: Thank you, Mr Chairperson. Page 169, under item 26322.030 – Local Development Projects (i) Small Development Projects (Indian Grant), if we go at the Appendix, it’s mentioned greening and embellishment of the following major roads in Phoenix. May we get more details where about in Phoenix those embellishment works will be carried out?

Dr. Husnoo: I don’t have the list of roads actually. I just have the list of projects. I can circulate it to you later on.

Mr Chairperson: Hon. Doolub!

Mr Doolub: Page 169, item 26322.030 – Local Development Projects (e) Markets and Fairs (v) Mahebourg. Project value was Rs107 m., Rs39 m. earmarked for last year, reduced to Rs10 m. for forthcoming year, can the hon. Vice-Prime Minister apprise us with regard to work in progress for this project?

Dr. Husnoo: As you are aware yourself, being a Member of the Constituency, there have been some problems with the contractor. So the provision of Rs10 m. has been made in this financial year for the ongoing construction of the market fair at Mahebourg. Contract, as you know, was awarded to EDCC Co. Ltd. for the design built framework for an amount of Rs83.7 m. The project value is Rs104 m. The project started in September 2019. However, the contract with EDCC Co. Ltd. was terminated in December 2022 due to a breach of contract on behalf of the contractor. The Ministry of National Infrastructure has taken over to complete the project.

Mr Chairperson: Thank you, hon. Vice-Prime Minster, time is over!

Vote 5-1 Local Government (Rs 5,364,000,000) was, on question put, agreed to.

(00.26 a.m.)

Vote 5-2 National Disaster Risk Reduction was called.

Mr Chairperson: We got 10 minutes for this item and it’s from page 173 to 175. Hon. Dhunoo!

Mr Dhunoo: Thank you, Mr Chairperson. Page 173, item 22070 – Cleaning Services, may we know from the Vice-Prime Minister who are the service providers?

Dr. Husnoo: The item provide for cleaning services at Level 6 at Citadel Mall. The contract awarded to Mauriclean Ltd. from 01 December 2022 to 30 November 2023
for an amount of Rs104,328. For sanitary bins, contract awarded to Alpha Hygiene from 07 August 2022 to 06 August 2023 for an amount of Rs20,700.

**Mr Chairperson:** Hon. Ameer Meea!

**Mr Ameer Meea:** On page 173, item 22030 – *Rent*, there is an amount of Rs8.5 m. May we have the details and the breakdown of this rent, to whom it is being paid?

(*Interruptions*)

**Mr Chairperson:** Hon. Ministers Mrs Koonjoo-Shah and Teeluck, please stop this cross talking otherwise, you will take me for a midfielder.

**Mr Ameer Meea:** Wa al deor!

**Mr Chairperson:** Earlier they took me for a goalkeeper, now they will take me for a midfielder.

**Mr Toussaint:** Deor!

**Mr Ameer Meea:** Can I repeat my question?

**Dr. Husnoo:** The rent is for renting of office space at level 6 at Citadel Mall, Port Louis. The item provides for the renting of 12,000 square feet of office space on the 6th floor, Citadel Mall in Port Louis at the rate of Rs703,800 monthly and the contract started from 2017 and it is a 5 year’s contract.

**Mr Chairperson:** Any other question on page 173? So, we move to page 174 and we start by hon. Mrs Luchmun Roy!

**Mrs Luchmun Roy:** Thank you, Mr Chairperson. Under item 28222.025 – *Compensation for the Relocation of Inhabitants (Landslide)*, we see there is a drop in the amount. Can the hon. Vice-Prime Minister provide further details why there is this drop and when would the inhabitants be relocated; whether we have any dates right now? Thank you.

**Dr. Husnoo:** As you are aware, the Ministry is responsible to cater for the survey undertaken by the Quantity Surveyor Section of the Ministry of National Infrastructure and Community Development, the building and the structures and for the survey undertaken by Valuation Department of the Ministry of Housing and Land. Appropriate compensation packages are to be worked out by the latter Ministry. Provision is made to cater for the survey undertaken by the Quantity Surveyor Section and he is at Chitrakoot; survey is still pending for four houses there. Compensation package under preparation and there are others at Vallée Pitot and other sites as well.
Mr Chairperson: Hon. Uteem!

Mr Uteem: Thank you. Under the very same item 28222.025 – Compensation for the Relocation of Inhabitants (Landslide), may I know from the hon. Vice-Prime Minister what is the amount budgeted for relocating the inhabitants of Vallée Pitot who are prone to landslide?

Dr. Husnoo: The initial, I mean, it’s only Rs500,000, its mentioned here. It is a token item but again compensation package is under preparation.

Mr Chairperson: Thank you. Page 175, no question?

Vote 5-2 National Disaster Risk Reduction (Rs26,300,000) was, on question put, agreed to.

(00.30 a.m.)

Vote 5-3 Mauritius Fire and Rescue Service was called.

Mr Chairperson: We got 15 minutes for this and we start at page 176 up to 178. Hon. Uteem! On page 176.

Mr Uteem: Item 22060.004 – Vehicles and Motorcycles, there is a budgeted amount of Rs10.3 m., may I have a list of the service providers which carried out the maintenance from the hon. Vice-Prime Minister?

Dr. Husnoo: This item is for payment of firefighting vehicles of which maintenance is being charged. The Mauritius Fire and Rescue Service has a fleet of 147 vehicles which need regular preventive maintenance to placement of used parts, renewal of worn out tyres and batteries. Increase is due mainly to the acquisition of new fire trucks and utility vehicles.

Mr Uteem: The question was the service providers. Who does the maintenance?

Dr. Husnoo: I don’t have it here with me but I can later let you have it.

Mr Uteem: Thank you.

Mr Chairperson: Hon. Ameer Meea!

Mr Ameer Meea: Yes, thank you, Mr Chairperson. On page 176, item 21110 – Personal Emoluments, can I ask the hon. Minister the examination for station officers which were cancelled, can I have an update on those examinations? What happened? Is there any investigation or when is the new examination scheduled for?
**Dr. Husnoo:** As you are aware, this examination is done by the Discipline Forces. It was cancelled the last time but it is the Discipline Forces that is going to take over and is going to do the examination. So, it does not fall under Local Government but the DFSC.

**Mr Chairperson:** Hon. Lobine!

**Mr Lobine:** Under item 22120 – Fees, may we have more details please as to the sum being allocated for fees?

**Dr. Husnoo:** This is for payment of fees to Consultants, Chairperson and members of the Departmental Bid Evaluation Committees and training courses as well.

**The Chairperson:** We move to page 177? I have got a long list for 177 here. Hon. Woochit!

**Mr Woochit:** Item 31121.801 – (c) Acquisition of Fire and Rescue Vehicles, there has been Rs283 m. which had been earmarked and this year we have no fund provided. Can we have an explanation on this one?

**Dr. Husnoo:** Actually 20 Firefighting and Rescue Vehicles have been delivered already and commissioned in September 2022 and they are all operational.

**The Chairperson:** Hon. Dhunoo!

**Mr Dhunoo:** Thank you, Mr Chairperson. Item 31122.999 – Acquisition of Other Machinery and Equipment (b) Aerial Drone, can the Vice Prime Minister give more details about this?

**Dr. Husnoo:** Actually they are trying to buy a drone, naturally to help them in very difficult circumstances during fire and all and the technical specification are under preparation. Tender is expected to be launched in August 2023.

**The Chairperson:** Hon. David!

**Mr David:** Thank you, Mr Chairperson. Item 31112.424 – Upgrading of Fire Stations, I can see that for this new financial year, we have a budget of Rs20 m. which is being earmarked. May I have some details about those upgrading works? Thank you.
